Innovation Policy and the Economy 2015 William R. Kerr, Josh Lerner, Scott Stern, 2016-04-22 The papers in the sixteenth volume of the National Bureau of Economic Research's *Innovation Policy and the Economy* offer insights into the changing landscape of innovation by highlighting recent developments in the financing of innovation and entrepreneurship and in the economics of innovation and intellectual property The first chapter by Ramana Nanda and Matthew Rhodes Kropf explores the process of experimentation in the context of financing of technology start ups by venture capitalists The second by Yael Hochberg also analyzes the role of entrepreneurial experimentation by systematically examining the rise of start up accelerators The third chapter by Heidi Williams studies the relationship between the strength of intellectual property rights and innovation The fourth paper by Fiona Scott Morton and Carl Shapiro discusses recent changes to the patent system and whether they align the rewards from intellectual property with the marginal contributions made by innovators and other stakeholders The final chapter by Karim Lakhani and Kevin Boudreau focuses on the potential use of field innovation experiments and contests to inform innovation policy and management Together these essays continue to highlight the importance of economic theory and empirical analysis in innovation policy research

The Economics of Persistent Innovation: An Evolutionary View Christian Bas, William Latham, 2009-06-04 William Latham Christian Le Bas Persistence of firm innovative behavior became an important topic in applied industrial organization with the publication of the seminal empirical work of P Geroski and his colleagues 1997 Evidence that firms innovate persistently has led previous studies to focus on the determinants of innovation persistence and on its heterogeneity across industries technologies and countries The aims of this book are 1 to illumine the scale and scope of the phenomenon of persistence in innovation and 2 to account for the principal factors that explain why some firms innovates persistently and others do not Because this book

deals intensively and extensively with the subject of firm innovation persistence which is not as yet a well known term we need to provide a nontrivial definition of it that encompasses the full range topics we want to address and aids our understanding of how they are related to each other We begin with a careful identification of innovation Our first definition is drawn from K Pavitt 2003 innovation processes involve the exploration and exploitation of opportunities for a new or improved product process or service based either on an advance in technical practice or a change in market demand or a combination of the two While this definition is clear and conforms well to both our empirical and theoretical perspectives some elaboration may help to clarify the concept

Economics of Innovation Roberto Cellini, 2008 **Handbook of the Economics of Innovations and Technological Change** Paul Stoneman, 1995 This volume presents the first comprehensive detailed and up to date overview of current knowledge in the Economics of Technological Change It both reviews what is known and accepted as the best thinking in the field and sets the agenda for research in the future by taking the reader to the boundaries of the subject Each major topic is surveyed by a leading international expert in the field and the articles are specifically designed to be both rigorous and accessible The quality and range of the contributions has ensured that the book is unique in covering the field in all its various dimensions whilst achieving the depth of analysis needed in each For those in the fields of the Economics of Technological Change Industrial Organization and Science and Technology Policy this book will be an essential text and reference The material will be invaluable and accessible to students and researchers as well as those working or setting policy in these fields

Innovation Policy and the Economy, 2016 Shane M. Greenstein, Joshua Lerner, Scott Stern, 2017-04-24 The seventeenth volume of the National Bureau of Economic Research's Innovation Policy and the Economy provides an accessible forum for bringing the work of leading academic researchers to an audience of policymakers and those interested in the interaction between public policy and innovation In the first chapter Joel Waldfoel discusses how reduced costs of production have resulted in a Golden Age of Television arguing that this development has gone underappreciated The second chapter by Marc Rysman and Scott Schuh discusses the prospects for innovation in payment systems including mobile payments faster payment systems and digital currencies In the third chapter Catherine Tucker and Amalia Miller analyze the consequences of patient data becoming virtually costless to store share and individualize showing how data management and privacy issues have become a key factor in health policy The fourth chapter by Michael Luca examines how online marketplaces have proliferated over the past decade evolving far beyond the pioneers such as eBay and Amazon In the fifth chapter Tim Bresnahan and Pai Ling Yin characterize information and communication technologies in the workplace addressing how wages vary with increasing demand for smart managers and professionals and workers with organizational participation skills

Innovation, Economic Development and Policy Jan Fagerberg, 2018-04-27 This authoritative and enlightening book focuses on fundamental questions such as what is innovation who is it relevant for what are the effects and what is the role of innovation policy in supporting innovation diffusion The first

two sections present a comprehensive overview of our current knowledge on the phenomenon and analyse how this knowledge and the scholarly community underpinning it has evolved towards its present state The third part explores the role of innovation for growth and development while section four is concerned with the national innovation system and the role of innovation policy in influencing its dynamics and responding to the important challenges facing contemporary societies

Economics of Innovation and New Technology ,1990 Innovation Policy in the Knowledge-Based Economy M.P. Feldman,Albert N. Link,2001-02-28

Scholars in the science and technology field have not collectively questioned much less proposed an agenda for policy makers Now is an appropriate time for such an undertaking First there is a growing belief that the U S national research and development system like that of many industrial nations is changing due to global competitive pressures and advancements in information technology and electronic commerce Second industry s R D relationship with the academic research community is changing not only because of the global competition but also because of alterations in the level of government support of fundamental research As a result policy makers will need to rethink their approaches to science and technology issues This volume is a collection of essays by scholars about innovative policy in the knowledge based economy By knowledge based economy we mean one for which economic growth is based on the creation distribution and use of technology As such innovation policy in such an economy must enhance the creation distribution and use of knowledge that leads to the creation distribution and use of technology This volume considers elements of an innovation policy innovation policy and academic research innovation policy in electronic commerce and innovation policy and globalization issues
