**Style, Gender, and Fantasy in Nineteenth-Century American Women's Writing** Dorri Beam,2010-06-03 In this 2010 book Dorri Beam presents an important contribution to nineteenth century fiction by examining how and why a florid and sensuous style came to be adopted by so many authors Discussing a diverse range of authors including Margaret Fuller and Pauline Hopkins Beam traces this style through a variety of literary endeavors and reconstructs the political rationale behind the writers commitments to this form of prose Beam provides both close readings of a number of familiar and unfamiliar works and an overarching account of the importance of this form of writing suggesting new ways of looking at style as a medium through which gender can be signified and reshaped **Style Gender and Fantasy in Nineteenth Century American Women s Writing** redefines our understanding of women s relation to aesthetics and their contribution to both American literary romanticism and feminist reform This illuminating account provides valuable new insights for scholars of American literature and women s writing

**Transfiguring America** Jeffrey Steele,2001 Transfiguring America is the product of more than ten years of research and numerous published articles on Margaret Fuller arguably America s first feminist theorist and one of the most important woman writers in the nineteenth century Focusing on Fuller s development of a powerful language that paired cultural critique with mythmaking Steele shows why her writing had such a vital impact on the woman s rights movement and modern conceptions of gender This groundbreaking study pays special attention to the ways in which Fuller s feminist consciousness and social theory emerged out of her mourning for herself and others her dialogue with Emersonian Transcendentalism and her eclectic reading in occult and mythical sources Transfiguring America is the first book to provide detailed analyses of all of Fuller s

major texts including her mystical Dial essays correspondence with Emerson Summer on the Lakes 1844 poetry Woman in the Nineteenth Century and New York Tribune essays written both in New York and Europe Starting from her own profound sense of loss as a marginalized woman Fuller eventually recognized the ways in which the foundational myths of American society buttressed by conservative religious ideologies replicated dysfunctional images of manhood and womanhood With Woman in the Nineteenth Century after exploring the roots of oppression in her essays and poetry Fuller advanced the cause of woman s rights by conceptualizing a more fluid and equitable model of gender founded upon the mythical reconfiguration of human potential But as her horizons expanded Fuller demanded not only political equality for women but also emotional intellectual and spiritual freedom for all victims of social oppression By the end of her career Steele shows Fuller had blended personal experience and cultural critique into the imaginative reconstruction of American society Beginning with a fervent belief in personal reform she ended her career with the apocalyptic conviction that the dominant myths both of selfhood and national identity must be transfigured Out of the ashes of personal turmoil and political revolution she looked for the phoenix of a revitalized society founded upon the ideal of political justice     Encyclopedia of Transcendentalism Tiffany K. Wayne,2014-05-14 Presents a reference guide to transcendentalism with articles on significant works writers concepts and more     Antebellum American Women Writers and the Road Susan L. Roberson,2012-07-26 A study of American women s narratives of mobility and travel this book examines how geographic movement opened up other movements or mobilities for antebellum women at a time of great national expansion Concerned with issues of personal and national identity the study demonstrates how women not only went out on the open road but participated in public discussions of nationhood in the texts they wrote Roberson examines a variety of narratives and subjects including not only traditional travel narratives of voyages to the West or to foreign locales but also the ways travel and movement figured in autobiography spiritual and political narratives and domestic novels by women as they constructed their own politics of mobility These narratives by such women as Margaret Fuller Susan Warner and Harriet Beecher Stowe destabilize the male dominated stories of American travel and nation building as women claimed the public road as a domain in which they belonged bringing with them their own ideas about mobility self and nation The many women s stories of mobility also destabilize a singular view of women s history and broaden our outlook on geographic movement and its repercussions for other movements Looking at texts not usually labeled travel writing like the domestic novel brings to light social relations enacted on the road and the relation between story location and mobility     Traveling Traditions Erik Redling,2016-03-21 This study seeks to fill a major gap in the fields of Nineteenth Century American and British Studies by examining how nineteenth century intellectuals shaped and re shaped aesthetic traditions across the Atlantic Ocean Special attention is paid to a group of salient cultural concepts such as artist as hero imagination the picturesque reform simultaneity and seriality Although embedded in a particular aesthetic tradition these concepts travel from one culture to another and are transformed

along their transatlantic journeys The purpose of this book is to explore the roles of these traveling concepts within the realm of transatlantic cultures and to trace their at times surprising paths within ever widening transnational intellectual networks

The women featured in this four-volume set cover the full sweep of history from our ancestral forbearer Lucy to today's tennis phenoms Venus and Serena Williams. Every walk of life is represented in these pages from powerful monarchs and politicians to talented artists and writers from inquisitive scientists to outspoken activists. Each biography follows a standardized format recounting the woman's life and accomplishments, discussing the challenges she faced within her particular time and place in history, and exploring the lasting legacy she left. A chronological listing of biographies makes it easy for readers to zero in on particular time periods, while a further reading list at the end of each essay serves as a gateway to further exploration and study. High-interest sidebars accompany many of the biographies, offering more nuanced glimpses into the lives of these fascinating women.

*Margaret Fuller* Charles Capper, 1992. Filled with dramatic, ironic, and sometimes tragic turns, this superb biography captures the story of one of America's most extraordinary figures, producing at once the best life of Fuller ever written and one of the great biographies in American history. In Volume II, Charles Capper illuminates Fuller's public years, focusing on her struggles to establish her identity as an influential intellectual woman in the Romantic Age. He brings to life Fuller's dramatic mixture of inward struggles, intimate social life, and deep engagements with the movements of her time. He describes how Fuller struggled to reconcile high avant-garde cultural ideals and Romantic critical methods with democratic social and political commitments, and how she strove to articulate a cosmopolitan vision for her nation's culture and politics. Capper also offers fresh and often startlingly new treatments of Fuller's friendships with Ralph Waldo Emerson, Thomas Carlyle, and Giuseppe Mazzini, in addition to many others.
