## **Eduardo Mendoza:**

Eduardo Mendoza Jeffrey Thomas Oxford, David John Knutson, 2002 This critical anthology on the novels and other work of Eduardo Mendoza is the very first collection of scholarly essays to be published solely on this Spanish novelist With contributions by academics from Spain and the United States this book touches upon each of Mendoza's major publications from 1975 to date The essays assume a varied array of critical positions and practices often reaching strikingly different conclusions about the same texts This anthology illustrates and underscores Mendoza's multifaceted character celebrating the humorously serious reputation of one of the greatest Spanish authors of our time     **A Light Comedy** Eduardo Mendoza, 2001 Barcelona in the late 1940s provides the backdrop to this novel Prullas a popular playwright whose day is now past initiates a love affair with his leading lady     The Art of Translation in Light of Bakhtin's Re-accentuation Slav Gratchev, Margarita Marinova, 2022-10-06 Although Mikhail Bakhtin's study of the novel does not focus in any systematic way on the role that translation plays in the processes of novelistic creation and dissemination when he does broach the topic he grants translation a disproportionately significant role in the emergence and constitution of literature The contributors to this volume from the US Hong Kong Finland Japan Spain Italy Bangladesh and Belgium bring their own polyphonic experiences with the theory and practice of translation to the discussion of Bakhtin's ideas about this topic in order to illuminate their relevance to translation studies today Broadly stated the essays examine the art of translation as an exercise in a cultural re-accentuation a transference of the original text and its characters to the novel soil of a different language and culture which inevitably leads to the proliferation of multivalent meanings and to explore the various re-accentuation devices employed over the span of the last 100 years in translating modern texts from one language to another Through its contributors *The Art of Translation in Light of Bakhtin's Re-accentuation* brings together different cultural contexts and disciplines such as literature literary theory the visual arts pedagogy translation studies and philosophy to demonstrate the continued international relevance of Bakhtin's ideas to the study of creative practices broadly understood     *An Englishman in Madrid* Eduardo Mendoza, 2015-07-07 Anthony Whitelands an English art historian is invited to Madrid to value an aristocrat's collection At a welcome lunch he encounters Jose Antonio Primo de Rivera founder and leader of the Falange a nationalist party whose antics are bringing the country ever closer to civil war The paintings turn out to be worthless but before Whitelands can leave for London the duke's daughter Paquita reveals a secret and genuine treasure held for years in the cellars of her ancestral home Afraid that the duke will cash in his wealth to finance the Falange the Spanish authorities resolve to keep a close eye on the Englishman who is also being watched by his own embassy As Whitelands ever the fool for a pretty face vies with Primo de Rivera for Paquita's affections he learns of a final interested party Madrid is crawling with Soviet spies and Moscow will stop at nothing to secure the hidden prize     Hispanic and Luso-Brazilian Detective Fiction Renée W. Craig-Odders, Jacky Collins, Glen S. Close, 2006-03-20 The image of the hard-boiled private investigator from gritty

pulp fiction a terse and mysterious figure has become increasingly universal as the detective novel crosses more and more borders A booming genre in Latin America Spain and other Hispanic cultures detective fiction has transcended the limitations of its influences Hispanic authors relatively new to the genre have published novels and series popular with the public while a number of well known writers have adapted the genre to reflect the concurrent globalization of modern society and the crimes within it This volume presents a compilation of 11 critical essays on genero negro contemporary detective fiction in the Hispanic and Luso Brazilian canon Surveying the last twenty years the text analyzes emerging trends in this rapidly evolving genre as well as the mutations and innovations taking place within the style The first section of the book is dedicated to the detective fiction of Spain and Portugal The second section surveys works from Latin America and the United States where topics touch on universal subjects like crime identity and feminism **Crime Scene Spain** Renée W.

