Electrical & Electronics Abstracts ,1997 Government Reports Annual Index ,1994 Index of Conference Proceedings Received British Library. Document Supply Centre,1986 Wind Effects on Cable-Supported Bridges You-Lin Xu,2013-03-07

As an in depth guide to understanding wind effects on cable supported bridges this book uses analytical numerical and experimental methods to give readers a fundamental and practical understanding of the subject matter It is structured to systemically move from introductory areas through to advanced topics currently being developed from research work The author concludes with the application of the theory covered to real world examples enabling readers to apply their knowledge The author provides background material covering areas such as wind climate cable supported bridges wind induced damage and the history of bridge wind engineering Wind characteristics in atmospheric boundary layer mean wind load and aerostatic instability wind induced vibration and aerodynamic instability and wind tunnel testing are then described

as the fundamentals of the subject State of the art contributions include rain wind induced cable vibration wind vehicle bridge interaction wind induced vibration control wind and structural health monitoring fatigue analysis reliability analysis typhoon wind simulation non stationary and nonlinear buffeting response Lastly the theory is applied to the actual long span cable supported bridges Structured in an easy to follow way covering the topic from the fundamentals right through to the state of the art Describes advanced topics such as wind and structural health monitoring and non stationary and nonlinear buffeting response Gives a comprehensive description of various methods including CFD simulations of bridge and vehicle loading Uses two projects with which the author has worked extensively Stonecutters cable stayed bridge and Tsing Ma suspension bridge as worked examples giving readers a practical understanding Advanced Materials in Optics, Electro-optics and Communication Technologies P.
