**Women of Ancient Rome** Layla Gupta, The concept of gladiators in ancient Rome is often associated with men but there were also women who fought in the arenas though their stories have historically been overshadowed Female gladiators known as gladiatrices were a rare but notable part of the Roman world They were not common in the early days of gladiatorial combat but by the 1st and 2nd centuries AD they gained some degree of recognition The Roman elite sometimes viewed them with a mixture of fascination and horror as their presence challenged traditional gender roles Women who became gladiators typically came from the lower classes and their participation in the brutal violent games of the arena was not by choice but rather as a form of punishment slave labor or in some rare cases voluntary participation The inclusion of female gladiators in Roman society while controversial was not without purpose They were seen as a novelty often used to satisfy the crowd s craving for spectacle Female gladiators fought in a similar manner to their male counterparts using similar weapons and fighting techniques although their appearances and the rituals surrounding their combats differed slightly The shows featuring women gladiators were often held in smaller venues and the women were sometimes dressed in more revealing costumes further emphasizing their status as objects of spectacle Despite the rarity of female gladiators some women gained fame for their combat skills and courage The most well known historical example is that of Achillia a female gladiator who was mentioned by the writer Juvenal Although much of the historical record is fragmentary these women s participation in the gladiatorial games left a lasting impact on Roman entertainment culture
