K. Bailes,Isabel Frommelt,2004 Bringing together a variety of experts in business government and international organizations this is a major new evaluation of the growing interdependence of the private and public sectors in tackling present day security challenges Enlarged EU - Enlarged Neighbourhood Nicolas Hayoz,Leszek Jesień,Wim Meurs (van),2005 Since May 2004 the European Union borders countries that have not yet accomplished their transformation process or are still struggling for stability These countries are now the neighbours of the European Union but are they also candidates for accession The European Neighbourhood policy is a policy that explicitly excludes the possibility of accession However possible future membership is the strongest implicit argument for pushing the new neighbours towards reform How does the European Union deal with its new neighbours and how do they deal with the European Union What plans and programs of cooperation exist What prospects and risks does the new neighbourhood imply Are there further attempts of cooperation and European integration besides these at the EU level The authors try to answer these questions by providing a critical perspective of the EU policy regional overviews and country reports from Eastern and South Eastern Europe *Understanding Conflict and Violence* Tim Jacoby,2007-09-12 This book examines and interprets a wide range of approaches to the causes of violence and conflict The causes of violence and conflict are often left untheorized or they are discussed as an existent problem assumed to be an inevitable part of human interaction Adopting an accessible approach this volume presents readers with a clear understanding of the causes of violence and conflict by highlighting their evolutionary roots and illustrating them with in depth case studies and examples Tim Jacoby addresses the fragmented nature of the literature on conflict theory by drawing upon a wide range of disciplinary traditions seeking to reflect the fact that international relations history economics development politics and sociology all share a long standing interest in the study of conflict and violence and that common concerns make interdisciplinary stimulating and productive Understanding
