Economic—Environmental—Energy Interactions T.R. Lakshmanan, 2012-12-06 This publication is concerned with two major current debates in public policy in all affluent societies One is the widespread concern with the quality of the natural environment the quality of air water land and wilderness areas which has expressed itself in the passage and implementation in recent years of a variety of environmental laws and regulations A second debate concerns the adequacy of energy resources to meet the requirements of a growing economy The requirement that industries must abate environmental pollution leads to increased costs of production and in turn to higher prices falling output in those industries and reduced employment and income in the region where such industries are located There may be at the same time growth in industries that supply pollution abatement equipment and services in those or other regions Over time the health and economic benefits of higher environmental quality express themselves in changing patterns of consumption *Books in Series* ,1985 Vols for 1980 issued in three parts Series Authors and Titles **Environment & Planning** ,1981 Key to Economic Science and Managerial Sciences ,1980 Semi monthly review with annual indexes of abstracts on economics finance trade industry foreign aid management marketing labour **The British Library General Catalogue of Printed Books 1976 to 1982** British Library, 1983 **A London Bibliography of the Social Sciences** ,1931 Vols 1 4 include material to June 1 1929 **Library Bulletin** Great Britain.
