La devoci n a la Virgen en Espa a Jes s Sim n Pardo,2003 *Family and Empire* Yuen-Gen Liang,2011-09-21 In the medieval and early modern periods Spain shaped a global empire from scattered territories spanning Europe Africa and the Americas Historians either have studied this empire piecemeal one territory at a time or have focused on monarchs endeavoring to mandate the allegiance of far flung territories to the crown For Yuen Gen Liang these approaches do not adequately explain the forces that connected the territories that the Spanish empire comprised In Family and Empire Liang investigates the horizontal ties created by noble family networks whose members fanned out to conquer and subsequently administer key territories in Spain s Mediterranean realm Liang focuses on the Fern ndez de C rdoba family a clan based in Andalusia that set out on mobile careers in the Spanish empire at the end of the fifteenth century Members of the family served as military officers viceroys royal councilors and clerics in Algeria Navarre Toledo Granada and at the royal court Liang shows how over the course of four generations their service vitally transformed the empire as well as the family The Fern ndez de C rdoba established networks of kin and clients that horizontally connected disparate imperial territories binding together religious communities Christians Muslims and Jews and political factions Comunero rebels and French and Ottoman sympathizers into an incorporated imperial polity Liang explores how at the same time dedication to service shaped the personal lives of family members as they uprooted households realigned patronage ties and altered identities that for centuries had been deeply rooted in local communities in order to embark on imperial careers **Conversos, Power and the Intermediate Groups in Golden Age Spain** Enrique Soria Mesa,Luis Salas Almela,2025-03-20 Recent studies reveal significant social mobility in 16th 17th century Spain challenging previous beliefs This book explores the rise of a powerful intermediate class the mesocracy including Jewish converts who advanced through long term family strategies and professional roles contributing

to Spain's economic power **Merchants and Trade Networks in the Atlantic and the Mediterranean, 1550-1800**
Manuel Sánchez, Klemens Kaps, 2016-09-01 This collective volume explores the ways merchants managed to connect different spaces all over the globe in the early modern period by organizing the movement of goods, capital, information and cultural objects between different commercial maritime systems in the Mediterranean and Atlantic basin. Merchants and Trade Networks in the Atlantic and the Mediterranean 1550-1800 consists of four thematic blocs: theoretical considerations, the social composition of networks, connected spaces, networks between formal and informal exchange, as well as possible failures of ties. This edited volume features eleven contributions who deal with theoretical concepts such as social network analysis, globalization, social capital and trust. In addition, several chapters analyze the coexistence of mono-cultural and transnational networks, deal with network failure and shifting network geographies, and assess the impact of kinship for building up international networks between the Mediterranean and the Atlantic. This work evaluates the use of specific network types for building up connections across the Mediterranean and the Atlantic Basin, stretching out to Central Europe, the Northern Sea and the Pacific. This book is of interest to those who study history of economics and maritime economics as well as historians and scholars from other disciplines working on maritime shipping, port studies, migration, foreign mercantile communities, trade policies and mercantilism.

[Spain and the Irish Mission, 1609-1707](#) Cristina Bravo Lozano, 2018-10-26 Spain and the Irish Mission 1609-1707 examines Spanish confessional policy in 17th century Ireland. Cristina Bravo Lozano provides an innovative perspective on Spanish-Irish relations during a crucial period for Early Modern European history. Key historical actors and events are brought to the fore in her account of the missionary networks created around the Irish Catholic exile in the Iberian Peninsula. She presents a comprehensive study of this form of royal patronage, the changes and challenges Irish Catholicism had to face after the peace of London 1604 and the role that Irish missionaries played in preserving its place within the framework of Anglo-Spanish relations.

Historias de raza y nación en América Latina Claudia Leal, Carl Henrik Langebaek, 2010-10-01 El tema de raza en América Latina ha tomado fuerza en los últimos años. Se trata de reconocer que las clasificaciones raciales han moldeado la forma de ordenar las sociedades de la región de percibir a sus miembros y de entender cómo lo han hecho. El asunto no ha habido una atención que merece por varias razones. La evidente importancia de las divisiones de clase en la región hizo que esta categoría tomara preeminencia en las décadas de 1960 y 1970 cuando las ciencias sociales adquirieron mucha fuerza académica. Además, la idea muy arraigada de que las relaciones entre diferentes grupos raciales es armónica hace ver el tema como insignificante. Por otra parte, el convencimiento al que se llegó en la segunda mitad del siglo XX de que las supuestas razas no corresponden a realidades objetivas, aunque las clasificaciones

raciales sean muy reales hacia su estudio primero visto y luego indeseable pues podría tener el efecto de reforzar categorías que enfatizan desigualdades. Pero el nuevo peso académico de las perspectivas culturales sumado a la atención internacional que el tema ha recibido como en el caso de la Conferencia Mundial contra el Racismo celebrada en Durban en 2001 y la tradición de la influyente academia estadounidense le han dado un nuevo vuelo a la preocupación por comprender cómo el concepto raza ayuda a comprender el pasado y presente latinoamericanos.

