**Forming the Reference Library in the Reading Room of the British Museum** British Museum. Department of Printed  
Books,1910 **Secured Transactions Law Reform** Louise Gullifer,Orkun Akseli,2016-10-20 Secured transactions law has  
been subjected to a close scrutiny over the last two decades One of the main reasons for this is the importance of availability  
of credit and the consequent need to reform collateral laws in order to improve access to finance The ability to give security  
effectively influences not only the cost of credit but also in some cases whether credit will be available at all This requires  
rules that are transparent and readily accessible to non lawyers as well as rules that recognise the needs of small and  
medium sized enterprises This book critically engages with the challenges posed by inefficient secured credit laws It offers a  
comparative analysis of the reasons and the needs for a secured transactions law reform as well as discussion of the steps  
taken in many common law civil law and mixed law jurisdictions The book written under the auspices of the Secured  
Transactions Law Reform Project informs the debate about reform and advances novel arguments written by world renowned  
experts that will build upon the existing literature and as such will be of interest to academics legal practitioners and the  
judiciary involved in secured transactions law around the world The text considers reform initiatives that have taken place up  
to the end of April 2016 It has not been possible to incorporate events since then into the discussion However notable  
developments include the banks decree passed by the Italian Government on 29th June 2016 and the adoption of the Model  
Law on Secured Transactions by UNCITRAL on 1st July 2016
