Ecopopulism Toxic Waste And The Movement For Environmental Justice:

Ecopopulism Andrew Szasz, 1994 **EcoPopulism** Andrew Szasz, Moment by moment the evidence mounts that unchecked modern industry is bringing us ever closer to environmental disaster How can we move away from the brink of extinction toward a human society the earth can bear In the thriving popular politics of hazardous waste Andrew Szasz finds an answer a scenario for taking the most pressing environmental issues out of the academy and the boardroom and turning them into everyone's business This book reconstructs the growth of a powerful movement around the question of toxic waste Szasz follows the issue as it moves from the world of official policymaking in Washington onto the nation's television screens and into popular consciousness and then into America's neighborhoods spurring the formation of thousands of local community based groups He shows how in less than a decade a rich infrastructure of more permanent social organizations emerged from this movement expanding its focus to include issues like municipal waste military toxics and pesticides In the growth of this movement we witness the birth of a radical environmental populism Here Szasz identifies the force that pushed environmental policy away from the traditional approach pollution removal toward the superior logic of pollution prevention He discusses the conflicting official responses to the movement's evolution revealing that despite initial resistance lawmakers eventually sought to appease popular discontent by strengthening toxic waste laws In its success Szasz suggests this movement may even prove to be the vehicle for reinvigorating progressive politics in the United States **Chronicles from the Environmental Justice Frontline** J. Timmons Roberts, Melissa M. Toffolon-Weiss, 2001-09-24 *Chronicles from the Environmental Justice Frontline* first published in 1991 provides a rare glimpse of the environmental justice movement as it plays out in four landmark struggles at the end of the twentieth century The book describes the stories of everyday people who have decided to take to the streets to battle what they perceive as injustice the unequal exposure of minorities and the poor to the bads produced by our industrial society In these struggles residents and local state and national environmental and social justice groups are on one side pitted against local and state government representatives and industry on the other By employing historical and theoretical lenses in viewing these struggles the book reveals how situations of environmental injustice are created and how they are resolved These cases bear great similarity to battles occurring across the nation and are setting precedents for national and state agencies as they handle these cases *Populism, Eco-populism, and the Future of Environmentalism* James R. Stone Jr., 2022-05-12 *Populism Eco populism and the Future of Environmentalism* analyzes the history and language of populism in order to fully comprehend the threat of eco fascism paradoxically revealing that it is possible for there to be both progressive eco Populist and right wing sham eco Populist discourses The book highlights the harrowing prospect that the crises of democracy now confronting countries such as the United States may culminate in forms of eco fascism in a world increasingly divided over issues of economic and social inequality immigration and competition for dwindling resources The author reveals that there is a language of eco populism that accompanies Populist and sham

Populist discourses of the left and right as ecological crises have assumed a more prominent role in national and global politics. These crises are exacerbated by the willingness of the fossil fuel industry to destabilize democracy in order to forestall government imposed limits on carbon emissions and elimination of fossil fuel subsidies that threaten their profits. The book primarily a work of political and ecological theory draws on the history of populism as well as the history of conservation and modern environmental movements to make an innovative argument that a radical form of right wing sham eco populism that emerged out of the crucible of the energy crisis and recession of the 1970s has substantially contributed to the crises we now face. The author maintains that the only plausible solution to current political and ecological crises is a progressive eco populism that combines environmental justice and sustainability with economic and social justice and offers resources that can help construct a democratic and inclusive movement and culture. A progressive eco Populist vision has led to proposals for a Green New Deal and the development of the Build Back Better Act currently being considered by the U S Congress but the stalemate between progressive and conservative Democrats over the bill reveals both the compromised state of U S representative democracy and the need for a stronger movement to hold politicians and government accountable. This book will be of great interest to students scholars and researchers of environmental politics environmental history and environmental philosophy as well as sociology political science and history.

Hazards Vulnerability and Environmental Justice Susan L. Cutter, 2012-05-04 From Hurricane Katrina and the south Asian tsunami to human induced atrocities terrorist attacks and the looming effects of climate change the world is assailed by both natural and unnatural hazards and disasters. These expose not only human vulnerability particularly that of the poorest who are least able to respond and adapt but also the profound worldwide environmental injustices that result from the geographical distribution of risks hazards and disasters. This collection of essays from one of the most renowned and experienced experts provides a timely assessment of these critical themes. Presenting the top selections from Susan L. Cutter's thirty years of scholarship on hazards vulnerability and environmental justice the volume tackles issues such as nuclear and toxic hazards risk assessment communication and planning and societal responses. Cutter maps out the terrain and draws out the salient themes with a fresh powerful introduction written in the wake of her work in the aftermath of Katrina. This essential collection is ideal for professionals researchers academics and students working on hazards risk disasters and environmental justice across a range of disciplines.