Historia de la educación española

Javier Vergara Ciordia, Olegario Negrín Fajardo, Fermín Sánchez Barea, Beatriz Comella Gutiérrez, 2021-08-10. El presente manual se presenta como base y guía para el estudio de los principales hitos de la Historia de la Educación en España. Una asignatura que consta de seis créditos se ubica en el segundo curso del grado de Pedagogía de la Universidad Nacional de Educación a Distancia UNED y se configura para mostrar y dar a conocer los principales hechos, contextos y referentes más significativos que explican el devenir de la educación en España desde la llamada Hispania romana hasta la actualidad. Un propósito que por la propia naturaleza didáctica de los manuales demanda un discurso conclusivo plantear ideas sintéticas e invitar en la medida de lo posible al estudio y análisis de otras fuentes que puedan completar lo aquí sugerido y planteado. En paralelo el manual exige un esquema conceptual marco que a modo de hilo conductor pedagógico y el análisis histórico para no derivar en puros análisis sociológicos culturales o generalistas que poco o nada tienen que ver con la educación. En este sentido y dentro del amplio marco de la estructura histórica de la educación se ha optado por un esquema conceptual guiado basado en el análisis de cinco unidades pedagógicas: los modelos educativos, las instituciones escolares, los contenidos curriculares, las innovaciones docentes y las personas que reflexionaron y abrieron brecha en el campo de la educación. Un planteamiento que da lugar a ocho unidades didácticas. Comienza con la educación en la Hispania romana, sigue con la aportación visigoda musulmana y cristiana de la Edad Media, continúa con los hitos humanistas y barrocos de la España Moderna y concluye con una contemporaneidad donde la Ilustración y la dialéctica pedagógica de los siglos XIX y XX y las leyes educativas más recientes de la democracia española sustancian el devenir de la pedagogía hispana. El primer tema elaborado por el profesor Rafael Sánchez Barea comienza planteando cómo la Hispania romana al trasladar a la península ibérica los valores culturales del Imperio insertó en su ethos el sentimiento propio de la civilización romana. La gramática, la retórica, la oratoria, el ideal tico, la jurisprudencia, la técnica, la filosofía y la ciencia fueron categorías culturales que se resumieron en el ideal de perfección del *vir bonus dicendi peritus*. Expresión que descansaba en tres exigencias marco: en primer lugar en el *bene sapere* o saber un pilar intelectual que se conquistaba a través de la filosofía y la moral; en segundo lugar el *bene dicere* o decir una exigencia filológica que se adquiría a través de la gramática y la retórica; y finalmente en el *bene vivere* o vivir era el elemento técnico-tcnico que se presentaba como meta y expresión de una vida humana ticamente valiosa y de una dedicación profesional técnicamente eficaz. Trilogía que de una u otra manera fue magistralmente representada por dos hispanorromanos insignes: Séneca y Quintiliano. La segunda unidad temática elaborada por el profesor Javier Vergara aborda la cultura pedag

gica de la Hispania medieval Mil años de historia resumidos en tres frentes sucesivos en primer lugar la Temprana Edad Media representada por las aportaciones de la pedagogía visigoda donde el símbolo de san Isidoro consiguió actualizar el saber clásico y trasmitirlo a la europeidad de su tiempo en segundo lugar la Alta Edad Media simbolizada en la pedagogía musulmana donde la inspiración divina del islam recogida en los libros sagrados de El Corán y la Sunna impregnó todos los resortes de la vida política social y cultural finalmente la pedagogía de la Baja Edad Media se nos muestra quintaesenciada en las aportaciones de los reinos cristianos Las migraciones intelectuales las escuelas de gramática el nacimiento de las universidades las escuelas gremiales y la reivindicación de la mujer como productora de cultura formal serán algunos de sus signos más representativos La pedagogía de la España Moderna que abarca la tercera y cuarta unidad didáctica ha sido elaborada por la profesora Beatriz Comella Gutiérrez Representantes del humanismo como Nebrija Palmireno Vives Ignacio de Loyola Juan Bonifacio José de Calasanz etc políticos del Barroco pedagógico como Diego Saavedra Fajardo y Baltasar Gracián y diversos enfoques sobre la educación de la mujer tanto en España como en América condensan una de las etapas más creativas y dinámicas de la historia de la Educación española Una etapa donde la síntesis virtud letras y doctrina se ve aderezada con un progresivo funcionalismo y secularización de la cultura que las centurias posteriores no conseguirán integrar Los hitos pedagógicos de los siglos xviii xix xx y primeros años del siglo xxi que ocupan las unidades didácticas restantes han sido resumidos por el profesor Olegario Negrón Fajardo El siglo xviii es el siglo de la Ilustración Una centuria donde los Feijoo Jovellanos Campomanes Olavide Cabarrús etc asientan las bases de un sistema nacional de educación basado en los principios de la secularización docente del economicismo político y de la utilidad pública bajo la dirección de un nuevo demiurgo pedagógico llamado Estado El siglo xix es un periodo de grandes y numerosas leyes educativas de excepciones notables y de creaciones pedagógicas reformistas la ley Moyano el catolicismo social pedagógico y la Institución Libre de Enseanza ILE serán algunos de sus hitos más representativos El siglo xx viene marcado por el pedagogismo de cuatro marcos sociopolíticos muy diferentes Alfonso XIII la II República el franquismo y la transición democrática Periodos convulsos y nada fáciles donde la legislación educativa se convierte en un prurito en una casus belli y en una obsesión de las administraciones públicas y partidos políticos Praxis que el bipartidismo político de los primeros años del siglo xxi reflejarán con crudeza La Ley Orgánica para la Mejora de la Calidad Educativa 2013 del Partido Popular junto con el Proyecto de Ley Orgánica de 2019 para la reforma de la Ley Orgánica de Educación del Partido Socialista son solo dos ejemplos de una cuestión recurrente y abierta difícil de resolver que sirven de colofón y cierre a la presente obra El manual contiene una serie de exigencias metodológicas emanadas de diferentes directrices del Instituto Universitario de Educación a Distancia IUED de la UNED Cada uno de los temas contiene un resumen y sus objetivos su contenido propio una bibliografía básica ejercicios de autoevaluación actividades complementarias para ampliar los contenidos y un glosario donde se condensan temas clave de cada unidad

