The Education of d/Deaf and Hard of Hearing Children Peter V. Paul, 2020-02-12 A significant number of d/Deaf and hard of hearing d/Dhh children and adolescents experience challenges in acquiring a functional level of English language and literacy skills in the United States and elsewhere To provide an understanding of this issue this book explores the theoretical underpinnings and synthesizes major research findings It also covers critical controversial areas such as the use of assistive hearing devices language and literacy assessments and inclusion Although the targeted population is children and adolescents who are d/Dhh contributors found it necessary to apply our understanding of the development of English in other populations of struggling readers and writers such as children with language or literacy disabilities and those for whom English is not the home language Collectively this information should assist scholars in conducting further research and enable educators to develop general

instructional guidelines and strategies to improve the language and literacy levels of d Dhh students It is clear that there is not a one size fits all concept but rather research and instruction should be differentiated to meet the needs of d Dhh students It is our hope that this book stimulates further theorizing and research and most importantly offers evidence and reason based practices for improving language and literacy abilities of d Dhh students **Resources in Education**

On Teaching that Works Feliks Tans, Agustinus Semiun, Basri K., Hilda M. Nalley, and Patrisius Warduna, 2020-01-15 As its name shows that is On Teaching That Works this book is about teaching that hopefully can empower our students to be better in their life in and after their formal schooling To be better is of course not just dependent on teaching it also depends on learning That is students can indeed be better in and beyond schools if they learn harder smarter day by day throughout their life span Learning harder smarter is ideally the result of among other things how teachers teach their students This is why this book covers also some issues related to learning a process through which learners can move individually and or collectively from being dependent to being independent with characters that are universally acceptable In that sense although the focus of this book seems to be in and around the teaching and learning of writing in general in English as a foreign language EFL in particular it may also be relevant for those who are interested in educational issues in general like how a teacher can be an inspiring one and not just a good or a superior one Chapter Four or how our schools should be redesigned in order to make them more effective in empowering our students in and beyond their formal educational processes Chapter 9 We have to acknowledge that the articles presented in this book have been made public before either in academic journals or in academic seminars We believe that by transferring those articles into a book form the ideas we have discussed before can then have broader audience and therefore be more beneficial for its audience worldwide We believe however that this book is not a perfect one We are therefore looking forward to having any criticism from our readers to make it better in the future
