Traces 3 Thomas LaMarre, Kang Nae-Hui, 2004-01-01 Impacts of Modernities the third volume of the Traces series explores the problem of modernity with an emphasis on the impact of Western modernity on East Asia While the essays generally acknowledge modernity as a problem or even failure in order to challenge modernization and modernization theory the volume presents a number of different approaches to and evaluations of modernity in historical and contemporary frameworks One group of essays looks at the complex relations between modernity and production of space place and identity Contributors consider the spatializing tendencies of modernity looking at how resistance to modernization has tended to rely on the production of national and local identities which may serve to reproduce and reinforce the logic of modernization in new registers Of particular importance is the legacy of comparativism

in our contemporary disciplines Other essays explore the historically specific relations that arise between nation empire and representation Contributors reconsider the alleged particularity of national languages and scripts asking whether the insistence on the particular does not already entail an access to the universal and thus maybe to empire Still other essays question whether the prime characteristics of modern power subjection and sovereignty continue to define power relations within the contemporary world order To what extent is it now possible to think power formations and resistance beyond the modern otherwise than modernity Back cover [Encyclopedia of Renewable and Sustainable Materials](#) ,2020-01-09

The Depths of Russia Douglas Rogers,2015-11-23 Russia is among the world s leading oil producers sitting atop the planet s eighth largest reserves Like other oil producing nations it has been profoundly transformed by the oil industry In *The Depths of Russia* Douglas Rogers offers a nuanced and multifaceted analysis of oil s place in Soviet and Russian life based on ethnographic fieldwork and archival research in the Perm region of the Urals Moving beyond models of oil calibrated to

capitalist centers and postcolonial petrostates Rogers traces the distinctive contours of the socialist and then postsocialist oil complex showing how oil has figured in the making and remaking of space and time state and corporation exchange and money and past and present He pays special attention to the material properties and transformations of oil from depth in subsoil deposits to toxicity in refining and to the ways oil has echoed through a range of cultural registers The Depths of Russia challenges the common focus on high politics and Kremlin intrigue by considering the role of oil in barter exchanges and surrogate currencies industry sponsored social and cultural development initiatives and the city of Perm s campaign to become a European Capital of Culture Rogers also situates Soviet and post Soviet oil in global contexts showing that many of the forms of state and corporate power that emerged in Russia after socialism are not outliers but very much part of a global family of state corporate alliances gathered at the intersection of corporate social responsibility cultural sponsorship and the energy and extractive industries

Food

Festivals and Local Development in Italy Michele Filippo Fontefrancesco,2020-10-27 What does the proliferation of food festival tell us about rural areas How can these celebrations pave the way to a better future for the local communities This book is addressing these questions contributing to the ongoing debate about the future of rural peripheries in Europe The volume is based on the ethnographic research conducted in Italy a country internationally known for its food tradition and one of the European countries where the gap between rural and urban space is most pronounced It offers an anthropological analysis of food festivals exploring the transformational role they have to change and develop rural communities Although the festivals aim mostly at tourism they contribute in a wider way to the life of the rural communities acting as devices through which a community redefines itself reinforces its sociality reshapes the perception and use of the surrounding

environment In so doing thus the books suggests to read the festivals not just as celebrations driven by food fashion but rather fundamental grassroots instruments to contrast the effects of rural marginalization and pave the way to a possible better future for the community **Handbook on the Economics of Leisure** Samuel Cameron,2011-01-01 This interdisciplinary Handbook combines both mainstream and heterodox economics to assess the nature scope and importance of leisure activities Surprisingly the field of leisure economics is not thus far a particularly integrated or coherent one In this Handbook a wide ranging body of international scholars get to grips with the core issues taking in the traditional income leisure choice model of textbook microeconomics and Becker s allocation of time model along the way They expertly apply economics to some usually neglected topics such as boredom and sleeping work life balance dating tourism health and fitness sport video games social networking music festivals and sex Contributions from further afield by Veblen Scitovsky and Bourdieu also feature prominently Applying a mix of both theoretical and empirical data undergraduate students in modules on sport leisure economics as well as sport leisure management will find this important resource invaluable