Agua y cultura Juan Antonio López Geta, Juan Carlos Rubio Campos, M. Martín Machuca, 2008 **Blood, Land and Power** Manuel Pérez-García, 2021-04-15 The historical data and vast information in the historical sources is arranged in this book using software to make clusters of data and quantification This serves as illustrative example for future research on how to apply such methods to historical research The analysis of formation of new elites and powerful families and the social networks they belonged to serves to understand in the long run how groups and families in localities of southern Europe have consolidated their power and how political institutions then and now have served to the perpetuation of such families in the exercise of power Disputes and rivalry between factions elites and groups of power to control land as main economic source of power and political institutions have not ceased since the early modern period until today Southern and Mediterranean Europe localities are a good example in which fierce struggles between elite groups have lasted across space and time

Dove Va la Storia Economica? Francesco Ammannati, 2011 **Creating Christian Granada** David Coleman, 2013-08-15 Creating Christian Granada provides a richly detailed examination of a critical and transitional episode in Spain's march to global empire The city of Granada Islam's final bastion on the Iberian peninsula surrendered to the control of Spain's Catholic Monarchs Isabella and Ferdinand on January 2 1492 Over the following century Spanish state and Church officials along with tens of thousands of Christian immigrant settlers transformed the formerly Muslim city into a Christian one With

constant attention to situating the Granada case in the broader comparative contexts of the medieval reconquista tradition on the one hand and sixteenth century Spanish imperialism in the Americas on the other Coleman carefully charts the changes in the conquered city's social political religious and physical landscapes In the process he sheds light on the local factors contributing to the emergence of tensions between the conquerors and Granada's formerly Muslim native morisco community in the decades leading up to the crown mandated expulsion of most of the city's moriscos in 1569 1570 Despite the failure to assimilate the moriscos Granada's status as a frontier Christian community under construction fostered among much of the immigrant community innovative religious reform ideas and programs that shaped in direct ways a variety of church wide reform movements in the era of the ecumenical Council of Trent 1545 1563 Coleman concludes that the process by which reforms of largely Granadan origin contributed significantly to transformations in the Church as a whole forces a reconsideration of traditional top down conceptions of sixteenth century Catholic reform [Everyday Magic in Early Modern Europe](#) Kathryn A. Edwards, 2016-03-09 While pre modern Europe is often seen as having an enchanted or magical worldview the full implications of such labels remain inconsistently explored Witchcraft demonology and debates over pious practices have provided the main avenues for treating those themes but integrating them with other activities and ideas seen as forming an enchanted Europe has proven to be a much more difficult task This collection offers one method of demystifying this world of everyday magic Integrating case studies and more theoretical responses to the magical and preternatural the authors here demonstrate that what we think of as extraordinary was often accepted as legitimate if unusual occurrences or practices In their treatment of and attitudes towards spirit assisted treasure hunting magical recipes trials for sanctity and visits by guardian angels early modern Europeans showed more acceptance of and comfort with the extraordinary than modern scholars frequently acknowledge Even witchcraft could be more pervasive and less threatening than many modern interpretations suggest Magic was both mundane and mysterious in early modern Europe and the witches who practiced it could in many ways be quite ordinary members of their communities The vivid cases described in this volume should make the reader question how to distinguish the ordinary and extraordinary and the extent to which those terms need to be redefined for an early modern context They should also make more immediate a world in which magic was an everyday occurrence
