Rural Education in China: Policy and Development (1978 - 2018) Wu Zhihui, 2025-09-23 This book reveals the policy changes and profound transformations in rural education in China over the past 40 years of reform and opening up. The book emphasizes the need to accurately address the relationship between urban and rural educational development, adopt an integrated urban-rural education mindset and establish a mechanism for promoting balanced development by linking urban and rural areas, advancing overall progress and ensuring urban-rural integration. This will comprehensively revitalize rural education. We must treat the development of rural education as the most foundational livelihood project and regard promoting fairness and justice in urban-rural education as a long-term task focusing on balance, strengthening the foundation and addressing shortcomings. We must adhere to the rule of law in education, enhance and improve the leadership of the party and government over rural education and correctly guide public opinion and manage societal mindset. We must strengthen research on rural education, make top-level designs for the future development of rural education and inspire innovative vitality among grassroots educators, effectively conducting rural education modernization experiments to lay a solid foundation for achieving the fundamental modernization of socialism with Chinese characteristics.

Modern English Society Judith Ryder, Harold Silver, 2024-01-01 First published in 1970, *Modern English Society* is primarily concerned with the period since the Great Exhibition of 1851. Judith Ryder and Harold Silver begin by surveying the consequences, good and ill, of industrialization and go on to explore the changing pattern of social relationships to which it gave rise. They discuss such topics as the growth of towns and of large-scale administration, the development of welfare services, the emergence of mass politics, the mass media and mass production. They show how social attitudes and the interpretation of historical facts are colored by our ideological views. In the second half of the book they examine the structure and functioning of contemporary social institutions: the family, education, the economic and political systems and assess their implications for the individual, for specific social groups and for society as a whole. This book will be of interest to students of history and sociology.
