Elementary Science Methods With Infotrac:

Elementary Science Methods: A Constructivist Approach David Martin, 2005-07-22 In this pioneering text Martin uses a constructivist approach to guide students in learning how to teach in a constructivist manner Grounded in the belief that it is more important for children to learn how to do science than it is for them to learn about science this text is predicated on the reality that teachers of elementary science do not need to know a great deal of science to be good science teachers but need to be co inquirers with their students To facilitate your students learning this text features a wealth of exercises for teacher candidates the book includes open ended inquiry activities that help them to construct their own personal conceptualizations about science content and teaching science in the elementary school and it contains over 170 process oriented open ended activities that teachers can use to encourage children to develop and perform their own investigations The Book Companion CD ROM included with each new copy provides tools and resources such as additional activities and video which students can use both in their college course and later in elementary science classrooms All activities are linked to National Science Education Standards for content professional development assessment and teaching and the activities contain suggestions of appropriate children s literature Important Notice Media content referenced within the product description or the product text may not be available in the ebook version
