Lamphier,Rosanne Welch,2017-01-23 This four volume set documents the complexity and richness of women s contributions to American history and culture empowering all students by demonstrating a more populist approach to the past Based on the content of most textbooks it would be easy to reach the erroneous conclusion that women have not contributed much to America s history and development Nothing could be further from the truth Offering comprehensive coverage of women of a diverse range of cultures classes ethnicities religions and sexual identifications this four volume set identifies the many ways in which women have helped to shape and strengthen the United States This encyclopedia is organized into four chronological volumes with each volume further divided into three sections Each section features an overview essay and thematic essay as well as detailed entries on topics ranging from Lady Gaga to Ladybird Johnson Lucy Stone and Lucille Ball and from the International Ladies of Rhythm to the International Ladies Garment Workers Union The set also includes a vast variety of primary documents such as personal letters public papers newspaper articles recipes and more These primary documents enhance users learning opportunities and enable readers to better connect with the subject matter      **Feminist Perspectives on Environment and Society** Beate Littig,2014-06-06 For

Escritos sobre ciencia y género Antonio Francisco Canales Serrano, Amparo Gómez Rodríguez, 2019-07-11 Es posible una ciencia sin sesgos de ning n tipo Tendemos a pensar en la ciencia como una herramienta infalible de estudio del ser humano Sin embargo hay quienes la entienden como un producto en s mismo permeable a los valores que imperan en cada momento Por desgracia sabemos que existen malas ciencias que han servido como herramienta para justificar las distintas opresiones y

discriminaciones que la sociedad ha llevado a cabo a lo largo de su historia. Los diversos artículos de este libro firmados por la desaparecida Amparo Gómez Rodríguez abordan sesgos malos prácticos y terrenos inexplorados de la ciencia desde la perspectiva de género. Esta obra nace del deseo de recopilar algunos de los mejores textos de la filosofía, muchos de los cuales publicados a lo largo de los noventa en medios locales, siguen siendo textos de referencia con el fin de visibilizarlos y facilitar su uso. Fundadora del Centro de Estudios de la Mujer en la Universidad de La Laguna y directora de la revista *Clepsydra* de estudios feministas, Amparo persiguió tanto la crítica fundamentada a la ciencia ya hecha y pensada por hombres como la búsqueda y creación de una nueva ciencia feminista y escrita por mujeres. Una ciencia que permita a las mujeres pensarse a sí mismas que aborde el objeto de estudio desde una perspectiva objetiva que incluya epistemologías diferentes y que busque respuestas a preguntas formuladas por sujetos con modos de pensar distintos, pues como se afirma entre estas páginas, los problemas que pueden interesar a todo el mundo no tienen que ser los de los hombres blancos. Creer lo contrario supone dejar inexplicadas muchas cuestiones y aspectos de las cosas fundamentales.

This Reader is a perfect guide to get into bleeding-edge philosophy.

Nicolás Rojas Cortés, Faculty of Philosophy and Humanities, University of Chile. The Reader can be used not only as a textbook in higher education but also by all researchers and students in these fields as reference. I highly recommend it to everyone who is interested in these movements and those works from which excerpts are included in it.

Yunus Tuncel, The New School, New York. Since Sorgner, Sampanikou, Stasienko, and their colleagues almost singlehandedly are crafting and advancing this discipline through its forming stages, when they publish a book with handpicked canonical texts, it should be treated as a landmark.

Carmel Vaisman, The Cohn Institute and The Multidisciplinary Program in the Humanities, Tel Aviv University. What makes the *Posthuman Studies Reader* interesting and exciting is the facility to have in one volume the basic ideas and essentials of transhumanism.