So, Lily Xiao Hong Lee, 2020-10-07 Exploring one of the most dynamic and contested regions of the world this series includes works on political economic cultural and social changes in modern and contemporary Asia and the Pacific Environmental Justice in South Africa David A. McDonald, 2002 In 11 articles reprinted from a 1999 journal and a 1998 anthology South African social scientists and those from elsewhere who have worked there provide an overview of the environmental justice movement in the country which blossomed only after the battle against apartheid was won in the early 1990s They trace its history and describe the key theoretical and practical issues it faces after a decade what has changed and what remained the same the most and least effective strategies and future directions Annotation copyrighted by Book News Inc Portland OR

New Directions in Anthropology and Environment Carole L. Crumley, 2002-05-09 Carole L. Crumley has brought together top scholars from across anthropology in a benchmark volume that displays the range of exciting new work on the complex relationship between humans and the environment Continually pursuing anthropology's persistent claim that both the physical and the mental world matter these environmental scholars proceed from the holistic assumption that the physical world and human societies are always inextricably linked As they incorporate diverse forms of knowledge their work reaches beyond anthropology to bridge the sciences social sciences and the humanities and to forge working relationships with non academic communities and professionals Theoretical issues such as the cultural dimensions of context knowledge and power are articulated alongside practical discussions of building partnerships research methods and ethics and strategies for implementing policy *New Directions in Environment and Anthropology* will be important for all scholars and non academics interested in the relation between our species and its biotic and built environments It is also designed for classroom use in and beyond anthropology and students will be greatly assisted by suggested reading lists for their further exploration of general concepts and specific research Learn more about the author at the University of North Carolina Anthropology Department web pages **The Face of the Earth** J. Donald Hughes, 2015-05-11 Although the organizing principle of

virtually every world history text is development the editor of this volume maintains that this traditional approach fails to address the issue of sustainability By adopting the ecological process as their major theme the authors show how the process of human interaction with the natural environment unfolded in the past and offer perspective on the ecological crises in our world at the beginning of the 21st century Topics range from broad regional studies that examine important aspects of the global environment that affect nations to a study of the widespread influence of one important individual on his nation and beyond The authors take different approaches but all share the conviction that world history must take ecological process seriously and they all recognize the ways in which the living and non living systems of the earth have influenced the course of human affairs

Environmental Justice Paul Thompson, 2017-09-29 Environmental justice is one of the most controversial and important issues in contemporary social science Volume 8 of the Energy and Environmental Policy series challenges our understanding of environmental justice in a global context It includes theoretical investigations and case studies by leading authors in the field Global forces of technology and the development of global markets are transforming social life and the natural order These changes require a critical examination of nature society relations Increasingly modernization assigns the risks of modernity to those with the least power and greatest vulnerability to environmental harm Conventional environmentalism which focuses on critique of the effects of humanity against nature is inadequate to the challenges of globalization In particular it fails to explain sources of persistent patterns of social injustice that accompany escalating environmental exploitation As the capacity for environmental destruction expands broader concerns about environmental injustice have come to the fore including awareness of threats to whole cultures ways of life and entire ecologies The volume's authors consider the links between expanded patterns of environmental injustice and the structures and forces underlying and shaping the international political economy Environmental injustice is examined across a variety of cultures in the developed and developing world Through case studies of climate colonialism revolutionary ecology and environmental commodification the global and local dimensions of the problem are presented The latest volume in this important series demonstrates that environmental justice cannot be reduced to simple parables of indifference prejudice or appropriation It forges understanding of environmental injustice as a development of international political economy itself Likewise initiatives on behalf of environmental justice are seen as elements of broader movements to secure self determination in a globalizing world This book will be of interest to policymakers energy and environmental experts and all those interested in the environment and environmental law It provides new perspectives on the place of environmental justice in international political and economic conflict

