Stewart* Hugh Cameron Gillies,1896 **The Elements of Gaelic Grammar** H. Cameron Gillies,2015-06-16 Excerpt from The Elements of Gaelic Grammar Based on the Work of the Rev Alexander Stewart D D The purpose of this Grammar is to afford assistance to such as may desire a living and intelligent acquaintance with the Gaelic language of Scotland With this object in view it was at first my settled intention to make little or no reference to the older language but I soon found this to be impossible An intelligent understanding of the Gaelic of the present day cannot be attained without some reference to the older language from which the later Grammatical forms had origin There is no pretence to learning in these pages nor any attempt even to indicate the results of modern Gaelic scholarship I have admitted nothing which I did not believe would be helpful to the elementary student and I hope my references will be found correct and my inferences also correct and useful I have the advantage of being in touch with intelligent students of the language as their teacher and I have made their actual difficulties guide me in everything I hope I have been able in some degree to enlighten and to smooth their way and that of others also who may undertake the same most interesting travel About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **The Elements of Gaelic Grammar** H.
