Over time I became so intrigued with things alternative that I was impelled to learn more and more about them Even so I have done so cautiously never abandoning the skepticism and tough questions that were the hallmarks of my career as a reporter and writer for newspapers in Missouri California Washington D C and New York The journey I ve been on has ended up being enlightening inspirational and life changing Despite my initial doubts the efforts I set in motion to push back boundaries and unlock doors have brought me tremendous rewards personally Even though not every experience I have had has been totally positive and not everything I have read or been told has been credible along the way I have had truly amazing experiences made deep friendships enjoyed countless provocative conversations and spent hour after hour engrossed in what I have been reading or witnessing The people I ve come to know either in person or through their writings have taught me so much and enriched my life in so many ways And for this I owe so much to so many In sum not only am I a happier healthier more peaceful and more loving person now but also my eyes have been opened to a whole new way of living not to mention a whole new way of way of looking at our existence in this miraculous universe of ours Many of the ideas and practices I have been introduced to ones that seemed so wrong headed in the beginning I now accept as sound and valuable even though they often directly contradict what I grew up knowing to be the truth Others have just added new dimensions and perspectives to the understandings I had so long ago So why have I put this story about my own personal journey to paper It s a question I ve wrestled with myself Certainly writing a book was not my objective when I initially set out on my explorations and I do sometimes wonder how what I have to say will be perceived by my more orthodox friends and readers But people who open their minds to the vast possibilities outside the boundaries of conventional wisdom and talk seriously of such things in the here and now are sometimes taken with a grain of salt I do hope that will not be the case with me I see my work as both enlightening and significant Also I am perfectly happy with my life just the way it is without being the author of this book Not only have I always been blessed career wise but also I am in excellent health have great friends and am married to the world s best husband James Roger Sharp a well known American historian and author of important studies on the birth of the nation and its development in the Jacksonian period And Roger and I have a loving family including a son daughter daughter in law and four grandchildren It certainly was not my intention to debunk conventional ideas most of which I am in complete agreement with anyway Although over the years I have learned about experienced and been impressed by a number of alternative healing techniques that does not mean that I am not a fan of Western medicine as well In fact my own personal experience with allopathic medicine has been superb In addition to not wanting to discredit conventional ideas I have not written this book to sell anyone on specific alternative ideas or approaches It is not my goal to persuade others to follow in my specific footsteps Far from it I see my path as mine and mine alone Although I ve spent more than a quarter century tirelessly exploring the multifaceted out of the mainstream world I only want to tell my story as accurately and entertainingly as possible But it is my experience and my story I am definitely not in any position to endorse

anything I've learned about experienced myself or witnessed someone else experience. In the end then I have come to the conclusion that my primary motivation in writing this book is to tell a fascinating illuminating significant story a story I need to share because it sheds light on our incredible magnificent exquisite universe with its tantalizing mysteries. As a newspaper reporter that has been my calling to use whatever knowledge and talents I have to investigate the world and then report back to readers what I have found and to do so as clearly accurately and entertainingly as I have known how. Finally I have to say I would not be unhappy if reading my story were to enable at least a few readers to suspend their disbelief open their minds to out of the mainstream ideas and approaches and then set out themselves on their own individual journeys of discovery. For those readers ready to personally dip a toe into the realm of things alternative then it is my hope that what I have written will serve as a useful how to guidebook to the territory ahead. I wish them all the success in the world. Furthermore sharing my story today seems even more timely relevant and maybe even urgent than when the writing of the book began. I say this after becoming aware of predictions coming from both conventional and unconventional sources about the possibility that our future could be fundamentally different than our present is and past has been. Not only are mainstream figures like former Vice President Al Gore and many scientists urgently and repeatedly warning about changes we may all soon face as a result of the ways climate change may affect our planet but many alternative visionaries also are looking ahead to a planet unlike the one we know today. In the final analysis I hope that my book while offering insights and guidance to readers no matter what the future brings turns out to be a great read. Thus it is my desire that those who experience my journey vicariously by following in my footsteps will not only gain a far greater understanding of and appreciation for what this miraculous world of ours is all about but also enjoy the ride. And if it should turn out that the Earth's future is one of great change it is my wish that the holistic ideas and approaches that I've discovered along my path become especially empowering and valuable as they are less dependent on 21st century technology and more in line with the natural cycles and rhythms of our planet and the universe in which it resides. So come with me. It's an awesome place to be. It's Far Out. **The Battersea Park Road to**

