Element Of Doubt:

Element of Doubt Dorothy Simpson, 2017-07-04 There is no shortage of suspects when a body turns up in a charming English village in this mystery starring mild mannered Detective Inspector Thanet Det Inspector Luke Thanet is pulling into his driveway anticipating a long lazy evening at home when murder intervenes A village so lovely it seems straight out of a fairytale Ribbleden is far from the main roads and Thanet's usual beat When the inspector pulls into town the quiet country streets are deserted Everyone is crowded outside the manor gates waiting to learn what happened to Nerine Tarrant A notorious woman with a taste for married men Nerine was found dead on her patio her neck broken by the fall from the second floor The wall was too high for an accidental tumble and a woman with Nerine's lust for life would never have committed suicide Many in Ribbleden wanted her dead but who gave her the final push Written by the CWA Silver Dagger winning Dorothy Simpson this classic village mystery with a shocking modern twist is perfect for fans of P D James or Midsomer Murders Element of Doubt is the 7th book in the Inspector Thanet Mysteries but you may enjoy reading the series in any order

Logic and Time K. Michalski, 2001-11-30 The subject of this study is Husserl's theory of meaning as it appears in his writings from the Logical Investigations to the Crisis of the European Sciences The first chapter focuses on Husserl's critique of psychologism and the theory of meaning that stems from it The second chapter takes its departure from the question of Husserl's attitude towards the Cartesian tradition then presents the transcendental noematic theory of meaning represented by The Idea of Phenomenology Ideas and Cartesian Meditations The third chapter deals with Husserl's interpretation of time consciousness against the background of the development of the problem of time in modern philosophy Husserl often changed his views regarding the question of meaning I have tried to understand the reasons for these changes To do this I have occasionally disturbed the chronological order of his arguments in favour of a consideration of their logical development and coherence Throughout this study but especially in the digression on consciousness and speech and the Postscript I have also attempted to bring to the fore a tension in Husserl's thought between two interpretive strategies the first I call Cartesian the other non Cartesian or hermeneutical

The Model of Everything Ralph Brown, 2021-01-06 When humanity questions the purpose of existence they often turn to science or religion for answers Unfortunately both science and religion contain inconsistencies These inconsistencies touch the human spirit in the most profound ways resulting in an uneasiness about life Do I really have a purpose Seeking to address the spiritual unease the history of humanity documents the development and pursuit of religion with a concept of a divine creator with a plan for humanity However in more recent history with an increasing emphasis on scientific knowledge the concept of a divine creator is increasingly discounted as inconsistent with the material world revealed by scientific discovery Via the scientific method humanity is turning its focus to the material world creating new gods of science and the purveyors of scientific knowledge But rather than provide definitive answers as science continues to advance the theories of creation point increasingly to inconclusive and inconsistent results

These shortcomings of science are often veiled in the expression Someday we will know but many in the scientific community are beginning to question that hope With science and religion each plagued with inconsistency perhaps appropriately integrating them will lead us to the real answers we seek The Model of Everything A Divine Universe relies on both scientific and biblical knowledge to fully integrate science and religion in a consistent complementary and interdependent fashion This confluence and synergy of knowledge reveal a comprehensive model that accounts for the totality of human existence the physical and spiritual The reader via personal and straightforward experiments participates in developing the model Biblical knowledge is the pointer for a unique application of scientific knowledge Then the incredible and sometimes bizarre world of science reveals how God teaches us about our existence and spirituality The integration of scientific and biblical knowledge results in several new mental constructs providing an account for the totality of creation the material and immaterial and a genuine hope and understanding of personal existence The model presents some eye popping implications and applications as well as predictions on future scientific progress and outcomes Each reader is invited and encouraged to become a scientist a scientist prepared to chart a life changing personal discovery

The Spirit of Indian Philosophy Nikunja Vihari

Banerjee,2023-10-13 First published in 1975 The Spirit of Indian Philosophy provides a systematic overview of Indian philosophy The book is divided into four major parts dealing with Indian epistemology Indian metaphysics Indian ethics and Indian philosophy of religion It makes a departure from usual method of investigating Indian philosophy by dealing with its different schools individually and separately It discusses themes like sources of cognition nature and criterion of true cognition problem of error materialism realism dualism Indian theories of causation reflective morality the ethics of non violence Indian atheism and Indian religion of God to argue that the usual conception of Indian philosophy in general as religious spiritualistic and pessimistic is contrary to the fact that the doctrine of Karma transmigration and rebirth strictly speaking is incompatible with the Indian ways of thinking and in deed is an imposition upon them ab extra This is an essential read for scholars and students of Indian philosophy
