*Water's Edge* Monica White, 2021-07-22 Every day is normal and predictable Anybody that knows me can tell you my exact movements For example the coffee shop Always the same chocolate raspberry muffin and a large hot white chocolate mocha These women know me so well that it is ready when I reach the counter

Dreams are the windows to our future but my dreams are of the unreal and unnatural dragons evil darkness and pure white magic But one day everything will change It was not planned and it was not predicted it just happened His name was Derek with his huge but protective body and the type of eyes that could see all the way down to your deepest and darkest thoughts while caressing your soul What we would never believe to be real has happened The darkness wants me and I have no way to fight it or at least that is what I had thought He will protect me and bring out my inner magic that has been waiting for the right person A lost soul has been found a battle will be fought but what will become of me and how will I continue on I have found my light and my purpose but in the end will it be enough to win the battle between light and dark

**The Intelligence behind Nature** Daniel Perret,2021-10-21 This book explores the conscious intelligence operating through nature through every tree river system or flower The author brings examples of what the work of nature spirits concretely consists of and how organized and complex nature is operating managing the transition from non physical energy consciouisness to physical manifestation It is characteristic of us civilized people to deal with nature from a purely anthropocentric point of view even when this is called eco centric in the ecologist movement and the rights of nature initiatives It is presumed that in nature there are no intelligent communication partners that can express their own point of view The shift in consciousness that occurred with Newtonian science in the 17th century splitting away and ignore the conscious intelligence of nature created our whole unbalance and alienation towards nature and life Recent philosophical discoveries confirm that consciousness is based on feelings and does not need a brain in order to perate Quantum field theory and energy science are possibly converging in the understanding of how energy layers operate and become transformed into matter one coming from physics the other from spiritual healing Recent philosophical discoveries confirm that conscious ness is based on feelings and does not need a brain in order to operate Quantum field theory and energy science are possibly converging in the understanding of how energy layers operate and become transformed into matter one coming from physics the other from spiritual healing Any communication with possible conscious beings in nature needs to fulfil some basic criteria espacially when evaluating whether they can contribute to political or legal decisions A recent interview with the Loire River Elemental can give an idea of how useful such a cooperation might be
