Feminists Read Habermas Gendering The Subject Of Discourse:

Feminists Read Habermas (RLE Feminist Theory) Johanna Meehan, 2013-05-20 This important new collection considers Jurgen Habermas's discourse theory from a variety of feminist vantage points. Habermas's theory represents one of the most persuasive current formulations of moral and political notions of subjectivity and normativity. Feminist scholars have been drawn to his work because it reflects a tradition of emancipatory political thinking rooted in the Enlightenment and engages with the normative aims of emancipatory social movements. The essays in *Feminists Read Habermas* analyze various aspects of Habermas's theory ranging from his moral theory to political issues of identity and participation. While the contributors hold widely different political and philosophical views, they share a conviction of the potential significance of Habermas's work for feminist reflections on power, norms, and subjectivity.

Feminist Read Habermas Johanna Meehan, 1995 **Women, Politics and the Public Sphere** Ann Brooks, 2019-04-24 *Women, Politics and the Public Sphere* is a socio-historical analysis of the relationship between women, politics, and the public sphere. It looks at the fault lines established in the eighteenth century for later developments in social and political discourse and considers the implications for the political representation of women in the West and globally, highlighting how women public intellectuals now reflect much more social and cultural diversity. Covering the legacy of eighteenth-century intellectual groupings which were dominated by women such as members of the bluestocking circles and other more radical intellectual and philosophical thinkers, the book focuses on women such as Catherine Macaulay and Mary Wollstonecraft. These individuals and groups which emerged in the eighteenth century established intellectual spaces for the emergence of women public intellectuals in subsequent centuries. It also examines women public intellectuals in the US, including Samantha Power, Anne Marie Slaughter, Elizabeth Warren, Condoleezza Rice, Susan Rice, Hillary Clinton, and Sheryl Sandberg.

Moral Textures María Pía Lara, 1998 In this original work, María Pía Lara develops a new approach to public sphere theory and a novel understanding of the history of the feminist struggle.

Dialogue, Politics and Gender Jude Browne, 2013-05-23 *Dialogue* is promoted by its supporters as a pluralising force capable of accommodating the moral disagreement inevitable in every sphere of human society, but this promise is widely and vehemently challenged. How are we

to determine the principles upon which the dialogical exchange should take place How should we think of ourselves as interlocutors Should we associate dialogue with the desire for consensus How should we determine decision making What are the gender dynamics of dialogical politics and how much do they matter This book brings together internationally recognised expert authors from the fields of political and social theory political philosophy and international relations to consider these controversial questions anew from a range of theoretical positions The differences of opinions and clashes of views make for a fascinating and highly informative read Gender, Culture and Human Rights Siobhán

Mullally,2006-05-26 In recent years feminist theory has increasingly defined itself in opposition to universalism and to discourses of human rights Rejecting the troubled legacies of Enlightenment thinking feminists have questioned the very premises upon which the international human rights movement is based Rather than abandoning human rights discourse however this book argues that feminism should reclaim the universal and reconstruct the theory and practice of human rights Discourse ethics and its post metaphysical defence of universalism is offered as a key to this process of reconstruction The implications of discourse ethics and the possibility of reclaiming universalism are explored in the context of the reservations debate in international human rights law and further examined in debates on women s human rights arising in Ireland India and Pakistan Each of these states shares a common constitutional heritage and in each religious cultural claims intertwined with processes of nation building have constrained the pursuit of gender equality Ultimately this book argues in favour of a dual track approach to cultural conflicts combining legal regulation with an ongoing moral political dialogue on the scope and content of human rights **Feminist Poetics** Terry Threadgold,2002-09-11 Feminist Poetics is concerned

with all of these questions but also with the issue of rewriting an older poetics for what it does not say about the marginalisation of the feminine The first half of the book traces the trajectory of a particular feminine academic subject learning to find her voice The second half uses that differently disciplined voice to re read the textual traces of the Governor murder stories murders committed against white women and children by black men in Australia in 1900 This book is a feminist poetics for those who are engaged in the teaching of literacies and in the making of Knowledge about literacies

Philosophical Discussion in Moral Education Tim Sprod,2003-10-04 In recent years there has been an increase in the number of calls for moral education to receive greater public attention In our pluralist society however it is difficult to find agreement on what exactly moral education requires *Philosophical Discussion in Moral Education* develops a detailed philosophical defence of the claim that teachers should engage students in ethical discussions to promote moral competence and strengthen moral character Paying particular attention to the teacher s role this book highlights the justification for and methods of creating a classroom community of ethical inquiry The Critical Theory of Axel Honneth Danielle

