Elements Of Christian Philosophy In The Ante-Nicene Fathers Robert A. Wolfe, 1957 **The Elements of Christian Science. A Treatise Upon Moral Philosophy and Practice** William ADAMS (of Wisconsin.), 1850 *A Critical Review of Gilson's "Elements of Christian Philosophy"* John Curran, 1961 **The Elements of Philosophy** William Wallace, 2012-05-16 The author presents in this single volume a complete summary of philosophy and its history specially designed for the student majoring in philosophy or the seminarian who needs philosophical knowledge for his work in theology The book is keyed to the New Catholic Encyclopedia where fuller expositions and bibliographies of the topics treated may be found The work is divided into three parts the first two being systematic and the third historical Part I summarizes the basic content of what is called scholastic philosophy logic natural philosophy psychology metaphysics epistemology natural theology and ethics Part II surveys the more recent philosophies of the specialized disciplines that is the various humanities and sciences from language and art to social and political thought Part III gives a synoptic account of the history of philosophy from the beginnings of the discipline to its most contemporary developments The presentation is simple and clear yet it is accurate and completely authoritative **The Possibility of Christian Philosophy** Adam C. English, 2013-05-13 This is the first to book to explore Blondel's entire body of work and provides an introduction to his life and writings and their relevance to the debates surrounding the radical orthodoxy identity Detailing Blondel's impressive research output during the first half of the twentieth century this volume highlights his relevance to philosophy and religion today and his commitment that philosophy cannot be separated from a theological narrative This highly original work will be of great interest to scholars of philosophy

and religion particularly the students of the radical orthodoxy movement *The Elements of Christian Science* Adams William,2023-07-18 In this seminal work Adams provides a clear and concise overview of the tenets of Christian Science drawing on both theological and philosophical perspectives to elucidate the central doctrines of the faith A must read for anyone seeking to deepen their understanding of Christian Science This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant
