**China, the United States, and 21st-Century Sea Power** Andrew S. Erickson, Lyle J Goldstein, Nan Li, 2010-12-01 China's reaction to the United States new maritime strategy will significantly impact its success according to three Naval War College professors Based on the premise that preventing wars is as important as winning wars this new U S strategy they explain embodies a historic reassessment of the international system and how the United States can best pursue its interests in cooperation with other nations The authors contend that despite recent turbulence in U S China military relations substantial shared interests could enable extensive U S China maritime security cooperation as they attempt to reach an understanding of competitive coexistence But for professionals to structure cooperation they warn Washington and Beijing must create sufficient political and institutional space

Naval Blockades and Seapower Bruce A. Elleman, S. C. M. Paine, 2006 This book is one of the first scholarly works to address the problem of naval blockades from a multi national perspective

**Seapower** Geoffrey Till, 2018-06-19 This is the fourth revised and updated edition of Geoffrey Till's *Seapower A Guide for the Twenty first Century* The rise of the Chinese and other Asian navies worsening quarrels over maritime jurisdiction and the United States maritime pivot towards the Asia Pacific region reminds us that the sea has always been central to human development as a source of resources and as a means of transportation information exchange and strategic dominion It has provided the basis for mankind's prosperity and security and this is even more true in the early twenty first century with the emergence of an increasingly globalised world trading system Navies have always provided a way of policing and sometimes exploiting the system In contemporary conditions navies and other forms of maritime power are having to adapt in order to exert the maximum power ashore in the company of others and to expand the range of their interests activities and responsibilities While these new tasks are developing fast traditional ones still predominate Deterrence remains the first duty of today's

navies backed up by the need to fight and win if necessary How navies and their states balance these two imperatives will tell us a great deal about our future in this increasingly maritime century This book investigates the consequences of all this for the developing nature composition and functions of all the world s significant navies and provides a guide for anyone interested in the changing and crucial role of seapower in the twenty first century Seapower is essential reading for all students of naval power maritime security and naval history and highly recommended for students of strategic studies international security and international relations *New Perspectives on Ancient Warfare*[electronic Resource] Garrett G. examination The Naval War in the Mediterranean 1914 1918 centered on submarine activities and allied efforts to counteract this new menace With this welcome sequel he again takes the reader beyond those World War I operations staged on the North Sea Halpern s clear and authoritative voice lends a cohesiveness to this encompassing view of the Italians and Austrians in the Adriatic the Russians Germans and Turks in the Baltic and Black Seas and French and British in the Mediterranean Important riverine engagements notably on the Danube also are included along with major colonial campaigns such as Mesopotamia and the Dardanelles The role of neutral sea powers such as the Swedes in the Baltic and the Dutch in the East Indies is examined from the perspective of how their neutrality affected naval activity Also discussed is the part played by the U S Navy and the often overlooked but far from negligible role of the Japanese navy The latter is viewed in the context of the opening months of the war and in the Mediterranean during the height of the submarine crisis of 1917
