Quality Education for Latinos and Latinas Rita Portales, Marco Portales, 2010-01-01 As educators and legislators across the country debate how to improve public schools the most vital factor often disappears from the equation the relationship between the teacher and the student According to veteran educators Rita and Marco Portales this relationship is the central issue in the education of students especially Latino students who often face serious barriers to school success because of the legacy of racism insufficient English language skills and cultural differences with the educational establishment To break down these barriers and help Latino students acquire a quality education the Portaleses focus attention on the teacher student relationship and offer a proven method that teachers can use to strengthen the print and oral skills of their students They begin by analyzing the reasons why schools too often fail to educate Latino students using eloquent comments from young Latinos as well as their parents to confirm how important the teacher student relationship is to the student's success Then they show how all educational stakeholders teachers administrators state education agencies legislators and parents can work together to facilitate the teacher student relationship and improve student education By demonstrating how teachers can improve students reading critical thinking writing and oral communication skills across the curriculum they argue that learning can be made more relevant for students keeping their interest levels high while preparing them for academically competitive colleges

Walberg, 2007-06-04 The subject of minority children's learning has long been the concern of civic leaders parents scholars and educators The federal legislation No Child Left Behind emphasizes the concern even more It specifically requires assessing the academic achievement of minority students particularly in economically disadvantaged areas and holding schools accountable for their progress Schools that fail to attain Adequate Yearly Progress face the real possibility of being forced to close if they continually fail to perform Unlike the past these are increasingly high stakes consequences for educators parents students and the schools that serve them This book is timely and relevant because it addresses these issues and recommends solutions for Latino Black and Asian students This book also has implications for the problems the nation faces in helping all students to learn well particularly those that lag in academic achievement In considering the broad problems and in recommending solutions the book provides breadth concision and unique organization As the introductory chapter makes clear the book simultaneously considers not only the three most visible minority groups in the U S but draws upon the perspectives of anthropology education ethnic studies psychology and sociology From these several perspectives this book is organized within three broad sections 1 culturally diverse families and schooling 2 issues of immigration and schooling experiences and 3 socio cultural perspectives on teaching learning and development Within each section the authors marshal research literature regarding each ethnic minority group

The Education of Latino Students in Massachusetts Ralph Rivera, Sonia Nieto, 1993 Following its rapid growth over the past twenty years the Latino population of Massachusetts is now the largest racial and ethnic minority group in the state It is also one of the poorest During the Massachusetts Miracle of the 1980s the Latino poverty rate in the commonwealth was twice that of blacks and six times that of whites And with Latino children dropping out of school at a rate three times that of white children the economic future of these young adults is bleak indeed Unlike blacks who are concentrated in Boston Latinos are dispersed geographically throughout the state This distribution combined with their limited economic and political power has made Latinos victims of public indifference and neglect This volume and its companion *Latino Poverty and Economic Development in Massachusetts* edited by Edwin Melendez and Miren Uriarte are designed to educate policymakers and other concerned individuals about the particular needs of Latinos in Massachusetts They address issues of education and economic development and suggest strategies to facilitate Latino empowerment in ways that preserve ethnic identity language and cultural expression
