Japanese philosophical traditions The study of Aristotle's philosophy in Japan is already over a hundred years old yet the fruits of these efforts have mostly been published in Japanese and thus circulated almost entirely within Japan Japanese scholarship however has not been conducted in isolation but rather has developed by keeping up with crucial contemporary trends in international scholarship Aristotelian studies in Japan have therefore been neither particularly Japanese nor Far East Asian at first glance which is one reason why they have not received much attention in Japanese philosophical literature This volume addresses this gap exploring the long historical struggle of Japanese people to read understand and adopt Aristotle's philosophy in a philosophical tradition different from the West It also examines the applicability of Aristotle's philosophy to contemporary issues and demonstrates the extent to which his philosophy remains relevant today whether in the East or West Aristotle in Japan Reception Interpretation and Application is of interest to students and scholars of Aristotelian philosophy as well as those working on Japanese philosophy and classical reception

Democratic Education in an Armed Society Samantha Deane, 2023-11-21 Democratic Education in an Armed Society Learning to Live with Guns examines the points of intersection between school gun violence and democratic education Samantha Deane explores the connection between how we teach children to think of themselves as democratic actors and the unceasing plague of gun violence Juxtaposing two images of political agency Deane connects an essentialized view of humans as masters of themselves objects and history with discourses that aim to train individuals to be autonomous and rational users of objects like guns This liberal view gives us no way to think about how objects narratives and norms contour the selves we claim to be Deane suggests that we must learn to attend to the ways in which our ability to act in the world is shared and distributed In a society shot through with guns and enamored with individualism the future of associational life depends on whether we learn to do democracy with the objects we hold dear Choice, 2004 *The Best Books for Academic Libraries: Political science, law, education*, 2002 Books recommended for undergraduate and college libraries listed by Library of Congress Classification Numbers
