Feminist Economics And The World Bank History Theory And Policy:

Feminist Economics and the World Bank Edith Kuiper,Drucilla Barker,2006-05-02 In this book an international team of contributors including Diane Elson Suzanne Bergeron and Cheryl Doss provide an assessment of the World Bank **The Routledge Handbook of Feminist Economics** Günseli Berik,Ebru Kongar,2021-05-23 The Routledge Handbook of Feminist Economics presents a comprehensive overview of the contributions of feminist economics to the discipline of economics and beyond Each chapter situates the topic within the history of the field reflects upon current debates and looks forward to identify cutting edge research Consistent with feminist economics goal of strong objectivity this Handbook compiles contributions from different traditions in feminist economics including but not limited to Marxian political economy institutionalist economics ecological economics and neoclassical economics and from different disciplines such as economics philosophy and political science The Handbook delineates the social provisioning methodology and highlights its insights for the development of feminist economics The contributors are a diverse mix of established and rising scholars of feminist economics from around the globe who skilfully frame the current state and future direction of feminist economic scholarship This carefully crafted volume will be an essential resource for researchers and instructors of feminist economics The SAGE Handbook of Feminist Theory Mary Evans,Clare Hemmings,Marsha Henry,Hazel Johnstone,Sumi Madhok,Ania Plomien,Sadie Wearing,2014-08-12 At no point in recorded history has there been an absence of intense and heated discussion about the subject of how to conduct relations between women and men This Handbook provides a comprehensive guide to these omnipresent issues and debates mapping the present and future of thinking about feminist theory The chapters gathered here present the state of the art in scholarship in the field covering Epistemology and marginality Literary visual and cultural representations Sexuality Macro and microeconomics of gender Conflict and peace The most important consensus in this volume is that a central organizing tenet of feminism is its willingness to examine the ways in which gender and relations between women and men have been and are organized The authors bring a shared commitment to the critical appraisal of gender relations as well as a recognition that to think theoretically is not to detach concerns from lived experience but to extend the possibilities of understanding With this focus on theory and theorizing about the world in which we live this Handbook asks us across all disciplines and situations to abandon our taken for granted assumptions about the world and interrogate both the origin and the implications of our ideas about gender relations and feminism It is an essential reference work for advanced students and academics not only of feminist theory but of gender and sexuality across the humanities and social sciences Gendering Globalization on the Ground Gay Young,2014-11-13 How has globalization worked for women working on the frontlines of neoliberalism on the Mexico US border This border divides US from Others and produces social inequalities that form a site where marginalized border women encounter the othering power of neoliberalism and confront inequalities of gender and class Within this context a critical comparison of socially similar

women working either in export production industries or in small scale commerce and low level services in Ciudad Ju rez reveals how export factory work constrains women s empowerment at home as well as the wages they earn and the well being of their households This volume challenges the neoliberal rationale of empowering women to support market growth and argues instead for understanding women s empowerment as a process of transformation from disempowerment by gender power relations to challenging masculinist domination in households and ultimately the economy and society Because structures of gender and globalization are mutually constituted women s empowerment as gender democracy is integral to producing alternative democratic globalization Using a feminist methodology that gives attention to the standpoint of women located on the downside of social hierarchies and takes into account strategically diverse points of view this study develops analysis to counter neoliberal globalization as it touches down in the lives of ordinary women and men on the border and beyond

Development, Sexual Rights and Global Governance Amy Lind, 2010-01-04 This book addresses how sexual practices and identities are imagined and regulated through development discourses and within institutions of global governance The underlying premise of this volume is that the global development industry plays a central role in constructing people s sexual lives access to citizenship and struggles for livelihood Despite the industry s persistent insistence on viewing sexuality as basically outside the realm of economic modernization and anti poverty programs this volume brings to the fore heterosexual bias within macroeconomic and human rights development frameworks The work fills an important gap in understanding how people s intimate lives are governed through heteronormative policies which typically assume that the family is based on blood or property ties rather than on alternative forms of kinship By placing heteronormativity at the center of analysis this anthology thus provides a much needed discussion about the development industry s role in pathologizing sexual deviance yet also more recently in helping make visible a sexual rights agenda Providing insights valuable to a range of disciplines this book will be of particular interest to students and scholars of Development Studies Gender Studies and International Relations It will also be highly relevant to development practitioners and international human rights advocates The Open Access version of this book available at <http://www.taylorfrancis.com/books/e/9780203868348> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
