*Asia's Stock Markets* Mr.Fabian Lipinsky,Li Lian Ong,2014-02-26 Stock markets play a key role in corporate financing in Asia However despite their increasing importance in terms of size and cross border investment activity the region s markets are reputed to be more idiosyncratic and less reliant on economic and corporate fundamentals in their pricing Using a model that draws on international asset pricing and economic theory as well as accounting literature we find evidence of greater idiosyncratic influences in the pricing of Asia s stock markets compared to their G 7 counterparts beyond the identified systematic factors and local fundamentals We also show proof of a significant relationship between the strength of implementation of securities regulations and the noise in stock pricing which suggests that improvements in the regulation of securities markets in Asia could enhance the role of stock markets as stable and reliable sources of financing into the future

*Booms, Bubbles and Busts in US Stock Markets* David L. Western,2004-08-12 In the US stock market things have changed a great deal since the heady days of the 1980s and we are now entering an era of profound uncertainty with most analysts predicting trouble ahead Indeed the alarming decline of the NASDAQ shows no sign of abating and the fear is that traditional industries will be the next to bite the dust September 11th has only added to the gloomy mood A user friendly overview of the inner workings of the US stock market this book examines the current market conditions before looking back to the events of the past century the Great Depression the 1970s oil crisis the party for the rich atmosphere of the 1980s and the emergence of the new economy *Volatility and Time Series Econometrics* Mark Watson,Tim Bollerslev,Jeffrey R. Russell,2010-02-11 A volume that celebrates and develops the work of Nobel Laureate Robert Engle it includes original contributions from some of the world s leading econometricians that further Engle s work in time series economics

*Emerging Capital Markets and Globalization* Augusto de la Torre,Sergio Schmukler,2006-10-20 Back in the early 1990s economists and policy makers had high expectations about the prospects for domestic capital market development in emerging economies particularly in Latin America Unfortunately they are now faced with disheartening results Stock and bond markets remain illiquid and segmented Debt is concentrated at the short end of the maturity spectrum and

denominated in foreign currency exposing countries to maturity and currency risk Capital markets in Latin America look particularly underdeveloped when considering the many efforts undertaken to improve the macroeconomic environment and to reform the institutions believed to foster capital market development The disappointing performance has made conventional policy recommendations questionable at best Emerging Capital Markets and Globalization analyzes where we stand and where we are heading on capital market development First it takes stock of the state and evolution of Latin American capital markets and related reforms over time and relative to other countries Second it analyzes the factors related to the development of capital markets with particular interest on measuring the impact of reforms And third in light of this analysis it discusses the prospects for capital market development in Latin America and emerging economies and the implications for the reform agenda

### **System-Theoretic Methods in Economic Modelling II** S. Mittnik, 2014-06-28

System Theoretic Methods in Economic Modelling II complements the editor's earlier volume bringing together current research efforts integrating system theoretic concepts with economic modelling processes The range of papers presented here goes beyond the long accepted control theoretic contributions in dynamic optimization and focuses on system theoretic methods in the construction as well as the application stages of economic modelling This volume initiates new and intensifies existing debate between researchers and practitioners within and across the disciplines involved with the objective of encouraging interdisciplinary research The papers are split into four sections estimation filtering and smoothing problems in the context of state space modelling applying the state space concept to financial modelling modelling rational expectation and a miscellaneous section including a follow up case study by Tse and Khilnani on their integrated system model for a fishery management process which featured in the first volume

### *Dynamic Modelling and Control of National Economies*

1989 N.M. Christodoulakis, 2014-06-28 The Symposium aimed at analysing and solving the various problems of representation and analysis of decision making in economic systems starting from the level of the individual firm and ending up with the complexities of international policy coordination The papers are grouped into subject areas such as game theory control methods international policy coordination and the applications of artificial intelligence and experts systems as a framework in economic modelling and control The Symposium therefore provides a wide range of important information for those involved or interested in the planning of company and national economics
