Handbook of Feminist Research Sharlene Nagy Hesse-Biber, 2012 The second edition of the Handbook of Feminist Research Theory and Praxis presents both a theoretical and practical approach to conducting social science research on for and about women The Handbook enables readers to develop an understanding of feminist research by introducing a range of feminist epistemologies methodologies and methods that have had a significant impact on feminist research practice and women's studies scholarship The Handbook continues to provide a set of clearly defined research concepts that are devoid of as much technical language as possible It continues to engage readers with cutting edge debates in the field as well as the practical applications and issues for those whose research affects social policy and social change It also expands on the wealth of interdisciplinary understanding of feminist research praxis that is grounded in a tight link between epistemology methodology and method The second edition of this Handbook will provide researchers with the tools for excavating subjugated knowledge on women's lives and the lives of other marginalized groups with the goals of empowerment and social change

Handbook of Research on Overcoming Digital Divides: Constructing an Equitable and Competitive Information Society Ferro, Enrico, Dwivedi, Yogesh K., Gil-Garcia, J. Ramon, Williams, Michael D., 2009-09-30 This book presents a comprehensive

integrative and global view of what has been called the digital divide Provided by publisher Information Systems Research Bonnie Kaplan, Duane P. Truex, David Wastell, A. Trevor Wood-Harper, Janice I. DeGross, 2006-04-11 Information Systems Research Relevant Theory and Informed Practice comprises the edited proceedings of the WG8 2 conference Relevant Theory and Informed Practice Looking Forward from a 20 Year Perspective on IS Research which was sponsored by IFIP and held in Manchester England in July 2004 The conference attracted a record number of high quality manuscripts all of which were subjected to a rigorous reviewing process in which four to eight track chairs associate editors and reviewers thoughtfully scrutinized papers by the highly regarded as well as the newcomers No person or idea was considered sacrosanct and no paper made it through this process unscathed All authors were asked to revise the accepted papers some more than once thus good papers got better With only 29 percent of the papers accepted these proceedings are significantly more selective than is typical of many conference proceedings This volume is organized in 7 sections with 33 full research papers providing panoramic views and reflections on the Information Systems IS discipline followed by papers featuring critical interpretive studies action research theoretical perspectives on IS research and the methods and politics of IS development Also included are 6 panel descriptions and a new category of bright idea position papers 11 in all wherein main points are summarized in a pithy and provocative fashion *Open Access and the Public Domain in Digital Data and Information for Science* National Research Council, Policy and Global Affairs, Board on International Scientific Organizations, U.S. National Committee for CODATA, 2004-06-14 This symposium which was held on March 10 11 2003 at UNESCO headquarters in Paris brought together policy experts and managers from the government and academic sectors in both developed and developing countries to 1 describe the role value and limits that the public domain and open access to digital data and information have in the context of international research 2 identify and analyze the various legal economic and technological pressures on the public domain in digital data and information and their potential effects on international research and 3 review the existing and proposed approaches for preserving and promoting the public domain and open access to scientific and technical data and information on a global basis with particular attention to the needs of developing countries *Gendered Mobilities* Tim Cresswell, 2016-04-22 Being socially and geographically mobile is generally seen as one of the central aspects of women's wellbeing Alongside health education and political participation mobility is indispensable in order for women to reach goals such as agency and freedom Building on new philosophical underpinnings of mobility whereby society is seen to be framed by the convergence of various mobilities this volume focuses on the intersection of mobility social justice and gender The authors reflect on five highly interdependent mobilities that form and reform social life *Agents of Change* Gabriele Kreutzner, Heidi Schelhowe, 2012-12-06 One of the major driving forces behind the international Women's University was the interest in changing the traditional university In its pursuit of this goal the projekt vifu the Virtual International University combined the overall focus on gender with a conceptual stress on

virtuality as a potential inroad to transform and innovate the established academic system This collection presents results and critical evaluations of the vifu as a feminist project designed in flavor of change In addition to this the volume presents and discusses projects which theoretically and practically integrate the new ICTs into their departure to new horizons in higher education and research and at the same practice a particular sensitivity towards gender as a social category The authors of this anthology share the perspective on the category of gender and ICT related developments summed up by virtuality as potential tools for transforming traditional academia While change is not considered as a quality per se each contribution makes its case for specific kinds of making new In doing so they also seek answers to the questions of a democratic and socially responsible knowledge production and distribution in the 21 st century Digital Literacy: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources,2012-07-31 Digital Literacy Concepts Methodologies Tools and Applications presents a vital compendium of research detailing the latest case studies architectures frameworks methodologies and research on Digital Democracy With contributions from authors around the world this three volume collection presents the most sophisticated research and developments from the field relevant to researchers academics and practitioners alike In order to stay abreast of the latest research this book affords a vital look into Digital Literacy research **The Routledge Companion to Media & Gender** Cynthia Carter,Linda Steiner,Lisa McLaughlin,2013-12-13 The Routledge Companion to Media and Gender offers a comprehensive examination of media and gender studies charting its histories investigating ongoing controversies and assessing future trends The 59 chapters in this volume written by leading researchers from around the world provide scholars and students with an engaging and authoritative survey of current thinking in media and gender research The Companion includes the following features With each chapter addressing a distinct concrete set of issues the volume includes research from around the world to engage readers in a broad array of global and transnational issues and intersectional perspectives Authors address a series of important questions that have consequences for current and future thinking in the field including postfeminism sexual violence masculinity media industries queer identities video games digital policy media activism sexualization docusoaps teen drama cosmetic surgery media Islamophobia sport telenovelas news audiences pornography and social and mobile media A range of academic disciplines inform exploration of key issues around production and policymaking representation audience engagement and the place of gender in media studies The Routledge Companion to Media and Gender is an essential guide to the central ideas concepts and debates currently shaping media and gender research *Gender and the Digital Economy* Cecilia Ng,Swasti Mitter,2005-11-05 In the global discourse on ICTs the concern so far has primarily been outsourcing and the loss of service sector jobs from the developed world This book focuses instead on the positive aspects of the digital economy as they relate to women in the developing world It illustrates with case studies from Argentina Morocco India Malaysia and the Philippines how economic empowerment through the medium of ICTs can change the position of women

