**Children's Book Review Index: Title index**, 1985 **An Unfortunate Place to Die** Allan Taylor, 2018-03-29 The Islamic terrorist group al Shabaab has overrun Somalia and is believed to be planning a major terrorist attack across the border in neighboring Kenya US officials are concerned the attack may be aimed at an American target in retaliation for recent drone strikes the US has been conducting against the terrorists As part of an all out effort to thwart the attack the US sends a young intelligence agent Alex Morgan to Mombasa the center of Kenya's Muslim community where al Shabaab is known to have a covert presence to try to uncover information about the group's plans But soon after he arrives Alex and a young French woman he meets run afoul of both al Shabaab and the notoriously corrupt Mombasa police causing Alex to wonder whether he has in fact been sent into a trap Caught in a web of terror and deceit Alex and the young woman must somehow find a way out with their lives hanging in the balance Keywords Spy Thriller Africa Terrorist Espionage Lies Murder Sex Corruption Betrayal *Settler Ecologies* Charis Enns, Brock Bersaglio, 2024-05-01 *Settler Ecologies* tells the story of how settler colonialism becomes memorialized and lives on through ecological relations Drawing on eight years of research in Laikipia Kenya Charis Enns and Brock Bersaglio use immersive methods to reveal how animals and plants can be enrolled in the reproduction of settler colonialism The book details how ecological relations have been unmade and remade to enable settler colonialism to endure as a structure in this part of Kenya It describes five modes of violent ecological transformation used to prolong structures of settler colonialism eliminating undesired wild species rewilding landscapes with

more desirable species to settler ecologists selectively repeopling wilderness to create seemingly more inclusive wild spaces and capitalize on biocultural diversity rescuing injured animals and species at risk of extinction to shore up moral support for settler ecologies and extending settler ecologies through landscape approaches to conservation that scale wild spaces Settler Ecologies serves as a cautionary tale for future conservation agendas in all settler colonies While urgent action is needed to halt global biodiversity loss this book underscores the need to continually question whether the types of nature being preserved advance settler colonial structures or create conditions in which ecologies can otherwise be re made and flourish

*The Hunt for the Golden Mole* Richard Girling, 2014-11-11 Taking as its narrative engine the hunt for an animal that is legendarily rare Richard Girling writes an engaging and highly informative history of humankind's interest in hunting and collecting what prompts us to do this what good might come of our need to catalog all the living things of the natural world Girling named Environmental Journalist of the Years 2008 and 2009 has here chronicled through the hunt for the Somali golden mole the

development of the conservation movement the importance of diversity in the animal kingdom including humankind within this realm as well as a hard look at extinction The Somali mole of the title first described in print in a text book published in 1964 had as sole evidence of its existence only the fragment of a jaw bone found in an owl pellet a specimen that seemed to have vanished as Girling began his exploration Intrigued by the elusiveness of this creature and what the hunt for the facts of its existence might tell us about extinction he was drawn to the dusty vaults of museums of natural history where the most rare artifacts are stored and catalogued as he found himself caught up in the need to track it down Part quest part travelogue the book that results not only offers an important voice to the scientific debate about extinction and biodiversity it becomes an environmental call to arms
