Human Vision and The Night Sky Michael Borgia,2006-12-11 For years the images have blazed through your imagination They are the magnificent full color photographs returned by the Hubble Space Telescope and its sister Great Observatories of the grand depths of the cosmos From the pillars of creation considered to be Hubble's signature image to the incomprehensible depths of the Hubble Deep Fields to the intricate details imaged in the surface and cloud tops of Mars or Jupiter the power of the Hubble Telescope to turn on the public to science is unparalleled in the history of modern culture They also have spurred new telescope sales to unimaginable highs And after years of watching the heavens through the eyes of NASA you've decided it's time to see it for yourself You make the trip to the department store and pick up that shiny new 500 telescope set it up and soon you're in business Unfortunately the high initial expectations usually give way to disappointment Instead of seeing the magnificent swirling clouds of gas in the Orion Nebula you see a pale green gray cloud with a couple of nondescript stars lurking nearby The swirling red yellow and brown storms of Jupiter are nowhere to be seen only varying shades of gray in the planet's cloud bands assuming you can see bands at all And Mars After waiting all night for the red planet to rise up over the morning horizon you are greeted by nothing more than a featureless reddish orange dot

Enoch and Metatron Collection Scriptural Research Institute,2020-06-11 The five books of Enoch are a collection of books written in Semitic languages and often grouped together as the Book of Enoch or 1st Enoch The books were likely written at different points in time and different Semitic languages The first book was the Book of the Watchers which is generally considered to be the oldest book in the collection however the age of the book is debated The book is now known to have originated long before Christianity since the discovery of the Dead Sea Scrolls however was lost for well over a thousand years to Europeans and assumed to be a Christian era work when the Europeans rediscovered it in Ethiopia The five books of Enoch only survive in Ge'ez the classical language of Ethiopia however do not survive intact and some sections of text do not survive Other books attributed to Enoch including the Secrets of Enoch which is also called the 2nd Book of Enoch however is not the same text as the Semitic 2nd Book of Enoch The Secrets of Enoch has only survived in the Old Slavonic language in the Balkan Peninsula and may be a partial paraphrase of the Book of the Watchers Another text attributed to Enoch is the Revelation of Metatron also called the Revelation of Metatron Book of the Palaces Book of Rabbi Ishmael the High Priest or the 3rd Book of Enoch however is not the same text as the Ethiopian 3rd Book of Enoch or any section of the Semitic books of Enoch The Revelation of Metatron is written as a sequel to the first five books of Enoch and is written from the perspective of Enoch in the sky where his angelic name was Metatron The Revelation of Metatron appears to have been written in Hebrew but includes several Greek and Latin words that have led scholars to assume the text is a Jewish text written in the Christian era The Revelation of Metatron is a medieval Jewish work that claims to have been written in the late 2nd century AD by Rabbi

Ishmael the High Priest It is known by various names including the Sepher Hekhalot Book of the Palaces the 3rd Book of Enoch and the Book of Rabbi Ishmael the High Priest although its most common name is the Revelation of Metatron The earliest name for the work was likely the Sepher Hekhalot Book of the Palaces however all copies have been so reworked that it cannot be known for sure It is clear that Rabbi Ishmael did not write it and his name which is in almost every verse was inserted to replace another name that the medieval publisher did not want associated with the book Rabbi Ishmael was the author of the book called Hekhalot Rabbati Greater Palaces sometime between 100 and 130 AD and his name was later used as a pseudonym by many authors of Merkabah literature between 200 and 1000 AD 1st Enoch: Book of the Watchers

