Assessment Tools for Mapping Learning Outcomes With Learning Objectives Sinha, G. R., 2020-09-25 In educational institutions outcome based education OBE remains crucial in measuring how certain teaching techniques are impacting the students ability to learn Currently these changes in students are mapped by analyzing the objectives and outcomes of certain learning processes International accreditation agencies and quality assessment networks are all focusing on mapping between outcomes and objectives The need of assessment tools arises that can provide a genuine mapping in the global context so that students or learners can achieve expected objectives Assessment Tools for Mapping Learning Outcomes With Learning Objectives is a pivotal reference source that provides vital research on the implementation of quality assessment methods for measuring the outcomes of select learning processes on students While highlighting topics such as quality assessment effective employability and student learning objectives this book is ideally designed for students administrators policymakers researchers academicians practitioners managers executives strategists and educators seeking current research on the application of modern mapping tools for assessing student learning outcomes in higher education

Changing Language Teaching Through Language Testing Liying Cheng, 2005-10-06 There has been growing interest in recent years in the influence of tests on teaching and learning a phenomenon commonly referred to as washback Despite persistent assertions about its nature and scope empirical studies investigating test washback are still limited in number and few of these make use of both qualitative and quantitative methods in washback research This volume presents a study of how the introduction of the 1996 Hong Kong Certificate of Education in English a high stakes public examination impacted on classroom teaching and learning in Hong Kong secondary schools The washback effect was observed initially at the larger macro level among different stakeholder groups within the Hong Kong educational context and also at the more local micro level in terms of teachers attitudes teaching content and classroom interactions This study provides a theoretical background to the washback concept discusses the need for empirical investigation of washback describes the use of a mixed methodology approach in washback research offers insights into the role of tests as agents of innovation and change in the classroom and broader educational context This volume will be of particular relevance to language test developers and researchers interested in the consequential validity of tests it will also be of interest to teachers curriculum designers policymakers and others in education concerned with the interface between language testing and teaching practices

programs Book jacket [Using Data to Improve Student Learning in High Schools](#) Victoria Bernhardt, 2013-10-11 This book

helps you make sense of the data your school collects including state student achievement results as well as other qualitative and quantitative data Easy to use templates tools and examples are available on the accompanying downloadable resources High stakes accountability requires that you develop your understanding of who your students are and how to get them where you want them to be
