Global Feminist Ethics Peggy DesAutels, Rebecca Whisnant, 2010 This volume is fourth in the series of annuals created under the auspices of The Association for Feminist Ethics and Social Theory FEAST The topics covered herein from peacekeeping and terrorism to sex trafficking and women s paid labor to poverty and religious fundamentalism are vital to women and to feminist movements throughout the world

Challenging Liberalism Lisa H. Schwartzman, 2007-05-02 Questions about the relevance and value of various liberal concepts are at the heart of important debates among feminist philosophers and social theorists Although many feminists invoke concepts such as rights equality autonomy and freedom in arguments for liberation some attempt to avoid them noting that they can also reinforce and perpetuate oppressive social structures In *Challenging Liberalism* Schwartzman explores the reasons why concepts such as rights and equality can sometimes reinforce oppression She argues that certain forms of abstraction and individualism are central to liberal methodology and that these give rise to a number of problems Drawing on the work of feminist moral political and legal theorists she constructs an approach that employs these concepts while viewing them from within a critique of social relations of power

The Handbook of Communication Ethics George Cheney, Steve May, Debashish Munshi, 2011-01-18 The Handbook of Communication Ethics serves as a comprehensive guide to the study of communication and ethics It brings together analyses and applications based on recognized ethical theories as well as those outside the traditional domain of ethics but which engage important questions of power equality and justice The work herein encourages readers to make important connections between matters of social justice and ethical theory This volume makes an unparalleled contribution to the literature of communication studies through consolidating knowledge about the multiple relationships between communication and ethics by systematically treating areas of application and by introducing explicit and implicit examinations of communication ethics to one another The Handbook takes an international approach analyzing diverse cultural contexts and comparative assessments The chapters in this volume cover a wide range of theoretical perspectives on communication and ethics including feminist postmodern and postcolonial engage

with communication contexts such as interpersonal and small group communication journalism new media visual communication public relations and marketing and explore contemporary issues such as democracy religion secularism the environment trade law and economics The chapters also consider the dialectical tensions between theory and practice academic and popular discourses universalism and particularism the global and the local and rationality and emotion An invaluable resource for scholars in communication and related disciplines the Handbook also serves as a main point of reference in graduate and upper division undergraduate courses in communication and ethics It stands as an exceptionally comprehensive resource for the study of communication and ethics Disability Bioethics Jackie Leach Scully, 2008-08-15 This book reconceives disability as a set of social relations and practices as experienced embodiment and as an emancipatory movement as well as a biomedical phenomenon The author brings new attention to complex ethical questions surrounding disability looking at not only **The Bloomsbury Handbook of Care Ethics** Matilda Carter, 2025-07-24 Emphasising the vulnerability and interdependence of humans care ethics has emerged in recent years as a powerful alternative to dominant modes of thinking in moral philosophy Bringing together the theoretical and applied dimensions of care ethics this pioneering volume provides an authoritative overview of what care ethics is and the contributions it can make to pressing contemporary problems Divided into two parts Part I of The Bloomsbury Handbook of Care Ethics traces the development of care ethics how it interacts with other central components of moral reasoning such as freedom and normative justification and the ongoing discussions among care ethicists about the direction scope and underlying mechanisms of the theory Part II then showcases the varied contributions care ethics can make to key areas of applied philosophy and to research in the social sciences from disability and care medical ethics and feminist ethics to timely issues such as maternity care and public administration With an international team of experts providing interdisciplinary approaches to care this is the place to start if you want to gain an in depth insight into the field of care ethics and its crucial role in addressing worldwide vulnerabilities

The Ethics of Need Sarah Clark Miller, 2013-03-01 The Ethics of Need Agency Dignity and Obligation argues for the philosophical importance of the notion of need and for an ethical framework through which we can determine which needs have moral significance In the volume Sarah Clark Miller synthesizes insights from Kantian and feminist care ethics to establish that our mutual and inevitable interdependence gives rise to a duty to care for the needs of others Further she argues that we are obligated not merely to meet others needs but to do so in a manner that expresses dignifying care a concept that captures how human interactions can grant or deny equal moral standing and inclusion in a moral community She illuminates these theoretical developments by examining two cases where urgent needs require a caring and dignifying response the needs of the elderly and the needs of global strangers Those working in the areas of feminist theory women s studies aging studies bioethics and global studies should find this volume of interest **Feminist Ethics and Social and Political Philosophy: Theorizing the Non-Ideal** Lisa Tessman, 2009-07-30 Feminist Ethics and Social and Political

Philosophy Theorizing the Non Ideal is a collection of feminist essays that self consciously develop non idealizing approaches to either ethics or social and political philosophy or both Characterizing feminist ethics and social and political philosophy as marked by a tendency to be non idealizing serves to thematize the volume while still allowing the essays to be diverse enough to constitute a representation of current work in the fields of feminist ethics and social and political philosophy Each of the essays either serves as an instance of work that is rooted in actual non ideal conditions and that as such is able to consider any of the many questions relevant to subordinated people or reflects theoretically on the significance of non idealizing as an approach to feminist ethics or social and political philosophy The volume will be of interest to feminist scholars from all disciplines to academics who are ethicists and political philosophers as well as to graduate students

