Economic and Social Development in Pacific Asia Chris Dixon, David W. Smith, 2002-09-26 There can be no doubt that Japan remains unchallenged as the economic giant of the Pacific However the economies of East and South East Asia are increasingly becoming integrated into a broad Pacific Asia region which contains most of the world's fastest growing economies In *Economic and Social Development in Pacific Asia* a group of world authorities set the area in its global context and examine the economic emergence of the region In so doing they illustrate that despite superficial similarities there have been many more differences and it is not possible to offer a model of Asian development The authors also challenge the perceived wisdom that this dynamic growth is the result of laissez faire market led economies They argue that on the contrary there has been a great deal of government intervention and this growth is actually a result of a policy of guiding the market

Harrington, 2016-04-01 Until the 1990s industrialization was the dominant development paradigm for the Asia Pacific region. Regionalism, Trade and Economic Development in the Asia-Pacific Region Muhammed Abu B. Siddique, 2007-01-01 The editor of this book is to be congratulated for providing us with the works of a group of authors who combine proficient technical skills with elegant and lucid writing capabilities. This book would make excellent recommended reading for both undergraduate and graduate classes in international trade and finance. Herb Thompson, *Journal of Contemporary Asia*. This book is based on the premise that Regional Trade Agreements (RTAs) in the Asia Pacific significantly impact on the material progress of the peoples of this region. These impacts in terms of the benefits and costs associated with RTAs will vary greatly from country to country. The internationally acclaimed contributors examine the theoretical perspective of RTAs in relation to exchange rates, the role and goals of the WTO and agriculture. The tensions and trade frictions resulting from the formation of trade blocs and their conflicts with the roles and goals of the WTO are also examined in the book. Those economies that are considered the economic powerhouses of the region, including China, Japan, South Korea, major ASEAN countries and Australia, are discussed in depth. The findings of the book suggest that RTAs are becoming increasingly popular in the Asia Pacific region. However, the associated costs and benefits depend on a number of complex factors, including exchange rates, negotiation skills, the sectors included or excluded from the RTA and the level of economic development of the nations signing the RTAs. The book will be particularly useful to academics, researchers, consultants, students, policy makers, including trade negotiators and practitioners involved in trade and development in the Asia Pacific region. **Pacific Asia** David W.
