Books in Print ,1991 **The Psychological and Cultural Foundations of East Asian Cognition** Julie

Spencer-Rodgers,Kaiping Peng,2018 The Psychological and Cultural Foundations of East Asian Cognition is one of the most comprehensive volumes on East Asian cognition and thinking styles to date This book is also one of the first to bring together a large body of empirical research on two of the most influential theories in culture psychology na ve dialecticism and analytic holistic thinking **Handbook of Economic Psychology** W.F. Van Raaij,G.M. van Veldhoven,K.E.

Wärneryd,2013-03-09 The idea to publish a Handbook of Economic Psychology came up as a natural consequence of a discussion concerning appropriate reading material for courses in economic psychology The discussion took place a few years ago in the Department of Economic Psychology at Tilburg University The Netherlands It was noted that there was a surprising lack of collections of pertinent readings to say nothing about the lack of textbooks in the English language So the present editors who had been involved in the discussion decided to start working on a Handbook The situation has changed quite a lot since then There are now a number of books internationally available in the English language in economic psychology or behavioral economics The interest in this field of study is expanding quite impressively The Journal of Economic Psychology is now 1988 in its ninth volume and many other journals are publishing articles in the field The application of psychological theories and methods to economic problems or the study of economic experiences and behavior is variously referred to as economic psychology or behavioral economics While in principle we do not want to overdo the differences between the two we have a feeling that economic psychology has a slightly stronger flavor of psychology than behavioral economics which in its turn seems to be closer to economics Psychologists tend to feel more at home in economic psychology while economists seem to favor behavioral economics **New Concepts and Trends of Hybrid Multiple Criteria**

Decision Making Gwo-Hshiung Tzeng,Kao-Yi Shen,2017-08-15 When people or computers need to make a decision typically multiple conflicting criteria need to be evaluated for example when we buy a car we need to consider safety cost and comfort Multiple criteria decision making MCDM has been researched for decades Now as the rising trend of big data analytics in supporting decision making MCDM can be more powerful when combined with state of the art analytics and machine learning In this book the authors introduce a new framework of MCDM which can lead to more accurate decision making Several real world cases will be included to illustrate the new hybrid approaches Marketing and the Common Good

Patrick E. Murphy, John F. Sherry Jr., 2013-07-24 Marketing is among the most powerful cultural forces at work in the contemporary world affecting not merely consumer behaviour but almost every aspect of human behaviour While the potential for marketing both to promote and threaten societal well being has been a perennial focus of inquiry the current global intellectual and political climate has lent this topic extra gravitas Through original research and scholarship from the influential Mendoza School of Business this book looks at marketing's ramifications far beyond simple economic exchange It addresses four major topic areas societal aspects of marketing and consumption the social and ethical thought sustainability and public policy issues in order to explore the wider relationship of marketing within the ethical and moral economy and its implications for the common good By bringing together the wide ranging and interdisciplinary contributions it provides a uniquely comprehensive and challenging exploration of some of the most pressing themes for business and society today
