Trilogy comprises selections from the works of distinguished scholars both past and present on the single land tax and its relation to Georgist philosophy Drawing upon principles of land economics they offer detailed and diverse insights into the concept of a single tax based on land value and the practical uses of land value taxation in industrialised economies as an effective and equitable way to redistribute wealth

Disconnected William Wresch,1996 In the Information Age information is power Who produces all that information how does it move around who uses it to what ends and under what constraints Who gets that power And what happens to the people who have no access to it Disconnected begins with a striking vignette of two men One is the thriving manager of a company selling personal computers and computer services The other is just one among thousands of starving laborers He has no way to find the information that might help him find a job he cannot afford newspapers rarely sees television cannot understand the dialect of local radio broadcasts will probably never touch a computer These two men happen to live in Windhoek Namibia but this is not a story about Africa it is a story that could be repeated almost anywhere in the world even next door With vivid anecdotes and data William Wresch contrasts the opportunities of the information rich with the limited prospects of the information poor Surveying the range of information personal public organizational commercial that has become the currency of exchange in today s world he shows how each represents a form of power He analyzes the barriers that keep people information poor geography tyranny illiteracy psychological blinders noise crime Technology alone he demonstrates is not the answer Even the technology rich do not always get access to important information or recognize its value Wresch spells out the grim consequences of information inequity for individuals and society Yet he ends with reasons for optimism and stories of people who are working to pull down the impediments to the flow of information

Oral Traditions and the Verbal Arts Ruth Finnegan,2003-09-02 Provides up to date guidance on how to approach the study of oral forms and their performances examining both the practicalities of fieldwork and the methods by which oral texts and performances can be observed collected and analysed

Mr. Sorkin Goes to Washington Melissa Crawley,2014-06-26 Before the unprecedented televised presidential debates of 1960 most Americans were able to relate to their leaders in little more than an historical context In the era of televised elections however the media have allowed Americans to witness the paternal moral and intellectual qualities of their president up close Television has been so critical to this process of political socialization that for many Americans the televised image of the president is the president As the acclaimed television drama The West Wing demonstrates fictional representations of the presidency can also be significant civic forces This book examines how film and television drama contribute to shaping the presidency and the way most Americans understand it and particularly the processes of political education The text discusses The West Wing s didactic potential its representation of White House politics and its depiction of race and gender with commentary on how fictional representations of the presidency become important elements of American political consciousness
