Fence In The Shadow Of Two Worlds:

The Fence Darrell J. Steffensmeier, 1986 This book is based on the experiences of a dealer in stolen goods alias Sam Goodman whose history serves as a model for understanding the role that fences play in today's society. In his straightforward and colorful analysis of underground life, Steffensmeier analyzes how a fence initiates and sustains relationships with thieves, customers, and other fences; how he sets and negotiates prices; the profits he enjoys; the skills required for his job; and the meaning and rewards of fencing. The author relates the circumstances leading to Sam's fall, his eventual arrest and conviction for receiving stolen property. His field interviews are supplemented with court records and newspaper accounts, interviews of thieves and customers who had contact with Sam, several other fences, and law enforcement officials. In addition to documenting the lifestyle of a fascinating criminal life, the author shows how crime is intricately woven into the fabric of society in which thieves and fences share many similarities in skills and behavior with those of legitimate businessmen. Sociologists, criminologists, law enforcement officers, and public policy makers will find this book an enlightening and engaging portrayal of the criminal career.

Confessions of A Dying Thief Sam Goodman Darrell J. Steffensmeier Jeffery T. Ulmer, **Confessions of a Dying Thief** Darrell J. Steffensmeier, 2017-07-12 Recipient of the American Society of Criminology's 2006 Michael J. Hindelang Award for a book published within the past three calendar years that is the most outstanding contribution to research in criminology. Nominated for the 2007 Outstanding Book Award of the Academy of Criminal Justice Sciences. Sam Goodman was a long-time thief, fence, and quasi-legitimate businessman. He had a criminal career that spanned fifty years, beginning in his mid-teens and ending with his death when he was in his mid-sixties. *Confessions of a Dying Thief* is an in-depth ethnographic study of Sam and his world based on continuous contact with him for many years, on multiple interviews with his network of associates in crime and business, and on a series of interviews with him shortly before he died. The book updates and greatly expands the case study of Sam Goodman's fencing activity found in Steffensmeier's award-winning 1986 book *The Fence In the Shadow of Two Worlds*. It combines Sam's colorful narrative accounts with substantive commentary by the authors to provide a more nuanced portrayal of criminal careers, illegal enterprise, and the broad landscape comprising the entity called crime. To more fully understand pathways into and out of crime, as well as the social organization of illegal enterprise, the authors propose an integrative learning opportunity commitment framework that combines differential association, social learning theory, and an extended conceptualization of criminal opportunity with a three-fold theory of commitment to crime. This framework offers an integrated and more complete way of understanding mechanisms that underlie criminal offending and criminal careers. It also recognizes the complexity and scope of the criminal landscape and its embeddedness in the fabric of the larger society, including its criminal justice system. Sam's illness and death are a sobering backdrop to the story.

Encyclopedia of Criminological Theory Francis T. Cullen,Pamela Wilcox,2010-09-23 Consistently excellent The level and coverage of the content make this an invaluable reference for students studying criminology or taking criminal psychology modules at degree level and beyond Adam Tocock Reference Reviews In discussing a criminology topic lecturers

and course textbooks often toss out names of theorists or make a sideways reference to a particular theory and move on as if assuming their student audience possesses the necessary background to appreciate and integrate the reference. However, university reference librarians can tell you this is often far from the case. Students often approach them seeking a source to provide a quick overview of a particular theory or theorist with just the basics: the who, what, where, how, and why. If you will, and reference librarians often find it difficult to guide these students to a quick one-stop source. In response, SAGE Reference is publishing the two-volume *Encyclopedia of Criminological Theory*, available in both print and electronic formats. This serves as a reference source for anyone interested in the roots of contemporary criminological theory. Drawing together a team of international scholars, it examines the global landscape of all the key theories and the theorists behind them, presenting them in the context needed to understand their strengths and weaknesses. In addition to interpretations of long-established theories, it also offers essays on cutting-edge research as one might find in a handbook. And like an unabridged dictionary, it provides concise-to-the-point definitions of key concepts, ideas, schools, and figures. Coverage will include contexts and concepts in criminological theory, the social construction of crime, policy implications of theory, diversity, and intercultural contexts, conflict theory, rational choice theories, conservative criminology, feminist theory.