A History of Environmentalism Marco Armiero, Lise Sedrez, 2014-07-31 Think globally act locally has become a call to environmentalist mobilization proposing a closer connection between global concerns local issues and individual responsibility *A History of Environmentalism* explores this dialectic relationship with ten contributors from a range of disciplines providing a history of environmentalism which frames global themes and narrates local stories Each of the chapters in this volume addresses specific struggles in the history of environmental movements for example over national parks species protection forests waste contamination nuclear energy and expropriation A diverse range of environments and environmental actors are covered including the communities in the Amazonian Forest the antelope in Tibet atomic power plants in Europe and oil and politics in the Niger Delta The chapters demonstrate how these conflicts make visible the intricate connections between local and global the body and the environment and power and nature *A History of Environmentalism* tells us much about transformations of cultural perceptions and ways of production and consuming as well as ecological and social changes More than offering an exhaustive picture of the entire environmentalist movement *A History of Environmentalism* highlights the importance of the experience of environmentalism within local communities It offers a worldwide and polyphonic perspective making it key reading for students and scholars of global and environmental history and political ecology

Seeing Green Finis Dunaway, 2015-03-01 This smart highly readable book examines how the iconography of environmentalism has helped shape and limit popular discourse American Studies American environmentalism is defined by its icons from the Crying Indian who shed a tear over litter to Al Gore's documentary *An Inconvenient Truth* These kinds of images helped make environmental consciousness central to American culture And yet these same images obscured critical environmental truths Finis Dunaway examines this dual role in *Seeing Green* Considering a wide array of images from print magazines and television news to political posters and even cartoons Dunaway shows how popular environmentalism has been entwined with mass media spectacles of crisis He focuses on key moments in which media images provoked environmental anxiety while prescribing limited forms of action Moreover he shows how the

media blamed individual consumers for environmental degradation and thus deflected attention from corporate and government responsibility Ultimately Dunaway argues iconic images have impeded efforts to realize or even imagine sustainable visions of the future Generously illustrated this innovative book examines both the history of environmentalism and the power of the media to shape our politics **Cultural Politics** Marcy Darnovsky, 2010-06-10 Bridging the worlds of activism and academia this volume combines social movement theory with the real experiences of activists Social Movement Studies in Europe Olivier Fillieule, Guya Accornero, 2016-03-01 Bringing together over forty established and emerging scholars this landmark volume is the first to comprehensively examine the evolution and current practice of social movement studies in a specifically European context While its first half offers comparative approaches to an array of significant issues and movements its second half assembles focused national studies that include most major European states Throughout these contributions are guided by a shared set of historical and social scientific questions with a particular emphasis on political sociology thus offering a bold and uncommonly unified survey that will be essential for scholars and students of European social movements *Love Canal Revisited : Race, Class, and Gender in Environmental Activism* Elizabeth D. Blum, 2008 Historical snapshots of the Love Canal area Gender at Love Canal Race at Love Canal Class at Love Canal Historical implications of gender race and class at Love Canal *Environmental Justice* Paul Thompson, 2017-09-29 Environmental justice is one of the most controversial and important issues in contemporary social science Volume 8 of the Energy and Environmental Policy series challenges our understanding of environmental justice in a global context It includes theoretical investigations and case studies by leading authors in the field Global forces of technology and the development of global markets are transforming social life and the natural order These changes require a critical examination of nature society relations Increasingly modernization assigns the risks of modernity to those with the least power and greatest vulnerability to environmental harm Conventional environmentalism which focuses on critique of the effects of humanity against nature is inadequate to the challenges of globalization In particular it fails to explain sources of persistent patterns of social injustice that accompany escalating environmental exploitation As the capacity for environmental destruction expands broader concerns about environmental injustice have come to the fore including awareness of threats to whole cultures ways of life and entire ecologies The volume's authors consider the links between expanded patterns of environmental injustice and the structures and forces underlying and shaping the international political economy Environmental injustice is examined across a variety of cultures in the developed and developing world Through case studies of climate colonialism revolutionary ecology and environmental commodification the global and local dimensions of the problem are presented The latest volume in this important series demonstrates that environmental justice cannot be reduced to simple parables of indifference prejudice or appropriation It forges understanding of environmental injustice as a development of international political economy itself Likewise initiatives on behalf of environmental justice are seen as elements of broader movements to