Scriptural Research Institute,2020-04-15 The five books of Enoch are a collection of books written in Semitic languages and often grouped together as the Book of Enoch or 1st Enoch The books were likely written at different points in time and different Semitic languages The first book was the Book of the Watchers which is generally considered to be the oldest book in the collection however the age of the book is debated The book is now known to have originated long before Christianity since the discovery of the Dead Sea Scrolls however was lost for well over a thousand years to Europeans and assumed to be a Christian era work when the Europeans rediscovered it in Ethiopia The five books of Enoch only survive in Ge'ez the classical language of Ethiopia however do not survive intact and some sections of text do not survive Most of the iconography in the Book of the Watchers points to a Canaanite origin as does the astronomical references to the seven stars beyond the eastern edge of the world which was the situation between 2300 and 2000 BC when the Pleiades star cluster was the morning stars The Pleiades star cluster is a group of stars in the constellation of Taurus They are easily seen in the northern hemisphere as well as at equatorial latitudes and have historically been widely used to navigate by The Greek name is believed to derive from the word meaning sail The name Pleiades appears in both the Septuagint and Masoretic Texts which is one of the few times the two documents agree on the names of the stars This indicates the name may not have been redacted in this case however it was likely the original term would have been Aziz the morning star as this star or group of stars is listed in contrast to the evening star Throughout all of ancient history the merchant season in the Mediterranean began with the helical rising of the Pleiades which shows the importance of the star cluster to the Canaanites and their ancient trading partners The Pleiades were rising in the vernal equinox around 2300 years ago which means they would have been seen as the morning stars of their time By 2000 BC the Pleiades would have no longer been the morning stars but did continue to be used for navigation throughout recorded history **Current Biography Yearbook** ,2005 The aim of Current Biography Yearbook is to provide reference librarians students and researchers with objective accurate and well documented biographical articles about living leaders in all fields of human accomplishment Whenever feasible obituary notices appear for persons whose biographies have been published in Current Biography Publisher *Architecture and Utopia in the Temple Era* Michael Chyutin,2006-01-01 Proposes a reconstruction of the Temple which differs from conventional

descriptions in Jewish literary sources during the First and Second Temple eras This book examines the individual descriptions of the Temple and considers the influence of the descriptions on subsequent ones

The Christian Sky Mark Edward Dodson,2004 Why live under a pagan sky For thousands of years humankind has dwelled under a dome of stars that have been grouped and identified according to ancient superstitions Today the official star constellations pay homage to the pagan gods and goddesses of a dark and chaotic world a world before Christ and yet these are the constellations that scouting groups and school children all around the world have been encouraged to learn for hundreds of years Now for the first time the sky has been mapped in accordance with easy to find star patterns that tell the stories of the Christian faith No telescope required No sophisticated instruments needed After presenting a few simple but very effective techniques for finding your way through the sky at night the author takes you on a tour of the Christian constellations Using new constellations inspired by stories from the Bible you will be able to locate stars planets star clusters and galaxies during any time of the night and at any time of the year If you have ever wanted to know more about God s grandest creation but have never felt comfortable learning about ancient pagan idols then this book will provide you with a healthy fresh start

Reshaping the World Ana Díaz, 2020-04-01 Reshaping the World is a nuanced exploration of the plurality complexity and adaptability of Precolumbian and colonial era Mesoamerican cosmological models and the ways in which anthropologists and historians have used colonial and indigenous texts to understand these models in the past Since the early twentieth century it has been popularly accepted that the Precolumbian Mesoamerican cosmological model comprised nine fixed layers of underworld and thirteen fixed layers of heavens This layered model which bears a close structural resemblance to a number of Eurasian cosmological models derived in large part from scholars' reliance on colonial texts such as the post Spanish Conquest Codex Vaticanus A and Florentine Codex By reanalyzing and recontextualizing both indigenous and colonial texts and imagery in nine case studies examining Maya Zapotec Nahua and Huichol cultures the contributors discuss and challenge the commonly accepted notion that the cosmos was a static structure of superimposed levels unrelated to and unaffected by historical events and human actions Instead Mesoamerican cosmology consisted of a multitude of cosmographic repertoires that operated simultaneously as a result of historical circumstances and regional variations These spaces were and are dynamic elements shaped defined and redefined throughout the course of human history Indigenous cosmographies could be subdivided and organized in complex and diverse arrangements as components in a dynamic interplay which cannot be adequately understood if the cosmological discourse is reduced to a superposition of nine and thirteen levels Unlike previous studies which focus on the reconstruction of a pan Mesoamerican cosmological model Reshaping the World shows how the movement of people ideas and objects in New Spain and neighboring regions produced a deep reconfiguration of Prehispanic cosmological and social structures enriching them with new conceptions of space and time The volume exposes the reciprocal influences of Mesoamerican and European theologies during the colonial era offering expansive new ways of understanding Mesoamerican models of the cosmos Contributors Sergio Botta Ana Díaz Kerry Hull Katarzyna Mikulska Johannes Neurath Jesper Nielsen Toke Sellner Reunert David Tavarez Alexander Tokovinine Gabrielle Vail **The Columbia Anthology of Traditional Chinese Literature** Victor H.
