Psychiatric Nursing, Second Edition Kathleen Tusaie, Joyce J. Fitzpatrick, 2016-10-14 This text reinvigorates the emphasis on the therapeutic relationship that is the core of nursing practice It also relies on our strong history as therapists and introduces a need for integration of all aspects of care a true holistic approach that characterizes the nursing perspective The book should serve as a review for nurses who are studying for certification exams and is very useful for coursework in DNP programs as well as the masters programs in psychiatric mental health nursing Grayce M Sills PhD RN FAAN Professor Emerita Ohio State University From the Foreword Now in its second edition this groundbreaking text and reference continues to be the only resource for APRNs to focus on integrative interventions for individuals with mental health problems across the lifespan Combining theory and practice it provides a clear framework for integrating psychopharmacology psychotherapy and Complementary and Alternative Medicine CAM into advanced practice nursing The second edition is thoroughly updated to reflect current research new classifications in DSM 5 genetic testing and increased use of telemental health delivery It builds upon its lifespan focus and updates quick access pediatric pointers and aging alerts Additionally the resource incorporates the 2014 publication of the ANA Scope and Standards of Practice for Psychiatric Nurses offers a new focus on QSEN requirements and responds to the need to reduce health disparities and address cultural considerations Organized around psychiatric syndromes the text covers neurobiology theory and research evidence related to

psychopharmacology psychotherapy and CAM interventions. It provides a virtual buffet of clear treatment options in the form of well designed decision trees and accompanying explanatory narratives. The text also includes a section on such special considerations as substance misuse, medical problems, pregnancy and forensic issues that often co occur with psychiatric syndromes. Concise clear language and abundant charts, graphs and algorithms enhance the book's value in supporting sound clinical reasoning. New to the Second Edition: Thoroughly updated evidence based content. Encompasses new research. Presents three completely new chapters on Integrative Management of Impulse Control, Telehealth and Quality Improvement and Evidence Based Practice. Includes the expertise of new contributors. Reflects DSM 5 updates, ANA Standard of Practice for Psychiatric Nurses and QSEN standards. Updates quick access Pediatric Pointers and Aging Alerts. Key Features: Integrates theory and practice. Simplifies complex concepts using clear language while retaining depth of information. Supports clinical decision making skills through easy to follow Decision Trees. Organized around psychiatric syndromes. Edited by internationally acclaimed practitioner educators.

Fundamental Aspects of Palliative Care Nursing 2nd Edition Robert Becker, 2016-06-13. This new and expanded edition is aimed directly at the learning needs of student nurses and is unique in that context. Whilst there are many high quality books available for academic study in palliative care, this is currently the only one that balances a strong educational focus for developing nursing practice with an understanding of the particular needs of student nurses. The text maintains a sensitive and supportive approach to the key themes of palliative care nursing but contains important new material of a wide range of initiatives that are impacting on end of life care across the UK. It will provide the reader with a concise, easy to read and learning oriented text that will give advice and direction to the many challenges faced in this most important area of patient care. Each chapter examines a key component of care and new features include Learning outcomes at the start of each chapter to guide the reader. Clinical anecdotes to illustrate the reality and complexity of practice. Extensive use of recognisable symbols to guide the reader and improve the usability of the text. Competency assessment to help gauge knowledge and progress. Reflective points to aid professional development. Reflective activities to enable the student to reinforce learning from practice. Links to appropriate clauses of the current 2008 NMC Code of Professional Conduct. Quality internet resources relevant to chapter content. Self assessment multiple choice tests at the end of each chapter to consolidate learning. An extensive palliative care quiz covering the main topic areas of the book to test knowledge. This can be used as evidence with professional portfolios.
