Festival Of The Poor Fertility Decline And The Ideology Of Class In Sicily 1860 198

Leo P. Chall

Festival Of The Poor Fertility Decline And The Ideology Of Class In Sicily 1860 198:

Festival of the Poor Jane Schneider, 1996-04 The historical decline of fertility in Europe has occupied a central place in social history and demography over the past quarter century Most scholars credit Europeans with modulating sexual behavior through either abstinence or the practice of coitus interruptus as a rational choice made in the interest of personal economic comfort yet peasant and working classes have typically lagged behind in birth control and have given rise to the adage that sexual embrace is the festival of the poor Scholarly analyses of lag often reinforce this stigmatizing view Now this subject is given a fresh look through a case study in Sicily one of the last outposts of Western Europe s demographic transition By examining population changes in a single community between 1860 and 1980 the authors offer an extended review and critique of existing models of fertility decline in Europe proposing a new interpretation that emphasizes historical context and class relations They show how the spread of capitalism in Sicily induced an unprecedented rate of population growth with boom and bust cycles creating the class experiences in which reputational networks came to redefine family life how Sicilians began to control their fertility in response to class mediated ideas about gender relations and respectable family size and how the town s gentry artisan and peasant classes adopted family planning methods at different times in response to different pressures Jane and Peter Schneider s anthropologically oriented political economy perspective challenges the position of Western Europe as a model for fertility decline on which every other case should converge looking instead at the diversity of cultural ideals and practices such as those found in Sicily that influence the spread and form of birth control Combining anthropological oral historical and archival methods in new and insightful ways the authors synthesis of a particular case study with a broad historical and theoretical discussion will play a major role in the ongoing debates over the history of European fertility decline and point the way toward integrating the analysis of demographic upheaval with the study of class formation and ideology

Embroidered Stories Edvige Giunta, Joseph Sciorra, 2014-07-29 For Italian immigrants and their descendants needlework represents a marker of identity a cultural touchstone as powerful as pasta and Neapolitan music Out of the artifacts of their memory and imagination Italian immigrants and their descendants used embroidering sewing knitting and crocheting to help define who they were and who they have become This book is an interdisciplinary collection of creative work by authors of Italian origin and academic essays The creative works from thirty seven contributors include memoir poetry and visual arts while the collection as a whole explores a multitude of experiences about and approaches to needlework and immigration from a transnational perspective spanning the late nineteenth century to the late twentieth century At the center of the book over thirty illustrations represent Italian immigrant women s needlework The text reveals the many processes by which a simple object or even the memory of that object becomes something else through literary visual performance ethnographic or critical reimagining While primarily concerned with interpretations of needlework rather than the needlework itself the editors and contributors to *Embroidered Stories* remain

mindful of its history and its associated cultural values which Italian immigrants brought with them to the United States Canada Australia and Argentina and passed on to their descendants **Sociological Abstracts** Leo P. Chall,1996 CSA Sociological Abstracts abstracts and indexes the international literature in sociology and related disciplines in the social and behavioral sciences The database provides abstracts of journal articles and citations to book reviews drawn from over 1 800 serials publications and also provides abstracts of books book chapters dissertations and conference papers **Lud** ,2006