The Aging-Disability

Nexus Katie Aubrecht, Christine Kelly, Carla Rice, 2020-06-01 As the global population ages disability demographics are shifting Societal transformation and global health inequities have changed who is likely to reach old age who is likely to live

with disability and the relationship between aging and disability in various socio cultural and geopolitical contexts The Aging Disability Nexus breaks new ground by bringing gerontology and disability studies into dialogue with each other through a variety of empirical conceptual and pedagogical approaches Contributors explore the tensions that shape the way disability and aging are understood experienced and responded to at both individual and systemic levels while avoiding the common tendency to conflate these overlapping elements and map them onto a normative faulty notion of the human life trajectory This perceptive work analyzes the distinction between aging with a disability and aging into disability and reveals how multiple identities socio economic forces culture and community give form to our experiences **Practicing**

Communication Ethics Kenneth E. Anderson, Paula S. Tompkins, 2015-07-17 Practicing Communication Ethics provides a theoretical framework for developing a personal standard of ethics that can be applied in real world communication situations Through an examination of specific ethical values including truth justice freedom care and integrity this first edition enables the reader to personally determine which values they are ethically committed to upholding Blending communication theory ethics as practical philosophy and moral psychology this text presents the practice of communication ethics as part of the lifelong process of personal development and fosters the ability in its readers to approach

communication decision making through an ethical lens **Continental Feminism Reader** Ann J. Cahill, Jennifer Hansen, 2004-09-01 In an era of backlash and supposed stagnation feminist philosophers are still providing fresh and challenging perspectives you just have to know where to look Continental feminist theory continues to address pressing questions of equality and difference identity and subjectivity Modern thinkers like Judith Butler Kelly Oliver and Drucilla Cornell give strikingly new perspectives on sex gender sexual politics and the various social reasons for gender inequality Yet their theories are not always well received Continental Feminism Reader responds to the marginalization of these thinkers and others like them In this volume Ann J Cahill and Jennifer Hansen collect the most groundbreaking recent work in Continental Feminist Theory introducing and explaining pieces that are often mystifying to those outside the field and outside academia With these essays Continental Feminism Reader begins the process of reanimating feminist politics through the critical tools of its contributors **Humankind and Humanity in the Philosophy of the Enlightenment** Stefanie

Buchenau, Ansgar Lyssy, 2023-08-24 What makes us human beings Is it merely some corporeal aspect or rather some specific mental capacity language or some form of moral agency or social life Is there a gendered bias within the concept of humanity How do human beings become more human and can we somehow cease to be human This volume provides some answers to these fundamental questions and more by charting the increased preoccupation of the European Enlightenment with the concepts of humankind and humanity Chapters investigate the philosophical concerns of major figures across Western Europe including Montesquieu Diderot Rousseau Locke Hume Ferguson Kant Herder Johann Friedrich Blumenbach and the Comte de Buffon As these philosophers develop important descriptive and comparative approaches to the human species and

moral and social ideals of humanity they present a view of the Enlightenment project as a particular kind of humanism that is different from its Ancient and Renaissance predecessors With contributions from a team of internationally recognized scholars including Stephen Gaukroger Michael Forster C line Spector Jacqueline Taylor and G nter Z ller this book offers a novel interpretation of the Enlightenment that is both clear in focus and impressive in scope *The SAGE Handbook of Qualitative Research* Norman K. Denzin (ed),Yvonna S. Lincoln,2005 A thoroughly revised updated edition this volume includes new chapters on auto ethnography critical race theory queer theory testimonies **Freedom to Care** Asha Bhandary,2019-06-25 This book presents the first systematic account of dependency care in a liberal theory of justice Despite the fact that receiving dependency care is necessary for human survival the practices with which we meet society s care needs are seldom recognized for their functional role Instead norms about gender and race obscure and shape expectations about whose needs for care are legitimate as well as about whose caregiving labor more advantaged members of society will receive These opaque arrangements must be made visible if we are to remedy skewed intuitions and judgements about care Freedom to Care develops a modified form of social contract theory with which to evaluate society s caregiving arrangements Building on work by feminist liberals and care ethicists it reframes debates about care to move beyond gender with an inequality tracking framework that can be employed in any culture Because care provision has been enmeshed in the subordination of women and people of color eliminating the invisibility of these forms of labor yields a critical liberal theory of justice with feminist and anti racist aims Bulletin MLSA University of Michigan. College of Literature, Science, and the Arts,2009 **The Sage Encyclopedia of Multicultural Counseling, Social Justice, and Advocacy** Shannon B. Dermer,Jahaan R. Abdullah,2023-11-21 Since the late 1970s there has been an increase in the study of diversity inclusion race and ethnicity within the field of counseling The SAGE Encyclopedia of Multicultural Counseling Social Justice and Advocacy will comprehensively synthesize a wide range of terms concepts ideologies groups and organizations through a diverse lens This encyclopedia will include entries on a wide range of topics relative to multicultural counseling social justice and advocacy and the experiences of diverse groups The encyclopedia will consist of approximately 600 signed entries arranged alphabetically within four volumes
