**Dionysian Economics** Benjamin Ward, 2016-10-03 Nietzsche distinguished between two forces in art Apollonian which represents order and reason and Dionysian which represents chaos and energy An ideal work of art combines these two characteristics in a believable relatable balance Economists Ward argues have operated for too long under the assumption that their work reflects scientific Apollonian principals when these simply do not or cannot apply constants in economics stand in for variables mathematical equations represent the simplified ideal rather than the complex reality and the core scientific principal of replication is all but ignored In Dionysian Economics Ward encourages economists to reintegrate the standard rigor of the scientific method into their work while embracing the fact that their prime indicators come from notoriously chaotic and changeable human beings Rather than emphasizing its shortfalls compared to an extremely Apollonian science such as physics economics can aspire to the standards of a science that accounts for considerable Dionysian variation such as biology The book proposes that economists get closer to their dynamic objects of study that they avoid the temptation to wish away dynamic complexity by using simplifying assumptions and that they recognize the desire to take risks as fundamentally human

Krugman,Robin Wells,Kathryn Graddy,2010-10 Check out preview content for Essentials of Economics here Essentials of Economics brings the same captivating writing and innovative features of Krugman Wells to the one term economics course Adapted by Kathryn Graddy it is the ideal text for teaching basic economic principles with enough real world applications to help students see the applicability but not so much detail as to overwhelm them Watch a video interview of Paul Krugman here      *Developing Country Debt and Economic Performance, Volume 1* Jeffrey D. Sachs,2007-12-01 For dozens of developing countries the financial upheavals of the 1980s have set back economic development by a decade or more Poverty in those countries has intensified as they struggle under the burden of an enormous external debt In 1988 more than six years after the onset of the crisis almost all the debtor countries were still unable to borrow in the international capital markets on normal terms Moreover the world financial system has been disrupted by the prospect of widespread defaults on those debts Because of the urgency of the present crisis and because similar crises have recurred intermittently for at least 175 years it is important to understand the fundamental features of the international macroeconomy and global financial markets that have contributed to this repeated instability This project on developing country debt undertaken by the National Bureau of Economic Research provides a detailed analysis of the ongoing developing country debt crisis The project focuses on the middle income developing countries particularly those in Latin America and East Asia although many lessons of the study should apply as well to other poorer debtor countries The project analyzes the crisis from two perspectives that of the international financial system as a whole volume 1 and that of individual debtor countries volumes 2 and 3      *Engaging With History in the Classroom* Janice I. Robbins,Carol L. Tieso,2021-10-03 Engaging With History in the Classroom The Civil War is the second in a series of middle grade U S history units that focus on what it means to be an American citizen living in a democracy that expects as much from its citizens as it provides to them In every lesson students are asked to step into the world of 19th century America to hear about and to see what was happening to read the words of real people and to imagine their hopes dreams and feelings Students also learn to question the accounts left behind and to recognize different perspectives on events that divided the nation but resulted in progress in the path to liberty for all Resources for teachers include a running script useful as a model for guiding conceptualization as well as extensive teacher notes with practical suggestion for personalizing activities Grades 6 8