within their families and the workplace even in the face of uneven development processes This timely volume which is rooted in primary and original research illuminates the gender related facets of the emergent information society while raising key questions about the implications of the digital economy on women s work and lives *Gender Relations in Forest Societies in Asia* Govind Kelkar,Dev Nathan,Pierre Walter,2003-12-06 Extrait de la couverture Of the numerous available studies on forest management in Asia only a few mention the role of women or pay attention to gender relations Even projects are largely designed in terms of households or communities where men are the decision makers and the owners or managers of forests This important volume views gender relations as a crucial factor in the management of land and forests and maintains that the continuing invisibility of women in these areas only compounds poverty shortages and the increased workloads of forest based women Based on fieldwork conducted in several forest societies in China Thailand India and Malaysia the contributors explore the changes in gender relations within indigenous communities from matrilineal and or gender egalitarian systems to ones where male domination is the norm **Breaking Into the Lab** Sue V. Rosser,2014-10-22 Why are there so few women in science In *Breaking into the Lab* Sue Rosser uses the experiences of successful women scientists and engineers to answer the question of why elite institutions have so few women scientists and engineers tenured on their faculties Women are highly qualified motivated students and yet they have drastically higher rates of attrition and they are shying away from the fields with the greatest demand for workers and the biggest economic payoffs such as engineering computer sciences and the physical sciences Rosser shows that these continuing trends are not only disappointing they are urgent the U S can no longer afford to lose the talents of the women scientists and engineers because it is quickly losing its lead in science and technology Ultimately these biases and barriers may lock women out of the new scientific frontiers of innovation and technology transfer resulting in loss of useful inventions and products to society **Exploring Digital Design** Ina Wagner,Tone Bratteteig,Dagny Stuedahl,2010-08-12 *Exploring Digital Design* takes a multi disciplinary look at digital design research where digital design is embedded in a larger socio cultural context Working from socio technical research areas such as Participatory Design PD Computer Supported Cooperative Work CSCW and Human Computer Interaction HCI the book explores how humanities offer new insights into digital design and discusses a variety of digital design research practices methods and theoretical approaches spanning established disciplinary borders The aim of the book is to explore the diversity of contemporary digital design practices in which commonly shared aspects are interpreted and integrated into different disciplinary and interdisciplinary conversations It is the conversations and explorations with humanities that further distinguish this book within digital design research Illustrated with real examples from digital design research practices from a variety of research projects and from a broad range of contexts *Exploring Digital Design* offers a basis for understanding the disciplinary roots as well as the interdisciplinary dialogues in digital design research providing theoretical empirical and methodological sources for understanding digital design research The first half of the book

Exploring Digital Design is authored as a multi disciplinary approach to digital design research and represents novel perspectives and analyses in this research The contributors are Gunnar Liest l Andrew Morrison and Christina M rtberg in addition to the editors Although primarily written for researchers and graduate students digital design practioners will also find the book useful Overall Exploring Digital Design provides an excellent introduction to and resource for research into digital design

Frictions in Cosmopolitan Mobilities Rodanthi Tzanelli,2021-04-30 This groundbreaking book investigates the clash between a desire for unfettered mobility and the prevalence of inequality exploring how this generates frictions in everyday life and how it challenges the ideal of just cosmopolitanism Reading fictional and popular cultural texts against real global contexts it develops an aesthetics of justice that does not advocate cosmopolitan mobility at the expense of care and hospitality but rather interrogates their divorce in neoliberal contexts

Gender-Technology Relations H. Corneliussen,2011-11-24 Through empirical material as well as theoretical discussions this book explores developments in gender technology relations from the 1980s to today The author draws on her long lasting research in the field providing insight in both historical and more recent discussions of gender in relation to computers and computing

Women, Land and Power in Asia Govind Kelkar, Maithreyi Krishnaraj,2020-11-29 Across the world women constitute an integral part of the agricultural sector This volume is based on feminist responses to farming women s struggle for economic rights and social justice in Asia and seeks to provide a greater understanding of the development consequences of women s marginal limited ownership rights to land and other productive assets Using comprehensive analyses quantitative and qualitative data and case studies from India China Bangladesh Bhutan Nepal and other countries of the Asia Pacific region this volume brings together scholars and activists engaged with women s unmediated entitlement to land and productive assets While generally taking a position in favour of asset redistribution the volume addresses two major issues first the conflict between legal measures and socio cultural norms in a context where laws that seek to secure gender equality and women s economic empowerment are often overruled by norms that favour men and second how changes in the global economy in relation to traditional farming practices have adversely impacted women s rights especially in regions where they previously enjoyed more customary rights in asset control and management The book draws attention to issues of economic security gender equitable access to resources and asset building human rights and law land based livelihoods caste and ethnic diversity and voices in the women s movements This book will be useful to policy makers civil society organisations researchers and students of gender and women s studies development studies sociology economics and agriculture
