*Racism in Children's Lives* Barry Troyna, Richard Hatcher, 2018-10-03 Originally published in 1992 Both teachers and the general public have traditionally been unwilling to acknowledge that concepts of race might play a part in the lives of primary school children For this book the authors spent a term in each of three mainly white primary schools They talked to black and white pupils individually and in small groups about issues not necessarily of race which the children themselves saw as important From these conversations they present a fascinating study of how race emerges for young children as a plausible explanatory framework for incidents in their everyday lives The final picture is both disturbing in its demonstration of how significant racism is and hopeful in showing how frequently anti racist attitudes exist even in the thinking of children who engage in racist behaviour A final chapter looks

at how school policy can combat racism and build on these positive elements      *Tackling Controversial Issues in the Primary School* Richard Woolley, 2010-06-24 Talking effectively about controversial issues with young children is a challenge facing every primary school teacher *Tackling Controversial Issues* provides teachers with support and guidance as you engage with the more tricky questions and topics you and your pupils encounter      **Racism, Gender Identities and Young Children**

Paul Connolly, 2002-01-04 This book offers a fascinating yet disturbing account of the significance of racism in the lives of five and six year old children drawing upon data from an in depth study of an inner city multi ethnic primary school and its surrounding community It represents one of the only detailed studies to give primacy to the voices of the young children themselves giving them the space to articulate their own experiences and concerns Together with detailed observation of the children in the school and local community it provides an important account of how and why they draw upon discourses on race in the development of their gender identities The book graphically highlights the understanding that these children have of issues of race gender and sexuality and the active role they play in using and reworking this knowledge to make sense of their experiences      Reflective Teaching Andrew Pollard, Janet Collins, 2005-03-04 *Reflective Teaching* is the definitive textbook for reflective classroom professionalism It offers support for trainee teachers mentors newly qualified teachers and for continuous professional development This second edition has been revised and updated to enhance classroom use

*Transforming Learning* Sue Askew,1998-06-01 This study promotes a model of education which is collaborative and non hierarchical While traditional approaches to learning and teaching stress cognitive aspects of development and learning this text advocates an approach which synthesizes the cognitive affective and social dimensions of learning Revealing personal and social learning as being involved with the whole school experience the authors support the nature of learning within this radical model and highlight key social values such as equality respect and justice

*Foundation Subjects and Religious Education in the Primary School* Peter D. Pumfrey,Gajendra K. Verma,2018-12-07 First published in 1993 This volume brings together writings of specialists in the key components of both the whole and the basic curriculum It sets out to describe and discuss cultural diversity and the whole curriculum from a variety of perspectives and to consider how the concerns of ethnic groups may be addressed within the framework of the national curriculum To this end specialists in areas of the curriculum consider some of the challenges and describe promising practices in the secondary school Much remains undecided concerning the structure content pedagogy and assessment of many components of the primary school curriculum Despite these considerations the multicultural nature of the population and of schools will develop These developments and their educational implications must be considered if the educational system is to respond adequately Although the rules of the curricular game are still being negotiated in relation to a number of aspects of the curriculum the editors have deliberately ventured into this controversial field They do so because of the increasing importance of ethnic diversity of the school population and of the country

motivated Asian Indian students who are overlooked because of their cultural dispositions and outlooks on schooling and those students who are more likely to underachieve It highlights the assimilation of Asian Indian students in mainstream society and their understandings of Americanization social inequality diversity and multiculturalism      **Re-examining Psychology** Len T. Focusing on mixed race and inter ethnic families this book not only explores current understandings of race but it shows using innovative research techniques with children how we come to read race What influence do photographs and television have on childrens ideas about race How do children use memories and stories to talk about racial differences within their own families How important is the home and domestic culture in achieving a sense of belonging Ali also considers through data gathered from teachers and parents broader issues relating to the effectiveness of anti racist and multicultural teaching in schools and parental concerns over the social mobility and social acceptability of their children Rigorously researched this book is the first to combine childrens accounts on race and identity with contemporary cultural theory Using fascinating case studies it fills a major gap in this area and provides an original approach to writing on race **Cross-Cultural Child**
