Habitus: A Sense of Place Emma Rooksby, 2017-09-19 Habitus is a concept developed by the late French sociologist Pierre Bourdieu as a sense of one's place, a sense of the other's place. It relates to our perceptions of the positions or place of ourselves and other people in the world in which we live and how these perceptions affect our actions and interactions with places and people. Habitus implies that a web of complex processes links the physical, the social and the mental. Inspired by this concept, this compelling book brings together leading scholars from interdisciplinary fields to examine ways in which spaces and places are constructed, interpreted and used by different people. This second edition contains updated chapter material together with an entirely new introduction and revised conclusions which recognise the importance of Bourdieu's work. This publication is a tribute to Pierre Bourdieu's remarkable contribution to the fields of sociology, anthropology, geography, political philosophy and urban planning.

Challenges Samuel Pinheiro Guimarães, 1997 *Trade and Capital Flow among Asian Economies* Chris Rowley, 2013-10-18 Trade and capital are important in the Asia region. Trade in the APEC region has been increasing but the large rise in China's exports has also been disturbing as it exhibits export substitution. The first two papers conclude that every economy has gained in trade though some are more successful than others. And that rise in export has a lot to do with a rise in foreign direct investments. Macroeconomic stability is the pre-condition to growth. Empirical studies show that the lack of stability has encouraged capital to flee an economy. Similarly, a market-oriented, price-driven and matured financial market provides an alternative source of funding. The lesson in economic development is that success in economic growth requires both an externally friendly market environment as well as consistent and favourable internal policies.

It will be of interest to students of development studies, Asia studies and public policy as well as to research scholars and practitioners including government officials and policymakers.
