

The background of the cover features a silhouette of a person sitting in an office chair, looking at a computer monitor. The person is positioned on the left side of the frame. In the background, there is a large line graph with multiple fluctuating lines, suggesting financial data or market trends. The overall color scheme is dark with a warm, orange-brown glow emanating from behind the person and the graph.

Congressional Record United States. Congress, 1995 Principles of International Finance

Daniel R. Kane, 2018-03-15 *Principles of International Finance* first published in 1988 provides a comprehensive introduction to international finance which is rapidly becoming an increasingly important branch of international economics. The book is structured so that it can easily be adopted as a complete one semester course in international finance and is divided into the four major divisions of international finance: The Foreign Exchange Market and the Balance of Payments; Exchange Rate Systems; Equilibrium and the Adjustment Process; and The Post War International Financial System. This book is designed for economics and business undergraduates studying international finance for the first time. It is non-mathematical and presumes no more than a general background in macroeconomics.
