Education and the Social Condition (RLE Edu L) Harold Silver, 2012-05-16 This book reviews the educational experience of the 1960s and 1970s and to suggest ways of approaching major contemporary themes such as equality accountability and standards The author underlines a nineteenth and twentieth century sociological tradition in analysing education and covers a range of educational themes including aspects of schooling and higher education education as social policy knowledge as power and teaching and adolescence He draws on the social history of many of the processes concepts and debates Parts of the book derive from research into the history and contemporary forms of these problems in the USA The volume therefore illuminates important contemporary issues in education and society by using historical sociological and comparative insights *Foundations of Education* Christopher J. Lucas, 1984 Brian Simon and the Struggle for Education Gary McCulloch, Antonio Fco Canales, Hsiao-Yuh Ku, 2023-09-21 This is the first full length study of the life and career of Brian Simon 1915 2002 leading Marxist intellectual and historian of education in twentieth century Britain Using documentary sources that have only recently become publicly available it reveals the remarkably broad range of Simon's life as student soldier and school teacher Communist Party activist and educational academic campaigner and reformer In a sympathetic biography that yet retains critical distance the authors analyse Simon's contribution to Marxism and the CP explore the influence of both on his work as a historian of education and trace the significance of his Marxist beliefs political associations and historical approach to the cause of educational reform In so doing they consider the full nature and limitations of Simon's achievements in his struggle for education Unlike many Marxist scholars he remained loyal to the CP in the 1950s which damaged his reputation as a public intellectual Nevertheless his support for comprehensive education helped to promote egalitarian educational reforms in Britain although he was later unable to provide sufficient resistance to

the 1988 Education Reform Act and to a decline in the position of the comprehensive schools In all this the significance of Simon s family and especially his relationship with his wife Joan is to the fore Joan and Brian forged a formidable 60 year partnership in politics and the CP as well as in life that lasted until Brian s death in January 2002

Informational Technology and Its Impact on American Education États-Unis. Congress. Office of Technology Assessment,1982 Multicultural Education as Social Activism Christine E. Sleeter,1996-01-01 Connecting multicultural education with political issues of power and struggle this book explores what multicultural education means to white people given the unequal racial power relations in the U S and worldwide It examines connections between race gender and social class particularly as these connections play out for white women While taking a feminist perspective the author is also wary of the power white middle class women exercise in defining what counts as gender issues Throughout the book Sleeter argues that multicultural education was born in political struggle and can never meaningfully be disconnected from politics Ultimately the quest for schooling for social justice is a political quest rather than a technical issue **An Education that Empowers** Jean Rudduck,1995 This book brings together five lectures given by eminent educationalists in memory of the work of Lawrence Stenhouse an influential figure in the field of education during the 1970s and early 1980s The lectures focus on different themes in his work reviewing them in the light of recent policy changes The lectures review issues to do with the school curriculum teaching and learning teacher education and teacher research A strong theme across the papers is the authors concern with the political context of educational change Jean Rudduck has also published *Innovation and Change Dimensions of Discipline and Developing a Gender Policy in Secondary Schools* Teacher Unions, Social Movements and the Politics of Education in Asia John P. Synott,2017-11-22 This title was first published in 2003 In the globalizing world South Korea is widely regarded as a model example of how a school education system can enhance national economic development Similar claims are made for other Asian NICs such as Taiwan However less understood is how the education system in South Korea became a site of intense conflict as in the decade from 1989 99 a large movement of teachers battled with the government over development related issues such as democratic reforms and human rights in schooling in a struggle that divided this education oriented society and at times plunged the nation s schools into chaos This book analyses the emergence of the National Teachers Union of Korea Chunkyojo and traces its struggle for educational reforms The book examines the South Korean education system within national and global contexts and the historical experiences that have shaped the modern nation such as its Confucianist history its experiences of colonialism and the legacy of the Cold War conflict with North Korea As South Korea searches for pathways for reunification economic growth and the consolidation of democratic civil society important new perspectives on the role of education emerge through this analysis of

the teachers social movement This book also presents separate chapters on teacher movements in Taiwan and the Philippines that provide interesting comparisons to the South Korean case while revealing the distinctive political and historical experiences that have shaped education in these societies and the emergence of reformist teacher movements In a valuable appendix the author discusses methodological and theoretical aspects of the research in this book
