Educational Leadership For Organisational Learning And Improved Student Outcomes:
    Educational Leadership for Organisational Learning and Improved Student Outcomes William Mulford,Halia Silins,Kenneth A. Leithwood,2006-04-11 The change in paradigm in our field is away from the great man or woman theory of leadership and the teacher in his or her own classroom to the development of learning communities which value differences and support critical reflection and encourage members to question challenge and debate teaching and learning issues How to achieve such learning communities is far from clear but we believe the areas of problem based learning PBL and organizational learning OL offer valuable clues The indications are that the successful educational restructuring agenda depends on teams of leaders whole staffs and school personnel working together i e OL linking evidence and practice in genuine collaboration i e PBL The book is unique in that it is both about and uses these two concepts   **Educational Leadership for Organisational Learning and Improved Student Outcomes** William Mulford,Halia Silins,Kenneth A. Leithwood,P. Hallinger,2012-12-06 The first International Handbook of Educational Leadership and Administration Leithwood et al was published in 1996 and quickly became something of a best seller for reference works within education Such success we suggest was at least partly due to the unprecedented global waves of concern for improving schools launched in the mid 1980 s combined with a widespread belief in leadership as the single most powerful contribution to such improvement The roots of this belief can be found in evidence produced by the early effective schools research although there is a romance with leadership as an explanation for success in many non school enterprises as well During the two year period during which this current handbook was being written activity in the realms of school leadership school improvement and leadership development gained further momentum The English government created its new National College of School Leadership and several Asian nations announced new initiatives in leadership selection preparation and development   *Global Perspectives on Developing Professional Learning Communities* Nicholas Sun-Keung Pang,Ting Wang,2018-03-13 This book discusses distinctive features of the professional learning community concept practices and processes across six different education systems in the Asia Pacific region namely Mainland China Hong Kong Taiwan South Korea Singapore and the United States It provides a platform for an exchange of different perspectives and offers alternative possibilities of theorizing professional learning communities across different socio cultural contexts Contributors provide valuable insights for policy makers education researchers and educators in the Asia Pacific region and elsewhere to deal with critical questions about the improvement of teaching and learning and school improvement in a globalizing world This book was originally published as a special issue of the Asia Pacific Journal of Education   **Global Perspectives on Educational Leadership Reform** Anthony H.
