The Practice of Politics in Postcolonial Brazil Roger A. Kittleson,2005-12-30 The Practice of Politics in Postcolonial Brazil traces the history of high and low politics in nineteenth century Brazil from the vantage point of the provincial capital of Porto Alegre In the immediate postcolonial period new ideas about citizenship and freedom were developing and elites struggled for control of the state as the lower classes sought inclusion in political life In a shift from the Liberal Party to Positivist or Conservative rule during the bloody Federalist Revolt of 1893 1895 new leaders sought to bring about a more balanced structure of government where the capitalist was sympathetic to the worker and the worker more passive toward the elite This represented a complete change of opinions a new regime of ideas Termed a scientific approach by its proponents the movement was based on historical process and would be brought about through civic education Against the backdrop of the abolition of slavery and subsequent assimilation the rise of European immigration and industrialization Kittleson investigates how the people shaped changing political ideologies and practices and how through local struggles and changes in elite ideology the lower classes in Porto Alegre won limited political inclusion that was denied elsewhere

Slaves, Peasants, and Rebels Stuart B. Schwartz,1996 Once preoccupied with Brazilian slavery as an economic system historians shifted their attention to examine the nature of life and community among enslaved people Stuart B Schwartz looks at this change while explaining why historians must continue to place their ethnographic approach in the context of enslavement as an oppressive social and economic system Schwartz demonstrates the complexity of the system by reconsidering work resistance kinship and relations between enslaved persons and peasants As he shows enslaved people played a role in shaping not only their lives but Brazil s institutionalized system of slavery by using their own actions and attitudes to place limits on slaveholders A bold analysis of changing ideas in the field Slaves Peasants and Rebels provides insights on how the shifting power relationship between enslaved people and slaveholders reshaped the contours of Brazilian society

Sul mas também a Colônia do Sacramento e Santa Catarina durante a época moderna anterior forma o dos Estados nacionais na América ibérica. Nos doze textos reunidos nesta obra abriu-se espaço para a participação de sujeitos outrora pouco representados na escrita da história da América meridional. Neste livro destacamos a participação de indígenas africanos e seus descendentes escravizados, traficantes e contrabandistas, conquistadores e povoadores, lavradores e pequenos posseiros na construção dessa fronteira meridional.

The Problem of the People Roger Alan Kittleson, 1997 Pelotas: Escravidão e Charqueadas (1780-1888) Jorge Euzébio Assumpção, 2009-11-10 Sobretudo em Pelotas escravidão e charqueadas o historiador Euzébio Assumpção narrou a história dos trabalhadores cativos nas fábricas de salgar carnes no maior centro charqueador da América Sulina. Demonstrou que o número de africanos e seus descendentes no território do Rio Grande do Sul foi maior que o informado pela historiografia oficial. Observou que o charque chegou a ser responsável por 85% das exportações do Rio Grande do Sul. Salientou a importância econômica do setor que mais empregou mão de obra cativa na província. Verificou que nos saladeiros pelotenses a média de escravizados era de 648 trabalhadores. Porém, salientou que em algumas fábricas chegaram a ter mais de uma centena e meia de cativos. Calculou que os homens estavam representados em 86,5% e mulheres em 13,5%. Explicou que a maioria seria negro masculino podia ser consequência do rigor do trabalho na matança e aclarou sobre o desinteresse dos proprietários com a família escravizada. Constatou que os africanos predominavam sobre os crioulos. Ponderou que o envelhecimento da população escravizada ocorreu depois da lei Euzébio de Queiroz. Avaliou as relações interestociais entre proprietários e cativos e afirmou serem violentas. Mostrou que as punições foram utilizadas até o final do regime servil. Propôs que a resistência contou com insurreições e assassinatos, sobretudo de capatazes e fugas, várias vezes para obter liberdade em algum quilombo. Observou que o maior número de cartas alforriadas foi lançado em 1884 por quem com clausulas de serviço obrigatório que perduraram até a data da Abolição. Produziu trabalho de valor inestimável para a nossa historiografia que havia muito esperava ser editado.

Bibliographic Guide to Latin American Studies, 1988 **Sowing the Whirlwind** Geert Arent Banck, Cornelis Wilhelmus Maria den Boer, 1991. These articles represent a multidisciplinary approach to the so-called soya boom in Southern Brazil. This crop has assumed such a dominant position in the agrarian development of the region since the early 1970s that soya has virtually become a metaphor for the profound transition which has taken place there. Old structures of production have been eliminated with small-scale agricultural producers in particular being driven from their land. The result has been a large measure of social unrest but at the same time many have also seized new opportunities. Of course soya has not been the only factor in this process of development but all the same this crop is the metaphor par excellence to typify the transition. A fascinating aspect of this situation is the fact that a process of this kind is closely connected with developments in the international market in commodities and in the national market. Without claiming to be comprehensive this collection of articles is an attempt to throw light on the various aspects of the process of change in the agrarian structure of Southern Brazil within the wider context of international and national developments.