Petherbridge,2013-09-05 The Critical Theory of Axel Honneth provides a comprehensive study of the work of Axel Honneth tracing the theoretical trajectory from his earliest writings on philosophical anthropology to the development of a theory of

recognition The book argues that Honneth's early work provides important insights for the reconstruction of the normative project of critical theory and the articulation of a conceptual framework for analyzing social relations of power and domination Danielle Petherbridge contends however that these aims are not fully realized in Honneth's more mature project and that central insights recede as his project develops Petherbridge seeks to demonstrate that the basis for an alternative theory of intersubjectivity that can account for both an adequate theory of power and normative forms of subject formation can be immanently reconstructed from within Honneth's own work By contextualizing Honneth's project in relation to its theoretical influences *The Critical Theory of Axel Honneth* provides a critical study and excellent entry point that will be essential reading for both students and scholars who work in the areas of European philosophy critical theory social and political philosophy or social and political theory

Gendering Politics Hanna Herzog, 2010-05-25 What are the cultural and structural mechanisms that exclude women from politics in general and from local politics in particular What meaning is ascribed to women's political activity *Gendering Politics* explores the place of women in democratic politics by means of a detailed study of women in Israeli politics who were elected to municipal councils from 1950 to 1989 Drawing from a variety of sources including questionnaires interviews newspaper coverage and existing statistical data as well as examinations of studies of the role of women in politics in other democracies Herzog analyzes the extent of success and failure of women in Israeli elections She then explores reasons why female participation in Israeli politics has been relatively slight despite historical precedents and social circumstances that would indicate otherwise The author examines the gendered bias of the power structure as it is shaped by basic cultural organizing principles She exposes hidden assumptions and notes the overt assumptions which by definition exclude women from politics The author also looks at the structure of opportunities within the prevailing political system uncovering the

relevant blocking and facilitating elements Gendering Politics will be of interest to students and scholars of women's studies Israeli studies political sociology and political science Hanna Herzog is Associate Professor of Sociology Tel Aviv University

The ^AErotics of Talk Carla Kaplan, 1996-12-12 Is feminism in crisis With many feminists now questioning identification and focusing on differences between women what is the fate of feminist criticism's traditional imperative to rescue women's stories and make their voices heard In this provocative rereading of the classic texts of the feminist literary canon Carla Kaplan takes a hard look at the legacy of feminist criticism and argues that important features of feminism's own canon have been overlooked in the rush to rescue and identify texts African American women's texts she demonstrates often dramatize their distrust of their readers their lack of faith in the cultural conversation through strategies of self silencing and self talk At the same time she argues the homoerotics of women's writing has too often gone unremarked Not only does longing for an ideal listener draw women's texts into a romance with the reader but there is an erotic excess which is part of feminist critical recuperation itself Drawing on a wide range of resources from sociolinguistics and anthropology to literary theory Kaplan's highly readable study proposes a new model for understanding and representing talk She supplies fresh readings of such feminist classics as Jane Eyre The Yellow Wallpaper Incidents in the Life of a Slave Girl Their Eyes Were Watching God and The Color Purple revealing how their erotics of talk works as a rich political allegory and form of social critique

Routledge International Handbook of Social Justice Michael Reisch, 2014-04-03 In a world where genocide hunger poverty war and disease persist and where richer nations often fail to act to address these problems or act too late a prerequisite to achieving even modest social justice goals is to clarify the meaning of competing discourses on the concept Throughout history calls for social justice have been used to rationalize the status quo promote modest reforms and justify revolutionary even violent action Ironically as the prominence of the concept has risen the meaning of social justice has become increasingly obscured This authoritative volume explores different perspectives on social justice and what its attainment would involve It addresses key issues such as resolving fundamental questions about human nature and social relationships the distribution of resources power status rights access and opportunities and the means by which decisions regarding this distribution are made Illustrating the complexity of the topic it presents a range of international historical and theoretical perspectives and discusses the dilemmas inherent in implementing social justice concepts in policy and practice Covering more than abstract definitions of social justice it also includes multiple examples of how social justice might be achieved at the interpersonal organizational community and societal levels With contributions from leading scholars around the globe Reisch has put together a magisterial and multi faceted overview of social justice It is an essential reference work for all scholars with an interest in social justice from a wide range of disciplines including social work public policy public health law criminology sociology and education

Public Sentiments Glenn Hendler, 2003-04-03 In this book Glenn Hendler explores what he calls the logic of sympathy in novels by Walt Whitman Louisa May Alcott T S Arthur Martin Delany Horatio Alger Fanny Fern Nathaniel Parker Willis Henry James Mark Twain and William Dean Howells For these nineteenth century writers he argues sympathetic identification was not strictly an individual feminizing and private feeling but the quintessentially public sentiment a transformative emotion with the power to shape social institutions and political movements Uniting current scholarship on gender in nineteenth century American culture with historical and theoretical debates on the definition of the public sphere in the period Hendler shows how novels taught diverse readers to feel right to experience their identities as male or female black or white middle or working class through a sentimental emotionally based structure of feeling He links novels with such wide ranging cultural and political discourses as the temperance movement feminism and black nationalism *Public Sentiments* demonstrates that whether published for commercial reasons or for higher moral and aesthetic purposes the

nineteenth century American novel was conceived of as a public instrument designed to play in a sentimental key