Craig-Odders,Jacky Collins,2014-01-10 This essay collection examines the changing cultural political and physical landscape of Spain as represented in Spanish crime fiction of the last three decades The first several essays focus on crime fiction set in Barcelona and look at among other topics the symbiotic relationship between the city and the detective in Francisco Gonzalez Ledesma s long running Inspector Mendez series Manuel Vazquez Montalban s treatments of the 1992 Summer Olympic Games and place and identity in Alicia Gimenez Bartlett s Petra Delicado series Other essays examine regional and cultural illiteracy in Jorge Martinez Reverte s Galvez series and Spain s changing urban centers as represented in Andreu Martin s El blues de la semana mas negra **The Spanish Sleuth** Patricia Hart,1987 A history of Spanish detective fiction from

Alarcon s El clavo published twelve years after Poe s Murders in the Rue Morgue up to the present The presentation of the highly entertaining sleuth characters is based on a detailed examination of the works and in many cases personal interviews with the writers **Peruvian Cinema of the Twenty-First Century** Cynthia Vich,Sarah Barrow,2020-12-17 This is the first English language book to provide a critical panorama of the last twenty years of Peruvian cinema Through analysis of the nation s diverse modes of filmmaking it offers an insight into how global debates around cinema are played out on and off screen in a distinctive national context The insertion of post conflict Peru within neoliberalism resulted in widespread commodification of all areas of life significantly impacting cinema culture Consequently the principal structural concept of this collection is the interplay between film production and market forces an interaction which makes dynamism and instability the defining features of 21st century Peruvian cinema Connecting Past and Present Aaron M. Kahn,2015-10-05

In this volume experts on the Spanish Golden Age from the United Kingdom Ireland and the United States offer analyses of contemporary works that have been influenced by the classics from the sixteenth and seventeenth centuries Part of the formation of a sense of national identity always a problematic concept in Spain is founded in the recognition and appreciation of what has come beforehand and no other era in the history of Spanish literature and drama represents the talent and fascination that Spaniards and non Spaniards alike possess with the artistic legacy of this country In order to establish

properly a context for the study of literature or history one cannot always study the works writers or era in isolation rather performing scholarly studies on these topics as a continuation of what has come before reveals that many thoughts concepts character types criticisms and social issues have been thoroughly explored by our literary ancestors This era is referred to as the Golden Age not only because of the voluminous production of art literature drama and poetry but also because writers such as Miguel de Cervantes Lope de Vega and Pedro Calder n de la Barca influenced by the re birth of the Classical masters presented the reading and viewing public with genuine human emotions and experiences in a more comprehensive manner than in previous eras In the twentieth century Spain faced a series of political crises the Spanish Civil War 1936 39 and the Franco Dictatorship 1939 75 followed by the Transition and the concept of historical memory have provided contemporary Spanish writers with the impetus and freedom to express their views A frequent source of inspiration has been the Golden Age that epoch of history that produced such political and religious upheaval and this book explores the manner in which contemporary Spaniards have reached into the past to connect with their present world

**Barcelona: An Urban History of Science and Modernity, 1888-1929** Oliver Hochadel, Agustí Nieto-Galan, 2016-04-14 The four decades between the two Universal Exhibitions of 1888 and 1929 were formative in the creation of modern Barcelona Architecture and art blossomed in the work of Antoni Gaudi and many others At the same time social unrest tore the city apart Topics such as art nouveau and anarchism have attracted the attention of numerous historians Yet the crucial role of science technology and medicine in the cultural makeup of the city has been largely ignored The ten articles of this book recover the richness and complexity of the scientific culture of end of the century Barcelona The authors explore a broad range of topics zoological gardens natural history museums amusement parks new medical specialties the scientific practices of anarchists and spiritists the medical geography of the urban underworld early mass media domestic electricity and astronomical observatories They pay attention to the agenda of the bourgeois elites but also to hitherto neglected actors users of electric technologies and radio amateurs patients in clinics and dispensaries collectors and visitors of museums working class audiences of public talks and female mediums Science technology and medicine served to exert social control but also to voice social critique *Barcelona An urban history of science and modernity 1888 1929* shows that the city around 1900 was both a creator and facilitator of knowledge but also a space substantially transformed by the appropriation of this knowledge by its unruly citizens

*Revisiting Centres and Peripheries in Iberian Studies* Mark Gant, 2019-08-05 Like its predecessor and companion volume *New Journeys in Iberian Studies* this volume gathers fresh and emerging research in a range of sub fields of Iberian studies from an international range of established academics and early career researchers The book provides rich evidence of the breadth and depth of new research being carried out in the dynamic field of Iberian studies at present As the title suggests a strong thread running through the collection is concerned with investigating the multiple spaces of tension between the centre and periphery that comprise the Iberian cultural system Topically the current situation in Catalonia naturally comes to the fore in

a number of chapters and from a range of perspectives However in the revisiting of a range of cultural products and historical processes undertaken by the contributors it can be seen that transoceanic postcolonial relations are not neglected and concerns with history memory and fiction also weave their way through their work