Documentary Film Festivals Carole Roy,2016-03-22 Documentary film festivals do more than provide a venue for watching films they have the potential to foster critical thinking especially toward mainstream media The film festivals discussed in this book also help build a sense of community locally as well as promote solidarity with people involved in struggles for social justice and ecological integrity around the world Documentaries by independent filmmakers reveal stories ignored by mass media stories at times tragic but more often than not inspiring It can be said that documentary film festivals create a public space for citizens to listen together and to become informed on current issues in greater depth than newscast bulletins offer This book shows how documentary films create a liminal space with transformative potential a space that challenges assumptions supports the development of empathy and often stimulates engagement and action In viewing documentaries together and engaging in critical reflection and dialogue citizens can imagine alternative possibilities and consider solutions Documentary Film Festivals Transformative Learning Community Building Solidarity offers the voices of attendees sponsors and organizers who shared their thoughts and experiences of documentary film festivals and the impact on their views and engagement Activists and organizers of various social movements who are seeking ways to inform and inspire will see evidence in this text that documentary film festivals are a means of drawing diverse audiences engaging differences and respectfully promoting hope and preferred visions of the future Documentary Film Festivals Transformative Learning Community Building Solidarity includes concrete examples of creative and courageous struggles that have led to victories often ignored by the media This book is bound to inspire *Leisure Myths and Mythmaking* Brett Lashua,Simon Baker,Troy D. Glover,2022-11-10 This book centralizes powerful leisure stories that may otherwise be understood as myths sometimes recognized often less so that circulate in the field of leisure studies and beyond In everyday use a myth perpetuates a popularly held belief that is false or untrue However in social and cultural theories myths are more complex as

partial truths that privilege particular versions of a shared social reality We see myth as having an absent presence in leisure studies and want to know what myths are what they do and how they circulate and shape people s leisure lives Myths can do more than obfuscate they often animate people s lives motivate collective action and inspire change As the chapters in this edited volume explore in further detail leisure myths and mythmaking involve complex relations in the gaps between reality and imagination from the shared myths of musical legends to myths of placemaking and communities as well as from origin myths of sport practices to fantasy and festivals to the importance of storytelling as mythmaking in tourism In different ways each of these chapters alerts the readers to the absent presence of myths and mythmaking in leisure research The chapters in this book were originally published as a special issue of *Leisure Sciences* **Michaelmas Celebration** Christiane Gerges,2023-10-11 It describes the Michaelmas Celebration How to structure it and the content *Technology Application in Tourism Fairs, Festivals and Events in Asia* Azizul Hassan,2022-03-30 It is an unconditional reality that the tourism industry in Asia is becoming exposed to innovative technologies more than ever before This book reports the latest research in the application of innovative technology to the tourism industry covering the perspectives innovativeness theories issues complexities opportunities and challenges affecting tourism in Asia A blend of comprehensive and extensive efforts by the contributors and editors it is designed especially to cover technology applications in tourism fairs festivals and events in Asia The application and practice of technologies in tourism including the relevant niches of fairs festivals and events are also covered with a focus on the importance of technology in tourism This book highlights in a comprehensive manner technologies that are impacting the tourism industry in Asia as well as the constraints it is facing It deals with distinct topics such as tourism promotion technology driven sustainable tourism development social media accessibility and so on to cover fairs festivals and events This book is a significant contribution towards the very limited knowledge in this identified research area with examples from selected Asian countries This book is designed to accommodate both qualitative and quantitative research linking theory and practice This book has a clear focus on outlining the research issues Each chapter of the book highlights a methodology that was used with rationale for its use This book addresses a number of revisions that unify the theme or framework to integrate the chapters **Catalog of Copyright Entries, Third Series** Library of Congress. departure and or on his theorizing of everyday life with his multi volume Critique of Everyday Life as the focal point This book argues that it is Lefebvre s concept of metaphilosophy that provides the connective tissues for these works one that is chiefly concerned with deciphering the enigma of modernity The book will appeal to a wide interdisciplinary and international audience from the fields of sociology philosophy cultural studies geography the history of ideas and literary studies This includes scholars and students interested in Henri Lefebvre s writings everyday life modernity space time leisure work continental thought critical theory Marxism and technology
