Education Growing Up Growing Old:

Growing Up, Growing Old Azubike Uzoka, 2011-07-22 *Growing Up Growing Old* presents a memoir of interesting life events peppered with insights from author Azubike Uzoka's vast clinical experience and extensive travels. He has traveled extensively in Africa, Europe, the Americas, the Caribbean, and several other countries. Dr. Uzoka was born in Nigeria but later studied and worked in the United States. A lover of nature, he muses in appreciation over the contradictions in life and yet he has a romance with living whatever the circumstances may affect his life. He focuses on understanding the significant nuances of his Igbo culture in which issues like reincarnation, sex roles, and other social questions are discussed, considering the nuances of life in a new globalized world. Witty and often downright funny, *Growing Up Growing Old* offers his life story and philosophy presented in an easy-to-read, unassuming style. Whether the narrative focuses on love, marriage, death, prejudice, or some plain human folly, it is laced with lyrical poetry about womanhood, nature, and other themes. **Growing up with Parents who have Learning Difficulties** Tim Booth, Wendy Booth, 2005-08-10 *Growing up with Parents who have Learning Difficulties* uses a life story approach to present new evidence about how children from such families manage the transition to adulthood and about the longer-term outcomes of such an upbringing. It offers a view of parental competence as a social attribute rather than an individual skill, assessing the implications for institutional policies and practices. The authors address the notion of children having to parent their disabled parents and argue for a shift in emphasis from protecting children to supporting families. This innovative book provides a fresh approach to a subject rife with prejudice and challenges us to think again about many taken-for-granted ideas about the process of parenting and the needs of children. It also demonstrates the power of narrative research and its capacity for bringing alive people's experience in a way that enables us to better understand their lives. *GROWING UP AND GROWING OLD in BUFFALO NY* Thomas J. A book that takes us into a community distinguished by a disability that from an outsider's view is full of liabilities. Instead, we find assets and strengths enabling people who were born deaf or who lost their hearing in early childhood to cope with their advancing age: a sensitive, well-written portrait of the people and the community studied. It is a must for researchers who study the old and for those who work with the disabled. Medical Anthropology Newsletter. Becker reveals how the adaptation to deafness early in life provides the basis for social interaction, coping mechanisms, and strong group and community bonds. Early isolation, special schooling, separation from family, and communication limited to deaf peers create long-lasting adult groups that provide exceptional social support for old age. Becker calls attention to values and circumstances that stress and build an enduring
