appraisal of gender relations as well as a recognition that to think theoretically is not to detach concerns from lived experience but to extend the possibilities of understanding With this focus on theory and theorizing about the world in which we live this Handbook asks us across all disciplines and situations to abandon our taken for granted assumptions about the world and interrogate both the origin and the implications of our ideas about gender relations and feminism It is an essential reference work for advanced students and academics not only of feminist theory but of gender and sexuality across the humanities and social sciences

**Global Coloniality of Power in Guatemala** Egle Martínez Salazar, 2012-07-20. In this engaged critique of the geopolitics of knowledge, Egle Martínez Salazar examines the genocide and other forms of state terror, such as racialized femicide and the attack on Maya childhood, which occurred in Guatemala in the 1980s and 90s, with the full support of Western colonial powers. Drawing on a careful analysis of recently declassified state documents, thematic life histories, and compelling interviews with Maya and Mestizo women and men survivors, Martínez Salazar shows how people resisting oppression were converted into the politically abject. At the center of her book is an examination of how coloniality survives colonialism, a crucial point for understanding how contemporary hegemonic practices and ideologies, such as equality, democracy, human rights, peace, and citizenship, are deeply contested terrains for they create nominal equality from practical social inequality. While many in the global North continue to enjoy the benefits of this domination, millions, if not billions, in both the South and North have been persecuted, controlled, and exterminated during their struggles for a more just world.

*Alice Walker* Gerri Bates, 2005-10-30. Alice Walker, born in Eatonton, Georgia, in 1944, overcame a disadvantaged sharecropping background, blindness in one eye, and the tense times of the Civil Rights Movement to become one of the world's most respected African American writers. While attending both Spelman and Sarah Lawrence Colleges, Walker began to draw on both her personal tragedies and those of her community to write poetry, essays, short stories, and novels that would tell the virtually untold stories of oppressed African and African American women, providing readers with hope and inspiring activism. Perhaps best known for her novel *The Color Purple* (1982), which won the Pulitzer Prize in 1983, and became a

controversial film three years later Walker has introduced and developed womanist theory criticism and practice and continues to champion the causes of women of color by encouraging their strength and liberation in her life and her writings Literary works analyzed in this volume *The Third Life of Grange Copeland* *Meridian* *The Color Purple* *The Temple of My Familiar* *Possessing the Secret of Joy* *By the Light of My Father's Smile* *The Way Forward Is With a Broken Heart* *Now is the Time to Open Your Heart* **Political Thinking, Political Theory, and Civil Society** Steven M DeLue, Timothy

Dale, 2015-09-04 A comprehensive overview of the Western tradition of political thought that approaches concepts with the aim of helping readers develop their own political thinking and critical thinking skills This text is uniquely organized around the theme of civil society what is the nature of a civil society why is it important that will engage students and help make the material relevant Major thinkers discussed in the text are explored not only with the goal of understanding their views but also with an interest in understanding the relationship of their ideas to the notion of a civil society DeLue contends that a civil society is important for securing the way of life that most of us value and want to preserve a way of life that allows people to live freely and place significance on their own lives *What's Wrong with Stereotyping?* Erin Beeghly, 2025-02-20 *What's Wrong with Stereotyping* offers a refreshing and accessibly written philosophical take on the ethics of stereotyping Stereotyping is woven into every aspect of human experience conversation psychology algorithmic systems and culture It relates to generalization and induction core aspects of rationality But when and why it is morally wrong to stereotype This book tackles this deep and enduring puzzle To solve it Erin Beeghly delves into the relationship between stereotyping and another phenomenon discrimination Not only does stereotyping cause discriminatory treatment she argues stereotyping can itself be discriminatory This insight that to stereotype is to discriminate enables a novel philosophical methodology which builds towards a theory of wrongful stereotyping by analyzing the lived experiences of marginalized groups and existing theories of wrongful discrimination Core chapters evaluate important ethical wrongs the failure to treat persons as individuals disrespect harm prejudice threats to freedoms and the failure to treat persons as equals One finds that there is no essence of wrongful stereotyping a single property or set of properties that all problematic cases share in common Nor are the wrongs of stereotyping reducible to an elegant number two or three Instead wrongful stereotyping is a messy normative kind characterized by clusters of wrong making properties including all the ones noted here and perhaps more Readers will come away with a radically pluralistic open ended theory of wrongful stereotyping that they can use to identify wrongful stereotyping in their own lives and our contemporary world Filled with thought provoking examples and models for social change this book emphasizes the messiness of moral reality and the importance of looking to the past in order to understand the ethical perils of stereotyping
