*New England Journal of Education* Thomas Williams Bicknell, Albert Edward Winship, Anson Wood Belding, 1929     The Bloomsbury Handbook of Montessori Education Angela Murray, Eva-Maria Tebano Ahlquist, Maria McKenna, Mira Debs, 2023-03-09 Maria Montessori 1870 1952 was an Italian physician anthropologist and educator known around the world for her educational philosophy and pedagogy Her work established educational environments tailored to the child where autonomy and independence are encouraged within thriving and respectful communities The Bloomsbury Handbook of Montessori Education is an accessible resource tracing Montessori education from its historical roots to current scholarship and contemporary issues of culture social justice and environmentalism Divided into six sections the handbook encompasses a range of topics related to Maria Montessori and Montessori education including foundations and evolution of the field key writings pedagogy across the lifespan scholarly research global reach and contemporary considerations such as gender inclusive education race and multilingualism Written by scholars and practitioners based in over 20 countries this is the go to reference work for anyone interested in Montessori education     Tyranny Through Public Education - Revised Edition William F. Jr Cox, 2004-04 This book documents the inherently flawed nature of America's public school system as currently structured Contemporary recommendations for correcting the system invariably treat symptoms rather than the inherent problem of government control over parental and religious rights The book documents that education is a religious endeavor and that freedom of religion is guaranteed in the United States parents have an inalienable right to raise their children free from government constraints on education civil government is to protect and not deprive citizens of their inalienable rights the educational history of our country affirms that education has always had a religious function recent interpretations of the First and Fourteenth Amendments are both misguided and opposite from their original meanings federal control of education and education taxation is outside the legitimate authority of the U S Constitution and government control of education at federal state and local levels is inherently tyrannical Addressed in separate chapters the above mentioned issues individually and collectively build a compelling case for the disestablishment of government control and the return of parental control to education To quote James Madison government should relate to education in the same way as it does to religion not to intermeddle with it     **Resources in Education** ,1998     **Georgia Education Journal** ,1928     *The Routledge Handbook to Sociology of Music Education* Ruth Wright, Geir Johansen, Panagiotis A. Kanellopoulos, Patrick Schmidt, 2021-03-29 The Routledge Handbook to Sociology of Music Education is a comprehensive authoritative and state of the art review of current research in the field The opening introduction orients the reader to the field highlights recent developments and draws together concepts and research methods to be covered The chapters that follow are written by respected experienced experts on key issues in their area of specialisation From separate beginnings in the United States Europe and the United Kingdom in the mid twentieth century the field of the sociology of music education has and continues

to experience rapid and global development It could be argued that this Handbook marks its coming of age The Handbook is dedicated to the exclusive and explicit application of sociological constructs and theories to issues such as globalisation immigration post colonialism inter generational musicking socialisation inclusion exclusion hegemony symbolic violence and popular culture Contexts range from formal compulsory schooling to non formal communal environments to informal music making and listening The Handbook is aimed at graduate students researchers and professionals but will also be a useful text for undergraduate students in music education and cultural studies **International Office of Education** United States.
