Challenges and Solutions in the Digital Economy and Finance Anna Rumyantseva, Vladimir Plotnikov, Alexey Minin, Hod Anyigba, 2022-11-04 This volume presents the proceedings of the 4th International Scientific and Practical Conference on Digital Economy and Finances DEFIN22 at the Saint Petersburg University of Management Technologies and Economics UMTE which took place in March 2022 It includes the newest research on the impact of new digital technologies on the growth and capitalization of companies and the labor market The volume discusses the problems of situational modeling of economic processes and the creation of digital twins of enterprises The contributions analyse how big data and artificial intelligence technologies are shaping the financial markets *Korea's Economic Miracle* Robert Castley, 2016-07-27 Very few developing countries have successfully industrialised Many are under pressure from international organisations to achieve self sustainable industrialisation This is why Korea's case is particularly interesting There have been many attempts to explain the causes of Korea's economic miracle These have focused mainly on the internal factors such as the discipline of the Korean workforce and export promotion policies The present study however shows that these factors contributed to Korea's impressive growth but do not explain the reasons for her success External factors have been more important the Japanese economy in particular This book examines therefore in detail the impact of Japan's economic growth on the Korean economy in particular the stimulating effects of trade sub contracting relocation of industry investment loans and technology transfer It demonstrates how Japan provided a range of goods services and capitals which were precisely what the newly industrialising country needed **United States Government Publications Monthly Catalog** , Proceedings of the 1987 Exclusive Economic Zone Symposium on Mapping and Research John F. Elder, Lawrence H. Smith, Richard W. Will, Ronald Charles Severson, Hansford T. Shacklette, William B. Krohn, 1988 *Australian National Bibliography: 1992* National Library of Australia, 1988 **Cooperation Networks and Economic Development** Andrés Cárdenas O'Farrill, 2021-02-11 For most Western audiences Cuba is a touristic paradise stuck in time and virtually detached from world technology networks by the US embargo anything but a hub of industrial innovation and high value added biotechnology However a closer look reveals more subtle but equally powerful stories that challenge the homogenizing assumptions of conventional economics and open up scope for more sophisticated reflections on Cuban economy and industry From this kind of enquiry emerges the case of the internationally respected Cuban biotech industry as the most successful case of science and technology policy in the country's economic history The book takes an interdisciplinary approach exploring issues such as interdependency purpose and history as natural constituencies of the innovation process It also examines the dynamic and crucial role played by the state in the formation of innovative business enterprises This book will be of interest to academic researchers in the fields of innovation and economic development *The Impact of the Geological Sciences on Society* Marion E. Bickford, 2013-09-24 This volume addresses the impact of the geological sciences from 1963-2013 in such areas as

geologic hazards mineral resources energy resources water resources soil resources geology and health geologic education and the informing of general public policy The chapters focus on how earth science informs and benefits society Provided by publisher Forage Legumes Jayne T. MacLean,1986 Key Account Management in Business-to-Business Markets Stefan Wengler,2007-11-06 Key account management as an alternative organizational form of marketing management became increasingly popular in many companies during the last years In its beginning key account management was particularly applied in the consumer packaged goods industry with respect to wholesalers as well as large department stores for some time key account management has also been applied time by suppliers in industrial markets as well as by companies offering product related services in order to serve their most important customers Despite its practical relevance in marketing management the implementation of key account management as well as its integration within the supplier s organization is hardly realized on an adequate economic evaluation Similarly key account management controlling of an already implemented key account management organization is also lacking These organizational units are once implemented neither controlled nor evaluated concerning their economic performance With respect to these rather surprising findings in marketing management practice the author develops a theory based decision support model which seems capable of overcoming the previously described deficits Based on a comparative analysis the efficiency of alternative key account management organizations is evaluated using criteria developed from transaction costs economics This decision model enables companies to evaluate each organizational key account management alternative on the basis of transaction cost economizing effects In addition set up costs which arise due to the implementation of the organizational unit are also included in the cost benefit calculation **Economic Entomology** ,1921