**Paradise** Isabel Losada Author, 2013-01-01. In her bestseller *The Battersea Park Road to Enlightenment* Isabel Losada set out with a modest aim to be absurdly happy every day. But a few years down the road she's stuck in a pothole. No job not good. No man very not good. Nothing has turned out as she'd intended. There's only one way to get out of the hole: throw out the ideas that landed her there and start over. So using the ancient Chinese tradition of the five elements of life: Metal, Fire, Wood, Water, Earth, Isabel breaks her own life down to its essentials to explore five areas of inner and outer change. She calls in a feng shui consultant to discover that her bedroom decor is draining the life out of her. She takes a motivational workshop to experience the power of doing. Turns a silent meditation retreat into an exercise in unrelenting being. Sits at the feet of a Brixton guru to examine the nature of mind and undertakes a shamanic ritual in the Amazon to part company with her own mind completely. As rich as the book is in the particulars of a life hilariously lived it's also universal. Readers can see

themselves in Isabel's experience and look at their lives with new eyes      **Natural Chi Movement** Tienko Ting, 2011-01-04

The modern world is largely focused on the physical on the appetites and senses on doing and having which can blind us to the spiritual realm In *Natural Chi Movement* Tienko Ting articulates a theory of life that unites the physical and spiritual worlds He suggests there is nothing to learn or master each of us and every living thing is a product of the merging of physical and spiritual energy already endowed with the capacity to thrive and heal Activation of our chi is the component to wellness that most of us have been missing It is the essence of the practice of Natural Chi Movement *Natural Chi Movement* guides modern seekers in embracing their spiritual nature and accessing the boundless potential of energy Doing so says Ting can also help address global problems from health care to ecology Featuring 23 illustrations the book draws on Chinese history philosophy and medicine as well as from the author's own work with spiritual energy *Natural Chi Movement* is an exploration into the nature of spiritual energy and how to access and use it for vibrant health and optimal well being Written in a simple lucid style *Natural Chi Movement* sheds much needed light on the nature of the energy that makes up all life opening up a world of extraordinary healing for everyone      *Sacred Practices for Conscious Living* Nancy J. Napier, 2016-06

Now nearly two decades later Napier is ready to share more of her own life story while returning to the subject she was first introduced to by her grandmother As she comes again to the topic that pervades her life story she focuses on several themes including the importance of experiencing a sense of meaning in life the sacred nature of all beings and life itself the belief that everything is an essential part of the full expression of one life both individually and collectively and that we inherently draw from an underlying wholeness the power of what it means to be aware in the present moment and the fact that suffering is part of everyday life and we can learn to move through it Napier explains that once we recognize our place within collective consciousness and focus on compassion and mindfulness we can begin to experience more directly the interdependence and interconnection underlying our place in the universe      *Pause Now* Lyla Yastion, 2009-03-16

This handbook in practical spirituality proposes that the level of stress violence fear and disconnect from Nature in the global society has risen in direct proportion to a fall in the collective level of conscious awareness In order to reverse this trend a conscious impulse is required Human beings need to rediscover the mystical underpinning of all religions and the engine of spiritual transformation the art of presence Only by learning to be present and stay present is it possible to dissolve harmful energy in the form of false opinions and negative feelings and create positive energy that imbues actions with intelligence compassion and respect for the sacredness of all life To this end a practice in sensory awareness is offered It is called the Pause Pausing affirms the body mind continuum by empowering the senses as conduits of conscious awareness When pausing is then applied to ordinary activities such as speaking working thinking and relating to others spiritual evolution accelerates The fruit of a re-awakened life is healing for ourselves for society and for the entire Earth community