Social Learning Theory and the Explanation of Crime Ronald L. Akers, Gary F. Jensen, 2017-07-28 Social learning theory has been called the dominant theory of crime and delinquency in the United States, yet it is often misrepresented. This latest volume in the distinguished *Advances in Criminological Theory* series explores the impact of this theory. Some equate it with differential association theory. Others depict it as little more than a micro-level appendage to cultural deviance theories. There have been earlier attempts to clarify the theory's unique features in comparison to other theories, and others have applied it to broader issues. These efforts are extended in this volume, which focuses on developing, applying, and testing the theory on a variety of criminal and delinquent behavior. It applies the theory to treatment and prevention, moving social learning into a global context for the twenty-first century. This comprehensive volume includes the latest work, tests, and theoretical advances in social learning theory and will be particularly helpful to criminologists, sociologists, and psychologists. It may also be of interest to those concerned with current issues relating to delinquency, drug use, abuse, and drinking alcohol abuse.

The Talented Mrs. Mandelbaum Margalit Fox, 2025-09-23 America's first great organized crime lord was a lady, a nice Jewish mother named Mrs. Mandelbaum. A tour de force. With a pickpocket's finesse, Margalit Fox lures us into the criminal underworld of Gilded Age New York. Liza Mundy, author of *The Sisterhood*, A PARADE BEST BOOK OF THE YEAR. In 1850, an impoverished twenty-five-year-old named Fredericka Mandelbaum came to New York in steerage and worked as a peddler on the streets of Lower Manhattan. By the 1870s, she was a fixture of high society and an admired philanthropist. How was she able to ascend from tenement poverty to vast wealth? In the intervening years, Marm Mandelbaum had become the country's most notorious fence, a receiver of stolen goods, and a criminal mastermind. By the mid-1880s, as much as 10 million worth of

purloined luxury goods nearly 300 million today had passed through her Lower East Side shop Called the nucleus and center of the whole organization of crime she planned robberies of cash gold and diamonds throughout the country But Mrs Mandelbaum wasn't just a successful crook She was a business visionary one of the first entrepreneurs in America to systemize the scattershot enterprise of property crime Handpicking a cadre of the finest bank robbers housebreakers and shoplifters she handled logistics and organized supply chains turning theft into a viable scalable business The Talented Mrs Mandelbaum paints a vivid portrait of Gilded Age New York a city teeming with nefarious rogues capitalist power brokers and Tammany Hall bigwigs all straddling the line between underworld enterprise and legitimate commerce Combining deep historical research with the narrative flair for which she is celebrated Margalit Fox tells the unforgettable true story of a once famous heroine whose life exemplifies America's cherished rags to riches narrative while simultaneously upending it entirely

About Criminals Mark Pogrebin, 2004 *About Criminals A View of the Offender's World* is a collection of readings that presents recent and important research on criminal behavior The book takes a naturalistic approach allowing criminals to discuss their offenses and lifestyles from their own perspective This method gives criminals the opportunity to disclose details of their offending behavior and reasons for their participation in crime *About Criminals* offers a first hand examination of offenders motivations descriptions of how they operate their thoughts about victims and descriptive analysis about their sometimes deviant lifestyles

Criminology Piers Beirne, James W. Messerschmidt, 2014 This is a comprehensive introduction to the study of crime and criminological theory for criminology courses The authors take a critical sociological approach which emphasizes the relationship between gender class race age and crime Definitions of crime and the measurement of crime are subjected to a critical analysis that focusses on the social construction of crime and crime rates The book addresses historical feminist and comparative perspectives highlighting the major types of crime and victimization patterns It is of most interest to those who teach criminology out of a sociology department those who are sociologists teaching the course out of CJ or any instructor for whom a critical approach is key
