Cubberley, 1927      *International Handbook of Educational Leadership and Administration* Kenneth A. Leithwood, Judith Chapman, P. Corson, P. Hallinger, Ann Hart, 2012-12-06 EDITORS This introduction to the International Handbook of Educational Leadership and Administration describes some of the motivation for developing the book and several assumptions on which is based much of the work represented in its 31 chapters A synopsis of the contents of those chapters is also provided SOME KEY ASSUMPTIONS It is sometimes suggested that the search for an adequate understanding of leadership is doomed to fail After all there is little evidence of agreement about the concept in spite of prodigious efforts dating back hundreds if not thousands of years Such a view is captured for example in Bennis' observation that Of all the hazy and confounding areas in social psychology leadership theory undoubtedly contends for top nomination Probably more has been written and less is known about leadership than any other topic in the behavioural sciences 1959 page 259 We do not find this state of affairs discouraging nor entirely accurate and of course it did not prevent Bennis from proceeding either One reason for our desire to continue in the face of such discouraging words is that a great deal of leadership research aspires to develop a general theory a theory which applies to all or most domains of organized human activity This aspiration inevitably produces decontextualized and therefore abstract

categories of practice Howard Gardner's 1995 depiction of leadership as story telling is a case in point *Mastering Theories of Educational Leadership and Management* Donnie Adams, 2018-10-08 The field of Educational Leadership and Management originated and grew to maturity in the Western societies of the USA UK and Australia However since the mid 1990s scholars in east Asia have asserted the need to ground leadership theories and practices in the local contexts in which school leaders practice *Mastering Theories of Educational Leadership and Management* is one of the first volumes published which seeks to do this The edited chapters illustrate and elaborate how perspectives on key concepts and theories of educational leadership are being interpreted and enacted in East Asian societies By doing so the book makes a valuable contribution which will hopefully reduce the gap between theories as explained by Western scholars and practices as enacted in East Asian societies Professor Dr Philip Hallinger **Handbook of Research on the Education of School Leaders ,**
