Black Belt, 1980-04 The oldest and most respected martial arts title in the industry this popular monthly magazine addresses the needs of martial artists of all levels by providing them with information about every style of self defense in the world including techniques and strategies In addition Black Belt produces and markets over 75 martial arts oriented books and videos including many about the works of Bruce Lee the best known martial arts figure in the world Purpose & Practice Denis Burke, 2013-01-03 Purpose Practice lays out tools of incalculable value to anyone interested in getting really good at what they do whatever that may be These are tools some little known of mental approach from the art science and philosophy of Aikido This book reveals some revolutionary ideas behind the art and the links between its extraordinary physical results and practices of Mind all of which adds up to a blueprint as applicable to organisations as it is for individuals Aikido is often justifiably seen as one of the most impenetrable martial arts largely because people so often experience it even for many years without knowing some of its core elements which have all too often been forgotten obscured or unknown Purpose Practice is a challenging book that fills in some of these essential gaps while helping the reader accelerate his or her progress and development Dialogical Social Theory Donald N. Levine, 2018-02-02 In his final work Donald N Levine one of the great late twentieth century sociological theorists brings together diverse social thinkers Simmel Weber Durkheim Parsons and Merton are set into a dialogue with philosophers such as Hobbes Smith Montesquieu Comte Kant and Hegel and pragmatists such as Peirce James Dewey and McKeon to describe and analyze dialogical social theory This volume is one of Levine's most important contributions to social theory and a worthy summation of his life's work Levine demonstrates that

approaching social theory with a cooperative peaceful dialogue is a superior tactic in theorizing about society He illustrates the advantages of the dialogical model with case studies drawn from the French Philosophes the Russian Intelligentsia Freudian psychology Ushiba s aikido and Levine s own ethnographic work in Ethiopia Incorporating themes that run through his lifetime s work such as conflict resolution ambiguity and varying forms of social knowledge Levine suggests that while dialogue is an important basis for sociological theorizing it still vies with more combative forms of discourse that lend themselves to controversy rather than cooperation often giving theory a sense of standing still as the world moves forward The book was nearly finished when Levine died in April 2015 but it has been brought to thoughtful and thought provoking completion by his friend and colleague Howard G Schneiderman This volume will be of great interest to students and teachers of social theory and philosophy
